Lloyd's Register Technical Association 1964-1965

Lloyd's Register Foundation, 1964-01-01 The Lloyd's Register Technical Association (LRTA) was established in 1920 with the primary objective of sharing technical expertise and knowledge within Lloyd's Register. Publications have consistently been

released on a yearly basis, with a brief interruption between 1938 and 1946. These publications serve as a key reference point for best practices and were initially reserved for internal use to maximise LR's competitive advantage. Today, the LRTA takes a fresh approach, focusing on collaboration by combining professional expertise from across LRF & Group to ensure a frequent output of fresh perspectives and relevant content. The LRTA has evolved into a Group-wide initiative that identifies, captures, and shares knowledge spanning various business streams and functions. To support this modern approach, the LRTA has adopted a new structure featuring representatives and senior governance across the business streams and the LR Foundation. The Lloyd's Register Technical Association Papers should be seen as historical documents representing earlier viewpoints and are not reflective of current thinking and perspectives by the current LR Technical Association.

The Big Book of Conflict Resolution Games: Quick, Effective Activities to Improve Communication, Trust and Collaboration Mary Scannell, 2010-05-28 Make workplace conflict resolution a game that EVERYBODY wins! Recent studies show that typical managers devote more than a quarter of their time to resolving coworker disputes. The Big Book of Conflict-Resolution Games offers a wealth of activities and exercises for groups of any size that let you manage your business (instead of managing personalities). The Secret Lives of Anthropologists Bonnie L.

Hewlett,2019-11-26 This book addresses the difficult conditions researchers may face in the field and provides lessons in how to navigate the various social, political, economic, health, and environmental challenges involved in fieldwork. It also sheds important light on aspects often considered secret or taboo. From anthropologists just starting out to those with over forty years in the field, these researchers offer the benefit of their experience conducting research in diverse cultures around the world. The contributions combine engaging personal narrative with consideration of theory and methods. The volume emphasizes how being adaptable, and aware, of the many risks and rewards of ethnographic research can help foster success in quantitative and qualitative data collection. This is a valuable resource for students of anthropological methods and those about to embark on fieldwork for the first time.

EBOOK: Teaching Information Technology 14+ Jane

Evershed,Jayne Roper,2010-10-16 Constantly evolving, Information Technology (IT) is entwined with everyday life, affecting industry, education, security, the environment, the global economy and culture. IT teachers need to balance students' understanding of IT's role within society alongside developing the skills required to design and deliver successful IT projects. Through case studies and reflective activities drawn from a range of environments, the authors share successful teaching and learning strategies from IT teachers and industry practitioners. This book also presents strategies for delivery and

assessment, as well as reviewing functional and key skills, such as communications, team working and problem solving. It also helps teachers differentiate between the many IT qualifications. This text supports trainee and experienced teachers in developing exciting and engaging IT programmes for pupils 14+ whether they are learning in schools, adult and community education or colleges.

Creative Confidence Tom Kelley, David Kelley, 2013-10-15
IDEO founder and Stanford d.school creator David Kelley and his brother Tom Kelley, IDEO partner and the author of the bestselling *The Art of Innovation*, have written a powerful and compelling book on unleashing the creativity that lies within each and every one of us. Too often, companies and individuals assume that creativity and innovation are the domain of the creative types. But two of the leading experts in innovation, design, and creativity on the planet show us that each and every one of us is creative. In an incredibly entertaining and inspiring narrative that draws on countless stories from their work at IDEO, the Stanford d.school, and with many of the world's top companies, David and Tom Kelley identify the principles and strategies that will allow us to tap into our creative potential in our work lives, and in our personal lives, and allow us to innovate in terms of how we approach and solve problems. It is a book that will help each of us be more productive and successful in our lives and in our careers.

No Props Mark Collard, 2005 This book covers almost everything you need to know about how to run highly successful programs with absolutely no equipment. Imagine being able to run an activity to fill-in some downtime at the drop of a hat. Wouldn't that be great? Or, what if you could inject more fun into your program, without cost? How would it feel if you could do this? Imagine being able to impress your colleagues and peers with your ever-expanding arsenal of games, trust exercises and group problem-solving activities - without ever needing any equipment? It truly is possible, but you need to know how.

