Sachi Schmidt-Hori

Samurai Warfare Stephen R. Turnbull, Michael Boxall, 1997 A look at Samurai warfare and specific battles in which it was applied.

Japanese Castles in Korea 1592-98 Stephen Turnbull, 2012-10-20 The Japanese invasion and occupation of Korea, which lasted from 1592 to 1598, was the only occasion in Japanese history when samurai aggression was turned against a foreign country. During the occupation of Korea the Japanese built 25 wajo or castles. Unlike the castles built in Japan, these fortifications were never developed or modernized after the Japanese departure. The details of late 16th-century castle construction are therefore better preserved than at many other sites. Written by Stephen Turnbull, an expert in the subject, this book examines the castles built by the Japanese in Korea, as well as the use made of existing Korean fortifications, particularly city walls. This resulted in curious hybrid fortifications that dominated the landscape until the Japanese were pushed out of the peninsula by a furious onslaught from huge Chinese armies.

Japan's Castles Oleg Benesch, 2019-05-02 Considering Castles and Tenshu -- Modern Castles on the Margins -- Overview: from Feudalism to the Edge of Space -- From Feudalism to Empire -- Castles and the Transition to the Imperial State -- Castles in the Global Early Modern World -- Castles and the Fall of the Tokugawa -- Useless Reminders of the Feudal Past -- Remilitarizing Castles in the Meiji Period -- Considering Heritage in Early Meiji -- Castles and the Imperial House -- The Discovery of Castles, 1877-1912 -- Making Space Public -- Civilian Castles and Daimyo Buyback -- Castles as Sites and Subjects of Exhibitions -- Civil Society and the Organized Preservation of Castles -- Castles, Civil Society,

and the Paradoxes of Taisho Militarism -- Building an Urban Military -- Castles and Military Hard Power -- Castles as Military Soft Power -- Challenging the Military -- The military and Public in Osaka -- Castles in War and Peace: Celebrating Modernity, Empire, and War -- The Early Development of Castle Studies -- The Arrival of Castle Studies in Wartime -- Castles for town and country -- Castles for the empire -- From feudalism to the edge of space -- Castles in war and peace II: Kokura, Kanazawa, and the Rehabilitation of the -- Nation -- Desolate gravesites of fallen empire: what became of castles -- The imperial castle and the transformation of the center -- Kanazawa castle and the ideals of progressive education -- Losing our traditions: lamenting the fate of japanese heritage -- Kokura castle and the politics of japanese identity -- Fukko: hiroshima castle rises from the ashes -- Hiroshima castle: from castle road to macarthur boulevard and back -- Prelude to the castle: rebuilding hiroshima gokoku shrine -- Reconstructions: celebrations of recovery in hiroshima -- Between modernity and tradition at the periphery and the world stage -- The weight of Meiji: the imperial general headquarters in hiroshima and the -- Meiji centenary -- Escape from the center: castles and the search for local identity -- Elephants and castles: odawara and the shadow of tokyo -- Victims of history I: Aizu-wakamatsu and the revival of grievances -- Victims of history II: Shimabara castle and the Enshrinement of loss -- Southern Barbarians at the gates: Kokura castle's struggle with authenticity -- Japan's new castle builders: recapturing tradition and culture -- Rebuilding the Meijo: (re)building campaigns in Kumamoto and Nagoya -- No business like castle business: castle architects and construction companies -- Symbols of the people? conflict and accommodation in Kumamoto and Nagoya -- Conclusions.

Japan in the Muromachi Age John Whitney Hall, Toyoda

Takeshi,2022-07-15 This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1977.

An Encyclopedia of Japanese History Chris

Spackman,2022-10-27 This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Multiethnic Japan John Lie,2009-07 Multiethnic Japan challenges the received view of Japanese society as ethnically homogeneous. Employing a wide array of arguments and evidence--historical and comparative, interviews and observations, high literature and popular culture--John Lie recasts modern Japan as a thoroughly multiethnic society. Lie casts light on a wide range of minority groups in modern Japanese society, including the Ainu, Burakumin (descendants of premodern outcasts), Chinese, Koreans, and Okinawans. In so doing, he depicts the trajectory of modern Japanese identity. Surprisingly, Lie argues that the belief in a monoethnic Japan is a post-World War II phenomenon, and he explores the formation of the

monoethnic ideology. He also makes a general argument about the nature of national identity, delving into the mechanisms of social classification, signification, and identification.

