Avatar Tuner Yu Godai,2017-09-05 In the post-apocalyptic Junkyard, a mysterious religious order known only as the Church watches over the brutal competition between warring tribes as they vie to unify six territories and thereby gain access to Nirvana, the promised land. But the rules of the competition have changed, and the Junkyard has been thrown into chaos after its inhabitants are granted not only demonic transformation powers, but their first taste of human emotion. The Church demands that any tribe seeking entry to paradise must also deliver the strange girl named Sera to them. Serph and the other members of the Embryon struggle to keep Sera safe from enemies on all sides, all while striving to find whatever allies they can in order to beat the Church at their own game. Avatar Tuner, Vol. 2 continues the Quantum Devil Saga, a series inspired by the Shin Megami Tensei video games, which are widely popular in their native Japan and have gained a considerable following in the West. Translated into English for the first time, experience the story of Serph and his tribe as they fight not only to win, but to understand the supernatural forces that govern the Junkyard.

Happiness 6 Shuzo Oshimi,2017-12-19 A supernatural story of sexual awakening, growing up, and suburban vampirism, Happiness follows a dorky boy who is attacked by a girl in an alley. She sucks his blood and gives him a choice: life or death. He chooses life, but finds himself nearly overwhelmed by a new thirst and a fascination with the necks of his classmates... Praise for Flowers of Evil: A shockingly readable story that vividly--one might even say queasily--evokes the fear and confusion of discovering one's own sexuality. Recommended. -The Manga Critic A page-turning tale of sordid middle school blackmail. -Otaku USA Magazine By loving this manga I recognize what a sick and twisted individual I have become. While I can still say that I am not truly deviant, Flowers of Evil is a great reminder of my own thirst for power and my own personal corruption. -Otaku Champloo

Bauhaus Effects in Art, Architecture, and Design Kathleen James-Chakraborty,Sabine T. Kriebel,2022-04-21 Bringing together an international team of scholars, this book offers new perspectives on the impact that the Bauhaus and its teaching had on a wide range of artistic practices. Three of the fields in which the Bauhaus generated immediately transformative effects were housing, typography, and photography. Contributors go further to chart the surprising relation of the school to contemporary developments in hairstyling and shop window display in unprecedented detail. New scholarship has detailed the degree to which Bauhaus faculty and students set off around the world, but it has seldom paid attention to its impact in communist East Germany or in countries like Ireland where no Bauhäusler settled. This wide-ranging collection makes clear that a century after its founding, many new stories remain to be told about the influence of the twentieth century's most innovative arts institution. The book will be of interest to scholars working in art history, design history, photography, and architectural history.

Cultural Nationhood and Political Statehood André Liebich,2022-07-19 Cultural Nationhood and Political Statehood explores the development of the idea that every nation – most commonly understood as a linguistic community – is entitled to its own state. Following several contemporary studies of nationalism, this book provides a critical examination of the peculiarly modern concurrence of cultural nations and political states as it developed in the nineteenth and twentieth centuries. The author argues that this is one of the most fateful coincidences of modernity: so firmly engraved in today's consciousness that most scholars and policymakers assume the correlation of cultural nationhood and political statehood to be intellectually unproblematic, yet the consequences have been overwhelming. The conflation of cultural nation and political state has imposed an isomorphism of language, culture, and politics upon the world. It has pre-determined democratic practice by enforcing the doctrine that the will of the people can only be the will of a people. It has led to the assumption that every nation may become a state. The book's originality lies in tracing the genesis and the elaboration over time of this curious contemporary assumption. This thought-provoking book offers an unconventional perspective on the development of nationalism and world history. It will be relevant for upper-level students, scholars, and researchers of European history, nationalism, and self-determination.

Torrance's theological anthropology. T. F. Torrance's Christological Anthropology: Discerning Humanity in Christ engages with several key themes in Torrance's theological anthropology and considers how each one of these topics—anthropological method, the metaphysics of human nature, the imago Dei, personhood, vocation, human destiny—can be further developed in light of Christ.
