Children Learn What They Live Rachel Harris L.C.S.W., Ph.D., Dorothy Law Nolte Ph.D., 1998-01-05 The timeless New York Times bestselling guide to parenting that shows the power of inspiring values through example. A unique handbook to raising children with a compassionate, steady hand—and to giving them the support and confidence they need to thrive. Expanding on her universally loved poem “Children Learn What They Live,” Dorothy Law Nolte, with psychotherapist Rachel Harris, reveals how parenting by example—by showing, not just telling—instills positive, true values in children that they will carry with them throughout their lives. Addressing issues of security, self-worth, tolerance, honesty, fear, respect, fairness, patience, and more, this book of rare common sense will help a new generation of parents find their own parenting wisdom—and draw out their child’s immense inner resources. If children live with criticism they learn to condemn. If children live with sharing, they learn generosity. If children live with acceptance, they learn to love. And

more wisdom.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