Art of the Samurai 日本武蔵, Metropolitan Museum of Art (New York, N.Y.), 2009 This extensively illustrated catalogue is published in conjunction with the first comprehensive exhibition devoted to the arts of the samurai, including the finest examples of swords - the spirit of the samurai - as well as sword mountings and fittings, armor and helmets, saddles, textiles, and paintings. The works in the catalogue, drawn from public and private collections in Japan, include 34 officially designated National Treasures and 64 Important Cultural Properties, the largest number ever to be shown together at one time. Dating from the 5th to the early 20th century, these majestic objects offer a complete picture of samurai culture and its unique blend of the martial and the refined. Many of the greatest Japanese swordsmiths are represented in this volume, from early masters such as Yasuie (12th century) and Tomomitsu (14th century) to the Edo-period smiths Nagasone Kotetsu and Kiyomaro. The blades by these and other masters, cherished as much for their beauty as for their cutting efficiency, were equipped with elaborate hilts and scabbards prized for their exquisite craftsmanship and fine materials such as silk, rayskin, gold, lacquer, and certain alloys unique to Japan. Japanese armor is also fully surveyed, from the rarest iron armor of the Kofun period (5th century) to the inventive ceremonial helmets made toward the end of the age of the samurai. --Book Jacket.

The Hatoyama Dynasty M. Itoh, 2003-11-07 This is a multi-generational political history of the Hatoyamas, a family that has participated at the highest levels of Japan's parliamentary government from its inception in the late

1800s. The Hatoyama family is one of the most prominent political families in modern Japanese government. It has produced six members of the Diet, Japan's parliament, many of whom have served as cabinet members and party leaders. Due to the family's political legacy, they have often been likened to the Kennedy family in American politics (though they have been spared the tragedy and scandal visited upon the Kennedys). Despite the significance of the Hatoyamas to modern Japanese politics, this is the first comprehensive study available in English. In tracing the rising political fortunes of this family, it is also possible to study the role of hereditary politicians in Japan, the growth and evolution of Japanese political parties, and, perhaps most importantly, the way political leadership functions in Japan, a society known more for consensus-building than strong leaders.

Japan Before Tokugawa S. Hall, Nagahara Keiji, Kozo Yamamura, 2014-07-14 These papers by leading specialists on sixteenth-century Japan explore Japan's transition from medieval (Chusei) to early modern (Kinsei) society. During this time, regional lords (daimyo) first battled for local autonomy and then for national supremacy. Originally published in 1981. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Ninja Kacem Zoughari, Ph.D., 2013-07-30 Ninjutsu is the most renowned and misunderstood of all martial arts. The

long history of ninjutsu is often murky; surrounded by mystery and legend. Here, for the first time, is an in-depth, factual look at the entire art of ninjutsu, including emergence of the ninja warriors and philosophy in feudal Japan; detailed historical events; its context in the development of other schools of martial arts; and the philosophies and exercises of the school today. Based on more than ten years of study and translation of authentic Japanese texts, including many that have never before been translated, this is the most comprehensive and accurate study on the art of ninjutsu ever written outside of Japan. This ninja book includes studies of ninjutsu history, philosophy, wisdom, and presents a wide range of information from authors, historians, chronicles and scrolls in order to foster a deep understanding of this shadowy art. For those who train in ninjutsu, for other martial art practitioners, for historians, and for anyone with an interest in Japanese feudal history or Japanese martial arts, *The Ninja: Ancient Shadow Warriors of Japan* shines a light on this enigmatic subject.

Tales of Idolized Boys Sachi Schmidt-Hori, 2021-06-30

In medieval Japan (14th–16th centuries), it was customary for elite families to entrust their young sons to the care of renowned Buddhist priests from whom they received a premier education in Buddhist scriptures, poetry, music, and dance. When the boys reached adolescence, some underwent coming-of-age rites, others entered the priesthood, and several extended their education, becoming *chigo*, or Buddhist acolytes. *Chigo* served their masters as personal attendants and as sexual partners. During religious ceremonies—adorned in colorful robes, their faces made up and hair styled in long ponytails—they entertained local donors and pilgrims with music and dance. Stories of acolytes (*chigo monogatari*) from the fourteenth to

