**Drone governance** Jeanneret, C., Rambaldi, G. (ed), 2016-12-31 This study assessed the existence of policies, rules and regulations governing the use of 'unmanned aerial vehicles' (UAVs) – or drones – in all 79 African, Caribbean and Pacific (ACP) Group countries. The results are quite telling: as of April 2016, 73% of ACP countries did not have any rules or regulations in place; 19% had some regulations in place; and 8% were in the process of formulating them. The data gathered in the course of the study have been published on a site hosted by The Swiss Foundation for Mine Action (FSD) and are accessible at [www.droneregulations.info](http://www.droneregulations.info). CTA hopes that this database will help to increase awareness of the rules and regulations surrounding UAV use, promote their responsible use and help to fully realise their potential in the management of crops, fisheries and other resources.

Introduction to Unmanned Aircraft Systems R. Kurt Barnhart, Douglas M. Marshall, Eric Shappee, 2021-03-04 Introduction to Unmanned Aircraft Systems, Third Edition surveys the basics of unmanned aircraft systems (UAS), from sensors, controls, and automation to regulations, safety procedures, and human factors. Featuring chapters by leading experts, this fully updated bestseller fills the need for an accessible and effective university textbook. Focussing on the civilian applications of UAS, the text begins with an historical overview of unmanned aerial vehicles, and proceeds to examine each major UAS subsystem. Its combination of understandable technical coverage and up-to-date information on policy and regulation makes the text appropriate for both Aerospace Engineering and Aviation programs.

*Current Trends in Small Unmanned Aircraft Systems* John Philip Craiger, Diane Maye Zorri, 2019 In this new occasional paper, Dr. J. Philip Craiger and Dr. Diane Maye Zorri explore current trends in small unmanned aircraft systems (sUAS) technology and its applications to Special Operations Forces (SOF). The paper begins with analysis of the definition and classification of sUAS, their major applications, and characteristics. The authors then present sUAS military applications, threats, current/future threat scenarios, and counter-sUAS capabilities and technology. The authors conclude with a look at the five-year trends in sUAS to include cyber-enabled counter-sUAS. Setting the stage in their introduction the authors state, As armed forces around the world continue to invest in research and development of sUAS technologies, there will be tremendous potential to revolutionize warfare, particularly in context of special operations -- Publisher's description.

**Airborne Warfare** James Maurice Gavin, 2020-04-13 To every member of the 82nd Airborne Division who dropped as part of the American paratroop landings during World War Two, they breathed a little easier knowing their commander Jumpin' Jim Gavin would be jumping with them. General Gavin's paratroops drop-landed and fought in Sicily, Normandy on D-Day and during the abortive attempt to capture the Rhine bridges during Operation Market-Garden. He shared the risks of all his men parachuting into enemy territory, often only armed with his GI issue rifle. His memoirs are an outstanding addition to the literature of the Airborne in World War II.

**The Return of the Mother** Andrew Harvey, 2013-08-20 Adapted from a series of lectures on the historical basis and current resurgence of the sacred feminine, given by Andrew Harvey at the California Institute of Integral Studies in Spring 1994, *The Return of the Mother* is a profound journey into the heart of the Divine Mother. In this comprehensive and groundbreaking work, mystical scholar Andrew Harvey unearths traces of the sacred feminine in major world religions—Hinduism, Islam (Sufism), Buddhism, Taoism, and Christianity—and in aboriginal and indigenous wisdom traditions. Harvey presents a scathing critique of the patriarchal distortions in religious history and doctrine that have obscured full knowledge of the Divine Mother, and shows how to reintegrate this vital aspect into the spiritual consciousness of humankind. *The Return of the Mother* offers a radical new perspective, balancing the historical overemphasis on transcendence by honoring the immanence of the divine in passionate engagement in the world. Only by cultivating a direct, respectful relationship with the transformative power

of the sacred feminine can we alter our disastrous attitude of dissociation from nature, the body, sexuality, and the details of human life, and generate the energy and compassion needed to reverse the course of destruction we have set the planet—and all of life—hurtling toward. In lively question-and-answer sections, Harvey further illuminates these vital issues and takes a strong stand against our dependence on “gurus” and “masters,” proposing instead an egalitarian model of spiritual community based on intimate groups of mutually supportive guides and friends. The Return of the Mother is an eloquent and passionate call for all of us to rediscover and reclaim an authentic and empowering relationship to the divine, and recreate a sacred life-in-the-world.

*My Darkest Years* James Bachner, 2010-06-25 Born in Berlin in 1922, James Bachner was a German Jew during the darkest days of the Third Reich. Once a happy child in a well-to-do German family, as the years passed Bachner faced first ridicule and persecution, then imprisonment and deprivation. Attributing his survival to a combination of strength and being in the right place at the right time, Bachner's memoir is a poignant and often horrific account of Jewish struggles during the days of World War II. Beginning with his idyllic childhood, Bachner expresses the range of emotions he experienced as the Nazis transformed his homeland into a nation where he and his fellow Jews were no longer welcome. He describes the volatile political atmosphere and the fears inspired in all Germans by tales of the concentration camps. In addition, he tells of the belief many Jews held that the West would step in and put an end to Hitler's reign. The work then details the realities of life in a concentration camp. The end of the war, Bachner's reunion with his remaining family members and his eventual relocation to America are also discussed.
