Superperformance Stocks Richard S. Love, 2022-05-27 The Author writes about the superperformance stocks of the time, and the common denominators of those stocks. What traits do they have in common, how to find them? Definition of a superperformance stock: One that at least tripled in price and increased at a minimum rate of three times during a two-year period. A move was considered ended if the price failed to reach a new high in less than six months, or if there was a price reaction of 25 percent or more. Stocks that have a chance to become

superperformance stocks share some of these characteristics: * Large increases of earnings, especially if the large increase comes as a surprise. * Mergers and acquisitions. * New management. * New products. The best results come after the market has experienced a severe correction or a bear market, because that is the time when there would be many bargain opportunities in that environment. History often repeats itself in the stock market. The names of the stocks change, but the overall situation is always similar. Acceleration of earning power is the most important thing to look for when examining the potential of a stock to become a superperformance stock. And the superperformance move will most often coincide with the bull market cycle of the general market.

The Cambridge Prehistory of the Bronze and Iron Age Mediterranean A. Bernard Knapp, Peter van Dommelen, 2015-01-12 The Cambridge Prehistory of the Bronze and Iron Age Mediterranean offers new insights into the material and social practices of many different Mediterranean peoples during the Bronze and Iron Ages, presenting in particular those features that both connect and distinguish them. Contributors discuss in depth a range of topics that motivate and structure Mediterranean archaeology today, including insularity and connectivity; mobility, migration, and colonization; hybridization and cultural encounters; materiality, memory, and identity; community and household; life and death; and ritual and ideology. The volume's broad coverage of different approaches and contemporary archaeological practices will help practitioners of Mediterranean archaeology to move the subject forward in new and dynamic ways. Together, the essays in this volume shed new light on the people, ideas, and materials that make up the world of Mediterranean archaeology today, beyond the borders that separate Europe, Africa, and the Middle East.

Hills of Sacrifice Michael P. Slater, 2000 Detailed account of the 5th Regimental Combat Team in the Korean War. Includes a comprehensive list of 5th RCT unit casualties and Korean Ex-Prisoners of War. Indexed for easy referencing. Foreword written by Ltgen Alpha Bowser, G-3, 1st Marine Division, Korea 1950-1951. Much of the information in this book about the Korean War has never before been published. Hills of Sacrifice is a magnificent history of 'Hawaii's own', the 5th RCT during the Korean War. It will be widely read, and deserves to be. -- Governor Benjamin J. Cayetano, State of Hawaii At last, after 49 years, the best and most definitive book on infantry combat at the bayonet level in Korea. It grips the reader into the firestorm, fury, terror and grief of it all. Hills of Sacrifice is deeply researched, grimly detailed, personalized historiography of battlefield infantry action by American 'grunts' fighting determined North Korean and Chinese soldiers. This superb book is not for the faint-hearted. Graphic descriptions of the bloody details of close-in grunt infantry battle and the love of soldiers for one another. -- LTGEN Harold G. Moore A hell of a read! Hills of Sacrifice explodes like a hand grenade and is riveting combat reportage. It's the most detailed account of the bloody Korean War that I have read. The reader is there in the

trenches, with the Grunts, stopping massed attacks or storming enemy held hills. The 5th RCT was a great regiment, with top leaders, brave warriors, and this remarkable book captures their gallantry and sacrifice dead on target. A must read for anyone wanting to know the Grunt's heroic story from the Korean War and how a gallant regiment became the Fire Brigad of the KoreanWar. -

Quest for Justice Richard Jaffe, 2020-03-23 Richard Jaffe's explosive second edition of *Quest for Justice: Defending the Damned* affirms the vital role criminal defense lawyers play in the balance between life and death, liberty and lockup. It is a compelling journey into the legal and human drama of life or death criminal cases that often reads more like hard to imagine fiction, yet these cases are real. *Quest for Justice* invites readers into the courtroom and into the field with Richard Jaffe, a powerhouse Alabama defense attorney with more than four decades of experience, who has successfully defended hundreds of individuals accused of murder, including more than seventy cases where the defendant faced the death penalty, including the Olympic bomber Eric Robert Rudolph. According to the Equal Justice Initiative, in Alabama, nine people have been exonerated from death row-Jaffe represented four of them: James Willie Bo Cochran, Randal Padgett, Gary Drinkard, and Wesley Quick. Though every chapter reveals more alarming, gut-wrenching cases, and impediments to justice, Jaffe's unwavering determination, hope, and strategies in the courtroom yield many momentous victories for his clients and the cause of justice. In *Quest for Justice: Defending the Damned*, Richard Jaffe offers all audiences an accessible, page-turning perspective borne out of a life representing the damned in America's criminal justice system.
