Everything Is Connected Keri Smith, 2013-10-01 From the internationally bestselling creator of *Wreck This Journal* comes an imaginative new project: fifty postcards that send you on a quest to reimagine everyday life... Leave notes in public for strangers, dream up a tiny imaginary world, summon magic powers, draw a portrait of yourself as a hero, create your own treasure map, or access a secret portal whenever you wish. Don't you just love getting something unexpected in the mail? With *Everything Is Connected*, your mission is to reimagine your world—and the worlds of everyone around you—one postcard at a time. Creative, collaborative, and winkingly subversive, this postcard set is a manifesto, a mission, a game, and an invitation in one convenient package.

The Book as Art Krystyna Wasserman, Breslauer Professor of Bibliographical Studies at the Graduate School of Education & Information Studies Johanna Drucker, Johanna Drucker, National Museum of Women in the Arts (U.S.), 2007 Artists' books have emerged over the last 25 years as the quintessential contemporary art form, addressing subjects as diverse as poetry and politics, incorporating a full spectrum of artistic media and bookmaking methods, and taking every conceivable form.

Female painters, sculptors, calligraphers, and printmakers, as well a growing community of hobbyists, have played a primary role in developing this new mode of artistic expression. The Book as Art presents more than 100 of the most engaging women's artist books created by major fine artists such as Meret Oppenheim, May Stevens, Kara Walker, and Renee Stout and distinguished book artists such as Susan King, Ruth Laxson, Claire Van Vliet, and Julie Chen. Culled from over 800 unique or limited-edition volumes held by the National Museum of Women in the Arts, these books explore the form as a container for ideas. Descriptions of the works are accompanied by colorful illustrations and reflections by their makers, along with essays by leading scholars and a lively introduction by the most famous book artist in our culture, best-selling author Audrey Niffenegger. The exquisitely crafted objects in the The Book as Art are sure to provoke unexpected and surprising conclusions about what constitutes a book. The Book as Art accompanies the exhibition of the same name at the Museum of Women in the Arts in Washington, D.C., beginning in October 2006.

Click, Clack, Quack to School! Doreen Cronin, 2018-07-03 They can stand in line (sort of), use indoor voices (perhaps), and are capable of sharing (rumor has it), so the Click Clack critters are ready for school...but is school ready for them? A charming addition to the award-winning Click, Clack series from the New York Times bestselling and Caldecott winning team who brought you Click, Clack, Moo and Click, Clack, Surprise! Farmer Brown has been invited to be a guest at the elementary school's Farm Day! The animals excitedly practice their best classroom behavior: standing quietly in line, using their inside voices, and learning how to share. But then they find out that farm animals aren't actually allowed in school (who

knew they were considered a health code violation?!). Rules are rules, so Farmer Brown goes to school solo—or so he thinks...for while our favorite barnyard bunch don't get high marks in rules, they do excel in disguise.

Original Grin Ron English, 2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie *Supersize Me*; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on *The Simpsons* secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

The Unicorn Project Gene Kim, 2019-11-26 The Phoenix Project wowed over a half-million readers. Now comes the Wall Street Journal Bestselling The Unicorn Project! "The Unicorn Project is amazing, and I loved it 100 times more than The Phoenix Project..."—FERNANDO CORNAGO, Senior Director Platform Engineering, Adidas "Gene Kim does a masterful job of showing how ... the efforts of many create lasting business advantages for all."—DR. STEVEN SPEAR, author of The High-Velocity Edge, Sr. Lecturer at MIT, and principal of HVE LLC. "The Unicorn Project is so clever, so good, so crazy enlightening!"—CORNELIA DAVIS, Vice President Of Technology at Pivotal Software, Inc., Author of Cloud Native Patterns This highly anticipated follow-up to the bestselling title The Phoenix Project takes another look at Parts Unlimited, this time from the perspective of software development. In The Unicorn Project, we follow Maxine, a senior lead developer and architect, as she is exiled to the Phoenix Project, to the horror of her friends and colleagues, as punishment for contributing to a payroll outage. She tries to survive in what feels like a heartless and uncaring bureaucracy and to work within a system where no one can get anything done without endless committees, paperwork, and approvals. One day, she is approached by a ragtag bunch of misfits who say they want to overthrow the existing order, to liberate developers, to bring joy back to technology work, and to enable the business to win in a time of digital disruption. To her surprise, she finds herself drawn ever further into this movement, eventually becoming one of the leaders of the Rebellion, which puts her in the crosshairs of some familiar and very dangerous enemies. The Age of Software is here, and another mass extinction event looms—this is a story about rebel

developers and business leaders working together, racing against time to innovate, survive, and thrive in a time of unprecedented uncertainty...and opportunity. “The Unicorn Project provides insanely useful insights on how to improve your technology business.”—DOMINICA DEGRANDIS, author of Making Work Visible and Director of Digital

Transformation at Tasktop ——— “My goal in writing The Unicorn Project was to explore and reveal the necessary but invisible structures required to make developers (and all engineers) productive, and reveal the devastating effects of technical debt and complexity. I hope this book can create common ground for technology and business leaders to leave the past behind, and co-create a better future together.”—Gene Kim, November 2019

True Print Reto Caduff, 2017 Pushing the boundaries of design, from MacBook to letterpress Dafi Kühne is a Swiss designer who works with analog and digital ways to produce fresh and unique letterpress-printed posters. Using very different kinds of instruments, from a MacBook to a

pantograph, for his compositions, he pushes the boundaries of design. Never afraid of getting his hands dirty in his creative workshop, Kühne embraces the labor involved in the entire process of creating a poster from initial idea to finished product. Fusing modern means with the century-old tradition of the letterpress, he forms a new vocabulary on how to communicate through type and form in a truly un-nostalgic way. Never retro, his work is a clever response to the search for new ways of graphic expression: true print.