sixteenth centuries form the basis of the present volume, an original and detailed literary analysis of six tales coupled with a thorough examination of the sociopolitical, religious, and cultural matrices that produced these texts. Sachi Schmidt-Hori begins by delineating various dimensions of chigo (the chigo “title,” personal names, gender, sexuality, class, politics, and religiosity) to show the complexity of this cultural construct—the chigo as a triply liminal figure who is neither male nor female, child nor adult, human nor deity. A modern reception history of chigo monogatari follows, revealing, not surprisingly, that the tales have often been interpreted through cultural paradigms rooted in historical moments and worldviews far removed from the original. From the 1950s to 1980s, research on chigo was hindered by widespread homophobic prejudice. More recently, aversion to the age gap in historical master-acolyte relations has prevented scholars from analyzing the religious and political messages underlying the genre. Schmidt-Hori’s work calls for a shift in the hermeneutic strategies applied to chigo and chigo monogatari and puts forth both a nuanced historicization of social constructs such as gender, sexuality, age, and agency, and a mode of reading propelled by curiosity and introspection.

Rennyo and the Roots of Modern Japanese Buddhism

Mark L. Blum, Shin'ya Yasutomi, 2006 Rennyo Shonin (1415-1499) is considered the 'second founder' of Shin Buddhism. This book deals with the major questions surrounding the phenomenal growth of Hongaji under Rennyo's leadership, such as the source of charisma, the soteriological implications of his thought against the background of other movements in Pure Land Buddhism, and more.

Anime Interviews Trish Ledoux, 1997-09-22 In this book, the first collection of its kind, you will hear insights directly

from the mouths and minds of the anime and manga creators themselves, in interviews with are often the only ones on record in English. some of these creators are larger-than-life legends in their native Japan, some are up-and-coming young talents, but all have a lot to say on the subject of their work.

The Kamakura Bakufu Jeffrey Mass,1976-06-01 The essential guide for anyone undertaking the study of medieval Japan.—From the Foreword by Takeuchi Rizo. This pioneering guide to the content and use of documents in the study of medieval Japan has two parts. Part I consists of translations, arranged by topic with annotation and running commentary, of 177 edicts and land records from the time of Japan's Kamakura shogunate (1180-1333). The documents illustrate the patterns of authority, bureaucracy, and justice that emerged under Japan's first warrior government, with emphasis on the appointment of local officials and the curbing of local ambitions. The translations are offered for the historical record and as a demonstration of how medieval sources can be used by historians. Part II is an annotated and geographically classified Bibliography of nearly 600 books and articles in Japanese that present the texts of official documents (komonjo) issued from earliest times to 1600. No comparable bibliography exists even in Japanese. The work includes explanatory introductions, a glossary of terms and phrases used in the documents, alphabetical and chronological indexes of the documents and sources, and photographs of representative original documents, with comments on format and style.

Diplomacy and Ideology in Japanese-Korean Relations: From the Fifteenth to the Eighteenth Century E. Kang,2016-01-15 During the premodern period, Japan had significant political, economic and cultural relations with Korea. This book purports that this period,

from the fifteenth to the eighteenth century, was the formative stage of the East Asian diplomacy and ideology which laid the foundations for foreign relations between these two countries in the modern period. The book also investigates how Japan's and Korea's political and diplomatic ideologies emerged as a nascent form of nationalism which scholars have not previously clarified.

Court and Bakufu in Japan Jeffrey P. Mass, 1995 The Kamakura period, 1180-1333, is known as the era of Japan's first warrior government. As the essays in this book show, however, the period was notable for the coexistence of two centers of authority, the Bakufu military government at Kamakura and the civilian court in Kyoto, with the newer warrior government gradually gaining ascendancy.

Japan in the Taisho Era ,1917

The Routledge Course in Japanese Translation Yoko Hasegawa, 2013-05-13 The Routledge Course in Japanese Translation brings together for the first time material dedicated to the theory and practice of translation to and from Japanese. This one semester advanced course in Japanese translation is designed to raise awareness of the many considerations that must be taken into account when translating a text. As students progress through the course they will acquire various tools to deal with the common problems typically involved in the practice of translation. Particular attention is paid to the structural differences between Japanese and English and to cross-cultural dissimilarities in stylistics. Essential theory and information on the translation process are provided as well as abundant practical tasks. The Routledge Course in Japanese Translation is essential reading for all serious students of Japanese at both undergraduate and postgraduate level.

Imjin Changch'o Sun-sin Yi, 1981
