Grace Smith Richmond

Famous Aircraft in Origami José María Chaquet Ulldemolins, 2008-01-01

Origami enthusiasts and aviation buffs alike will thrill to these replicas of antique and ultra-modern planes. This unique book spotlights 18 well-known planes and other forms of aircraft, along with complete instructions for making realistic models that range from a Sopwith F.1 Camel to modern jets and helicopters—and even a space shuttle. More than 900 diagrams illustrate every detail, and 26 full-color photographs depict the finished flyers in their full glory. Models include fighter planes such as the Red Baron's Fokker Dr. I, the Messerschmitt Bf 109K, and the F-18 Hornet, along with the Airbus A320, the McDonnell Douglas MD-80, and other commercial passenger aircraft. A brief history of each model is included.

Sopwith Camel Jon Guttman, 2012-10-20 An icon of World War I aerial combat, the Sopwith Camel was a superb dogfighter in the hands of a pilot who could master its vicious idiosyncrasies. The first British fighter to be armed with twin machine guns, the Camel packed a considerable punch and was highly successful, notching up a considerable number of aerial victories. The Camel was a remarkable aircraft, and one that could perform in a variety of roles, including as a ground straffer, a night fighter and a carrier-based fighter. As newer, higher performance aircraft types were introduced and began to eclipse it, the dominance of the Camel declined and losses mounted. Nevertheless, Camels appeared over battlefields throughout the war and

beyond, notably in the Russian Civil War.

Sopwith Camel Jarrod Cotter, 2016-04-15 Think of the First World War and then think of an aircraft. What springs to mind will probably be the Sopwith Camel. The single-seat Camel was one of the most successful RNAS/RFC/RAF 'scouts' (the period term for a fighter) of the First World War. Jarrod Cotter has been given rare access to the Shuttleworth Collection's Sopwith Camel replica as well as Camel new-builds in France and New Zealand. The manual includes rare and stunning colour photography of rebuilding, restoring and flying this classic WW1 fighter.

Sopwith Camel John McIntosh Bruce, 1989-01-01

Sopwith Camel Aces of World War 1 Norman Franks, 2003-03-25 Responsible for destroying 1294 enemy aircraft between June 1917 and November 1918, the Camel was the most successful fighting scout employed by either side in terms of the sheer number of victories that it scored. The Camel was renowned for its sensitivity and need for skill and experience, and casualties amongst pilots undergoing training on the type were very high. More than 5490 examples were constructed, and this book covers its combat use on the Western Front, in Palestine, on the Italian front, in the Home Defence role in the UK and in Russia.

The Vintage Years of Airfix Box Art Roy Cross, 2009-08-01 Airfix has been commercially producing plastic kits since 1952 and its models have been made by successive generations of young boys and men alike. In the 1960s, a talented graphic artist called Roy Cross was commissioned to paint some of the box art for Airfix, and for a ten-year-period he provided many of the glorious paintings seen on the boxes, setting new standards for realism and accuracy. Many are still being used today, a full four decades later. Inside the pages of this book are some of Roy's best artworks, shown here in full format and in superb detail, with many reproduced here in book form for the very first time. As well as his vintage box art, Roy has included many sketches and alternative versions of his Airfix box art. After Roy left Airfix in 1974, the company went through a turbulent time. The present owners are Hornby, who have ambitious plans for Airfix and the other brands it acquired including Scalegtrix and Corgi. The decade that Roy Cross worked for Airfix, though, could be classed as their vintage era, with some of their finest models being produced then in their millions, ready for eager youngsters to build up into detailed miniature models of their favorite

aircraft, ships and locomotives.
