**America's Fire Engine** Walter M.P. McCall,Alan M. Craig,2022-11-16 As World War II drew to a close, America's premier fire apparatus builder-the American-LaFrance Foamite Corp. of Elmira, N.Y.-bet the company's future on its radical new cab-ahead-of-engine 700 Series fire engines. In a spectacular gamble to capture the superheated postwar market, all of the company's existing products were discontinued and its customers were essentially told to take it or leave it. This bold gamble paid off and 700 Series rigs soon filled firehouses across the nation, sweeping aside all competitors and ultimately defining the breakthrough 700 as America's Fire Engine. This is the first comprehensive history of the game-changing 700. Individual chapters detail not only each of the eight major vehicle types but also the origins, design controversies, manufacturing, and marketing of the 700 and short-lived transitional 800 Series. The book includes a meticulously researched registry of every 700/800 series apparatus delivered, supported by many interpretive tables detailing production, specifications and major fire department fleets.

Through examples and case studies, the book is designed to allow the fire officer to study how the fire service has been involved with responding to various disasters and, by learning from the past and understanding the concepts presented, make a difference in the overall outcome of future events. *Kumba Africa* Sampson Ejike Odum, 2020-11-03 'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New Yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.
