How to Build a Model Railway David Ashwood, Market Deeping, 2022-11-08 Moving from a train set out of a box to making your own model railway can seem a daunting proposition. Whether you go your own way, wish to follow a prototype tightly or have an inherited stock that you want to make the best of. This book covers the act of deciding on a design that will keep the interest alive. Executing it in a manner that is within your skills set, and finishing it to a quality you are satisfied by within a time and financial limit. Here learning from those who have had both successes and the occasional false start will assist you in execution of your project and maintaining its interest. The book aims to explain jargon and includes such subjects as project design and planning, alternative baseboard construction methods, track laying, basic electrics accompanied by a rich and varied imagery. The Market Deeping Model railway club rose to public notice in May 2019 following the sad overnight vandalism of their annual railway show. The breaking news story became a worldwide cause célèbre bringing a whirlwind of kind support from modelers and the general public. The rebuilding of the club's damaged layouts and new projects for replacements gave the rare opportunity of experienced modelers to photograph and document the build process and revisit the basics. The results are incorporated into this book making a positive and cathartic activity from a distinctly negative situation.

Start with Why Simon Sinek, 2011-12-27 The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.