Gamestorming Dave Gray, Sunni Brown, James

Macanufo, 2010-07-14 Great things don't happen in a vacuum. But creating an environment for creative thinking and innovation can be a daunting challenge. How can you make it happen at your company? The answer may surprise you: gamestorming. This book includes more than 80 games to help you break down barriers, communicate better, and generate new ideas, insights, and strategies. The authors have identified tools and techniques from some of the world's most innovative professionals, whose teams collaborate and make great things happen. This book is the result: a unique collection of games that encourage engagement and creativity while bringing more structure and clarity to the workplace. Find out why -- and how -- with Gamestorming. Overcome conflict and increase engagement with team-oriented games Improve collaboration and communication in cross-disciplinary teams with visual-thinking techniques Improve understanding by role-playing customer and user experiences Generate better ideas and more of them, faster than ever before Shorten meetings and make them more productive Simulate and explore complex systems, interactions, and dynamics Identify a problem's root cause, and find the paths that point toward a solution

Making Virtual Reality a Reality Alison Valk, Ximin Mi, Ashley

L. Schick, 2023-06-15 Walks readers through the key components of developing library-led research and programming that leverages emerging technologies with the goal of engaging students and faculty. As educational curricula and research evolve to include advanced technologies, libraries must offer programming with these emerging technologies in mind, including the use of virtual reality (VR) and augmented reality (AR). In this timely guide, Valk, Mi, and Schick present readers with tools for assessing their level of organizational readiness to begin such programs and, more importantly, how to sustain them with limited budgets, expertise, and resources. Building on their

own experiences, the authors teach readers how to develop technology-rich classes, assess student projects, and overcome technical hurdles. They spotlight this kind of programming as integral to building strategic partnerships in an educational environment. Readers will learn how to adapt and design programs or initiatives in which the necessary technologies are rapidly changing, not only in higher education institutions, but also in schools. Worksheets and resources assist readers in reflecting on their own work and developing educational programming to suit their organizational needs.

Playful Learning Nicola Whitton,Alex Moseley,2019-04-05
Offering an innovative and dynamic approach to adult learning, Playful Learning explores the potential of play in adulthood with the goal of helping educators, corporate trainers and event designers incorporate play-based activities for adults into both educational and work settings. Through a comprehensive overview of the value of play in adulthood, this book responds to the growing popularity of playful events for adults in academic and business settings designed to promote higher levels of engagement. Drawing on the authors' own decades of experience at the forefront of the field, this helpful reference incorporates strategies and techniques for bringing play into any learning design. Examples and case studies of successful playful design at conferences, training events, and in higher education illustrate what effective playful event design looks like in practice. With a multi-sector appeal that spans business, education and entertainment while bringing together practice and theory in an accessible manner, Playful Learning is a must-have resource for researchers, practitioners, managers and administrators alike.

Backpacker ,2007-10 Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active

adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

Collaborate, Communicate, and Differentiate! Wendy W. Murawski, Sally Spencer, 2011-02-24 Collaboration 101 for teachers, parents, and school communities Teachers in both general and special education classrooms are being asked to collaborate to give all students access to the general education curriculum. The challenge is that teachers receive very little training in how to collaborate successfully. Collaborate, Communicate, and Differentiate! takes collaboration out of the abstract and applies it to daily tasks such as: Planning and differentiating instruction Communicating with families Assessing students with diverse backgrounds and abilities Co-teaching Coordinating with all staff members

Kiss Your Fights Good-bye Jamie Turndorf, Dr., 2014-01-20 Heated fighting triggers a biochemical imbalance in men that causes them to flee from conflict. The technical name for this is the Demand/Withdraw Negative Escalation Cycle, also known as husband withdrawal. This is the number one cause of marital and relationship strife, divorce, and domestic violence. Dr. Jamie Turndorf's techniques, based on 30 years of research out of her Center for Emotional Communication, transform conflict into connection for a lifetime of lasting love. Even if you're locked in battle and have been for years, your relationship can change. Beginning with simple Cool-Down steps, you'll learn why husband withdrawal occurs and then how to use Climate Control strategies to reset the relationship. Women will discover the real reason why men never seem to listen—it's nothing personal—and the secret trick that actually makes them want to listen and stick around to settle disputes. Dr. Turndorf's proven conflict-resolution method

interrupts the cycle of fighting for the majority of couples, and can also be used to defuse disagreements among friends and family members.
