**Chinese Watercolor Techniques – Painting Animals** Lian Quan Zhen,2004-12-22 Capture the essence of animals like never before! Using Chinese and watercolor techniques and materials, you can create animals with elegance and grace. Let award-winning artist Lian Quan Zhan show you how with his clear and basic step-by-step instructions. Artists at all levels will benefit from Lian's deep

understanding of both art forms. He guides you through the process by beginning with the basic properties of Chinese materials such as rice paper and ink, and leading to more advanced techniques such as loading a brush with multiple colors. He also teaches watercolor pouring techniques so you can create vibrant animals and beautiful backgrounds. So much of Chinese painting stems from observation and interpretation of nature. Apply these principles by painting cats, birds, tigers, and many other animals in seventeen step-by-step demonstrations. Find your inspiration within the animals of this book, and breathe the spirit of the East and West into your own art.

*Young Drivers* OECD/ECMT Transport Research Centre, European Conference of Ministers of Transport, 2006-10-04 The great over-representation of young drivers in crashes and road fatalities is a serious public health problem that exacts an unacceptable toll in human, social and economic terms. Young drivers account for about 27 per cent of driver fatalities across OECD countries, although people in the same age group represent only about 10 per cent of the population. Furthermore, between 20 and 30 per cent of total traffic fatalities result from crashes involving a young driver. Young

male drivers' crash fatality rates are as much as three times those of young female drivers, and remain much higher even when adjusted to factor in their higher rates of exposure. In some countries, young males' relative risk, compared to that of other drivers, is increasing. The high levels of young driver risk result principally from factors of inexperience, age, and gender. This risk is aggravated by the circumstances under which many young people drive - young people, especially men, are over-represented in crashes at high speed, at night, with similarly aged passengers, involving alcohol, and often when not wearing seatbelts. There is no single solution. The goal of reduced young driver crashes must be pursued through a combination of countermeasures involving the licensing process, training and learning methods, enforcement, education and communication, and technology.

**How to Make Adorable Baby Animal Dolls** Jonni Good,2013-06 In this book the author shows you exactly how to make your own adorable baby animal collector's dolls, leading you through the entire process every step of the way. Your dolls won't cost much to make, and every doll will be an original, one-of-a-kind work of art. Since no two dolls ever come out exactly alike, each doll will have it's own personality and character. You won't have to learn how to make molds for the doll heads, because each one is hand-sculpted over a simple armature. You don't need a kiln, because you'll be using home-made air-dry clay instead of porcelain. The resulting heads are seamless, hollow, and surprisingly strong. The bodies and ears are made out of soft, huggable cotton velour, and the toes are sculpted with a few easy stitches. Adorable!

*Watson-Gandy on Accountants* Mark Watson-Gandy, 2008 Accountants play an increasingly important and diverse role in society today. Traditionally, in the UK, accountants are the first port of call for businessmen seeking any form of professional advice or assistance. This major work provides UK legal practitioners and accountants with clear and practical guidance from non-contentious but vital governance issues, to the complex issues pertaining to professional negligence. The book's 6 checklists and 32 precedents guide the reader through the key topics: partnership creation, cl
