**Citizen 13660** ,1983 Mine Okubo was one of 110,000 people of Japanese descent--nearly two-thirds of them American citizens -- who were rounded up into protective custody shortly after Pearl Harbor. Citizen 13660, her memoir of life in relocation centers in California and Utah, was first published in 1946, then reissued by University of Washington Press in 1983 with a new Preface by the author. With 197 pen-and-ink illustrations, and poignantly written text, the book has been a perennial bestseller, and is used in college and university courses across the country. [Mine Okubo] took her months of life in the concentration camp and made it the material for this amusing, heart-breaking book. . . . The moral is never expressed, but the wry pictures and the scanty words make the reader laugh -- and if he is an American too -- blush. -- Pearl Buck Read more about Mine Okubo in the 2008 UW Press book, Mine Okubo: Following Her Own Road, edited by Greg Robinson and Elena Tajima Creef.

**A Different Home** Kelly DeGarmo, John DeGarmo, 2014-01-21 A sensitive picture book to help ease the anxieties of foster children aged 4 to 10 entering placement. In *A Different Home*, Jessie tells us her story of being placed in foster care. At first she is worried and has lots of questions. The new home is not like her old home -- she has a different bedroom, different clothes, and there's different food for breakfast. She also misses her family. When Jim and Debbie, her foster parents, answer her questions she begins to feel better and see that this different home is kind of nice. Written in simple language and fully illustrated in color, this storybook is designed to help children in care, or moving into care, to settle in and answer some of the questions they may have. Accompanied by notes for adults on how to use the story with children, it will be a useful book for foster parents and caseworkers, as well as social workers, teachers and anyone else working with children in foster care.

*Papertoy Monsters* Brian Castleforte, 2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), *Papertoy Monsters* offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

*Introductory Grammar of Amharic* Wolf Leslau, 2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic

transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.
