Starlight Barking Dodie Smith,2015-06-23 Dodie Smith's *The Hundred and One Dalmatians*, later adapted by Disney, was declared a classic when first published in 1956. *The Starlight Barking*, Dodie's own long-forgotten sequel, is a thrilling new adventure for Pongo and his family, lavishly illustrated by the same artist team as the first book. As the story opens, every living creature except dogs is gripped by an enchanted sleep. One of the original Dalmatian puppies, all grown up since the first novel, is now the Prime Minister's mascot. Relying on her spotted parents for guidance, she assumes emergency leadership for the canine population of England. Awaiting advice from Sirius, the Dog Star, dogs of every breed crowd Trafalgar Square to watch the evening skies. The message they receive is a disturbing proposition, one that might forever destroy their status as man's best friend.

The Widow of Pale Harbor Hester Fox,2019-09-17 A town gripped by fear. A woman accused of witchcraft. Who can save Pale Harbor from itself? Maine, 1846. Gabriel Stone is desperate to escape the ghosts that haunt him in Massachusetts after his wife's death, so he moves to Maine, taking a position as a minister in the remote village of Pale Harbor. But not all is as it seems in the sleepy town. Strange, unsettling things have been happening, and the townspeople claim that only one person can be responsible: Sophronia Carver, a reclusive widow who lives with a spinster maid in the eerie Castle Carver. Sophronia must be a witch, and she almost certainly killed her husband. As the incidents escalate, one thing becomes clear: they are the work of a twisted person inspired by the wildly popular stories of Mr. Edgar Allan Poe. And Gabriel must find answers, or Pale Harbor will suffer a fate worthy of Poe's darkest tales. Hester Fox comes to writing from a background in the museum field as a collections maintenance technician. This job has taken her from historic houses to fine art museums, where she has the privilege of cleaning and caring for collections that range from paintings by old masters to ancient artifacts to early-American furniture. She is a keen painter and has a master's degree in historical archaeology, as well as a background in medieval studies and art history. Hester lives outside Boston with her husband. Don't miss Hester Fox's next novel, *THE BOOK OF THORNS*, where two sisters who never knew the other existed meet on opposite sides during the Napoleonic Wars and must use the magic of flowers to solve the mystery of their mother's death—while surviving the war raging around them... Look for these other gothic mysteries from Hester Fox: *The Last Heir to Blackwood Library* *The Witch of Willow Hall* *The Orphan of Cemetery Hill* *A Lullaby for Witches*

National Science Education Standards National Research Council,Division of Behavioral and Social Sciences and Education,Board on Science Education,National Committee on Science Education Standards and Assessment,1996-01-07 Americans agree that our students urgently need better science education. But what should they be expected to know and be able to do? Can the same expectations be applied across our diverse society? These and other fundamental issues are addressed in *National Science Education Standards*—a landmark development effort that reflects the contributions of thousands of teachers, scientists, science educators, and other experts across the country. The *National Science Education Standards* offer a coherent vision of what it means to be scientifically literate, describing what all students regardless of background or circumstance should understand and be able to do at different grade levels in various science categories. The standards address: The exemplary practice of science teaching that provides students with experiences that enable them to achieve scientific literacy. Criteria for assessing and analyzing students' attainments in science and the learning opportunities that school science programs afford. The nature and design of the school and district science program. The support and resources needed for students to learn science. These standards reflect the principles that learning science is an inquiry-based process, that science in schools should reflect the intellectual traditions of contemporary science, and that all Americans have a role in improving science education. This document will be invaluable to education policymakers, school system administrators, teacher educators, individual teachers, and concerned parents.

Fever Knights Adam Ellis,2022-05-03 What happened at Starfish Beach? Finneus had plans to surf every day of summer vacation until a mysterious accident at Starfish Beach took his arm and left him with almost no memory of exactly what happened. Now, strange things have been occurring all around Toro Island, and Finn and his friends are going to get to the bottom of it! Structured like an old-school video game strategy guide, *Fever Knights* unravels the mystery of the uncanny events affecting Toro Island as Finn and his friends look for answers, making allies, and fighting enemies, using their skills, teamwork, and strange new powers to figure out what happened at Starfish Beach and what they can do to save their home. With Adam Ellis's vibrant comic illustrations, witty humor, richly detailed world building, and a fantastical cast of characters, *Fever Knights* is the best game you've never played.

Film Form Sergei Eisenstein,2014-06-17 A classic on the aesthetics of filmmaking from the pioneering Soviet director who made *Battleship Potemkin*. Though he completed only a half-dozen films, Sergei Eisenstein remains one of the great names in filmmaking, and is also renowned for his theory and analysis of the medium. *Film Form* collects twelve essays, written between 1928 and 1945, that demonstrate key points in the development of Eisenstein's film theory and in particular his analysis of the sound-film medium. Edited, translated, and with an introduction by Jay Leyda, this volume allows modern-day film students and fans to gain insights from the man who produced classics such as *Alexander Nevsky* and *Ivan the Terrible* and created the renowned "Odessa Steps" sequence.

