The Costume Making Guide Svetlana Quindt, 2016-12-12 Bring

your cosplay dreams to life with your own two hands! The Best Cosplay Tutorial Guide Ever! Get ready to impress ordinary mortals with your superhuman costume-making skills. You can do it no matter what your experience level with this, the first full step-by-step technique book on cosplay--with no sewing! Internationally known cosplayer Kamui Cosplay (a.k.a. Svetlana Quindt) shows you how to easily create elaborate costumes and successful props out of items available at your local arts and craft or hardware stores: turn foam into a realistic axe, create a breastplate from scratch and use a glue gun to modify just about anything. You will even learn the best and most accessible techniques for working with specialty cosplay materials such as Worbla! Packed with more than 30 step-by-step demonstrations that teach the skills you need to bring all your favorite characters to life no matter the genre, Kamui Cosplay deconstructs the work that goes into making a complete costume, from the first thought to the final photo. Tutorials cover design planning, fabricating body armor, 3D painting techniques and more. Best of all, you can adapt every lesson to use in all future fandom projects spanning video games, books, anime, movies and even your own original characters! Includes: • How to choose a costume and find good reference art •

A short shopping list of necessary materials and tools for beginning cosplayers • Basic safety tips • A beautiful photo gallery featuring inspiring images from other cosplayers • Next steps--how to grow your workshop, take professional photos, participate in contests and join the cosplay community

At Home with Handmade Books Erin Zamrzla,2011 Making your own books is easier than you might think, and Erin Zamrzla shows you how, using Japanese methods to produce a range of delightful projects: from easy-to-fold accordion pamphlets to books using the intricate and distinctive Japanese stab stitch bindings. Traditional bookbinding techniques are applied to creative and contemporary projects that will interest a broad range of beginning crafters, DIYers, and book artists. Zamrzla makes all the techniques accessible and completely nonintimidating by providing clear, step-by-step instructions for even the more complicated stitches. Information on the basics of bookbinding, including book terminology, tools, and techniques are included, and many of the projects encourage the creative use of recycled materials. Each project is featured in a full-color photograph presenting it in a real-

life setting. Additional photos and computer-drawn instructional illustrations offer step-by-step details of construction. Projects include: Unfolding Flower Notes: An accordion book that opens into a string of flowers. Tiny Souvenir Book: An accordion book with envelopes for pages so you can collect memories on the go. Return-to-Sender Mail Book: Made using a four-hole stab binding in the hemp-leaf pattern, the pages of this notebook are contained within an envelope cover so you can simply fill the pages, seal the end, and mail it to a friend, who can then add to the pages and send it back to you. Pillowcase Dream Book: Made using a Yamato binding—a simple two-hole stab binding—the cover of this book is sewn from a pillowcase. Tea Bag Tracing Book: The pages of this book are created from tea bags that are bound in a traditional account-book style.

Advances in Human Factors in Architecture, Sustainable Urban Planning and Infrastructure Jerzy Charytonowicz, Christianne Falcão, 2019-06-03 This book discusses human factors research directed towards realizing and assessing sustainability in the built environment and architecture. It reports on advanced engineering methods for sustainable infrastructure design, architecture as well as on assessments of the efficient methods and the social, environmental, and economic impact of various designs and projects. The book covers a range of topics, including the use of recycled materials in architecture, ergonomics in buildings and public design, sustainable design for smart cities, design for the aging population, industrial design, human scale in architecture, and many more. Based on the AHFE 2019 International Conference on Human Factors in Architecture, Sustainable Urban Planning and Infrastructure, held on July 24-28, 2019, in Washington D.C., USA, it offers various perspectives on sustainability and ergonomics. As such, it is a valuable reference resource for designers, urban engineers, architects, infrastructure professionals, public infrastructure owners, policy makers,

government engineers and planners, as well as operations managers and academics active in urban and infrastructure research.
