**Type, Sign, Symbol** Adrian Frutiger, 1980

*Adrian Frutiger – Typefaces* Heidrun Osterer, Philipp

Stamm, 2014-05-08 The international creation of typefaces after 1950 was decisively influenced by the Swiss type designer Adrian Frutiger. His Univers typeface and the machine-readable font OCR-B, which was adopted as an ISO standard, are milestones, as is his type for the Paris airports, which set new standards for signage types and evolved into the Frutiger typeface. With his corporate types, he helped to define the public profiles of companies such as the Japanese Shiseido line of cosmetics. In all he created some fifty types, including Ondine, Méridien, Avenir, and Vectora. Based on conversations with Frutiger himself and on extensive research in France, England, Germany, and Switzerland, this publication provides a highly detailed and accurate account of the type designer's artistic development. All of his types – from the design phase to the marketing stage – are illustrated and analyzed with reference to the technology and related types. Hitherto unpublished types that were never realized and more than one hundred logos complete the picture. This second, revised and expanded study edition, which now has an index, makes Frutiger's achievement

even more accessible.

**Signs and Symbols** Adrian Frutiger, 1998 Discusses the elements of a sign, and looks at pictograms, alphabets, calligraphy, monograms, text type, numerical signs, symbols, and trademarks.

Aliens: Defiance Volume 1 Various, 2017-02-07 Colonial Marine Private First Class Zula Hendricks is battling demons from her past while fighting for her life in the company of Weyland-Yutani synthetics. In deep space she is forced to question her strength and loyalty when the discovery of an insidious alien species on a derelict hauler sends her on a dangerous journey across the stars. The New York Times best-selling comics writer, Brian Wood pens an epic space odyssey filled with gritty, fearless art by up and coming artist, Tristan Jones. They told you there were no monsters. They were wrong.

**Grayson Vol. 1: Agents of Spyral** Tim Seeley, Tom King, 2015-06-09 Unmasked, targeted and presumed dead, Dick Grayson's world has been turned upside down. No longer Nightwing, former Boy Wonder, he's now a man who doesn't exist . . . which makes him the perfect double agent. Dick will have to leave behind the black and white world of super heroes to infiltrate the shadowy inner workings of the mysterious spy agency known

as Spyrál. Without a costume to hide behind, the would-be 007 must find the answer to one important question: just who is Dick Grayson? Co-writers Tim Seeley & Tom King team with sensational artist Mikel Jan'n for GRAYSON: AGENTS OF SPYRAL-a high-octane, highly acclaimed super-spy thriller that reveals an all-new side of one of the DC Universe's most legendary heroes! Collects issues #1-4, GRAYSON: FUTURE'S END 1#, and a story from SECRET ORIGINS #8.

**Cold War Modern** David Crowley, Jane Pavitt, 2008 Modern life after 1945 seemed to promise both utopia and catastrophe. Both could, it seemed, be achieved at the 'push of a button'. Published to accompany a major V & A exhibition, 'Cold War Modern: Design 1945-1970', this book explores how the politics of the Cold War shaped architecture and design. Reassessing 'classic' designs and introducing many little-known objects.

**Transport Alphabet** New Holland Publishers, 2019 Introduce your child to the alphabet and first words about transport, including Airplane, helicopter, quad bike and zeppelin.

Dept. H Volume 1: Pressure Matt Kindt, 2017-02-28 From New York Times bestselling Mind MGMT creator Matt Kindt comes an exciting and new undersea sci-fi mystery. Mia is a special

investigator hired to uncover possible sabotage taking place at a deep-sea research station. What she uncovers is a mind-blowing crime scene filled with suspects with terrible secrets, strange deep-sea creatures, and an impending flood! Praise for the previous work of Matt Kindt: Kindt is a storyteller so fully in control of his gifts that his graphic novels read like quietly compelling arguments for the comics medium's narrative potential. -NPR Kindt has developed into one of the most exciting and original talents in the business -The LA Times Kindt breaks all pre-conceived notions of what comic books are. -IGN