The Housekeeper and the Professor Yoko Ogawa,2009-02-03 He is a brilliant math Professor with a peculiar

problem--ever since a traumatic head injury, he has lived with only eighty minutes of short-term memory. She is an astute young Housekeeper--with a ten-year-old son--who is hired to care for the Professor. And every morning, as the Professor and the Housekeeper are introduced to each other anew, a strange and beautiful relationship blossoms between them. Though he cannot hold memories for long (his brain is like a tape that begins to erase itself every eighty minutes), the Professor's mind is still alive with elegant equations from the past. And the numbers, in all of their articulate order, reveal a sheltering and poetic world to both the Housekeeper and her young son. The Professor is capable of discovering connections between the simplest of quantities--like the Housekeeper's shoe size--and the universe at large, drawing their lives ever closer and more profoundly together, even as his memory slips away. Yoko Ogawa's *The Housekeeper and the Professor* is an enchanting story about what it means to live in the present, and about the curious equations that can create a family.

The Beauty of Everyday Things Soetsu Yanagi,2019-01-31 The daily lives of ordinary people are replete with objects, common things used in commonplace settings. These objects are our constant companions in life. As such, writes Soetsu Yanagi, they should be made with care and built to last, treated with respect and even affection. They should be natural and simple, sturdy and safe - the aesthetic result of wholeheartedly fulfilling utilitarian needs. They should, in short, be things of beauty. In an age of feeble and ugly machine-made things, these essays call for us to deepen and transform our relationship with the objects that surround us. Inspired by the work of the simple, humble craftsmen Yanagi encountered during his lifelong travels through Japan and Korea, they are an earnest defence of modest, honest, handcrafted things - from traditional teacups to jars to cloth and paper. Objects like these exemplify the enduring appeal of simplicity and function: the beauty of everyday things.

Conversations with Shōtetsu Robert Brower,Steven Carter,2020-08-06 Shōtetsu monogatari was written by a disciple of Shōtetsu (1381–1459), whom many scholars regard as the last great poet of the courtly tradition. The work provides information about the practice of poetry during the 14th and 15th centuries, including anecdotes about famous poets, advice on how to treat certain standard topics, and lessons in etiquette when attending or participating in poetry contests and gatherings. But unlike the many other works of that time that stop at that level, Shōtetsu's contributions to medieval aesthetics gained prominence, showing him as a worthy heir--both as poet and thinker--to the legacy of the great poet-critic Fujiwara no Teika (1162–1241). The last project of the late Robert H. Brower, *Conversations with Shōtetsu* provides a translation of the complete *Nihon koten bungaku taikei* text, as edited by Hisamatsu Sen'ichi. Steven D. Carter has annotated the translation and provided an introduction that details Shōtetsu's life, his place in the poetic circles of his day, and the relationship of his work to the larger poetic tradition of medieval Japan. *Conversations with Shōtetsu* is important reading for anyone interested in medieval Japanese literature and culture, in poetry, and in aesthetics. It provides a unique look at the literary world of late medieval Japan.

The End of Men Christina Sweeney-Baird,2021-04-27 *The End of Men* is a fiercely intelligent page-turner, an eerily prescient novel, at once thoughtful and highly emotive. --Paula Hawkins, #1 internationally bestselling author of *The Girl on the Train* Set in a world where a virus stalks our male population, *The End of Men* is an electrifying and unforgettable debut from a remarkable new talent that asks: what would our world truly look like without men? Only men carry the virus. Only women can save us all. The year is 2025, and a mysterious virus has broken out in Scotland--a lethal illness that seems to affect only men. When Dr. Amanda MacLean reports this phenomenon, she is dismissed as hysterical. By the time her warning is heeded, it is too late. The virus becomes a global pandemic--and a political one. The victims are all men. The world becomes alien--a women's world. What follows is the immersive account of the women who have been left to deal with the virus's consequences, told through first-person narratives. Dr. MacLean; Catherine, a social historian determined to document the human stories behind the male plague; intelligence analyst Dawn, tasked with helping the government forge a new society; and Elizabeth, one of many scientists desperately working to develop a vaccine. Through these women and others, we see the uncountable ways the absence of men has changed society, from the personal--the loss of husbands and sons--to the political--the changes in the workforce, fertility, and the meaning of family. In *The End of Men*, Christina Sweeney-Baird turns the unimaginable into the unforgettable.
