**The Tanks of August** Ruslan Pukhov, 2010 The publication of this book coincides with the second anniversary of the armed conflict between Russia and Georgia on August 8-12, 2008, now dubbed the Five Day War. The conflict was triggered by Georgia's ambitious and nationalistic president, Mikhail Saakashvili, who attempted a blitzkrieg to conquer the former Georgian autonomy of South Ossetia, which had proclaimed independence. That attempt led to a military intervention by Russia, which acted as the guarantor of peace in the region, and the first official war between Russia and one of the former Soviet republics. This work contains six essays, from a primarily Russian perspective, which provide an in-depth analysis of the political, social, economic, and military context for and causes of the war, the nature of wartime military operations, the human and material costs of the brief struggle, and the war's likely implications for the future.

We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to

read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. *Language and Speech in Synchrony and Diachrony* Galina T. Polenova, Tatiana G. Klikushina, 2017  
This collection arises from the Fifth International Scientific Conference, Language and Speech in Synchrony and Diachrony, held in Taganrog, Russia, devoted to the memory of Russian linguist and philosopher Professor P.V. Chesnokov. It examines the functioning of different levels of linguistic units and categories of speech with regard to intra- and cross-cultural communication in pragmatics of speech. The theory of language and speech is represented not only in synchrony, but in diachrony, in the comparative and typological aspects of languages from various groups, including non-literate Yenisei languages. A further subject of discussion within is the problem of translation, and the relation of language and speech, text and discourse. The volume consists of six parts: Part I: Language and its grammatical categories in diachronic aspect; Part II: Grammar and other subsystems of the language; Part III: Cross-cultural communication and translation; Part IV: Problems of linguistic and diachronic typology; Part V: Pragmalinguistics and speech; and Part VI: Text, discourse, speech in anthropocentric paradigm. The book will be of interest to scholars of philology, linguistics, culture and humanities, as well as those interested in issues of language, culture and language teaching methods.

**Russia's Chechen Wars 1994-2000** Olga Oliker, 2001-09-28  
An examination of the difficulties faced by the Russian military in planning and carrying out urban operations in Chechnya. Russian and rebel military forces fought to control the Chechen city

of Grozny in the winters of 1994-1995 and 1999-2000, as well as clashing in smaller towns and villages. The author examines both Russian and rebel tactics and operations in those battles, focusing on how and why the combatants' approaches changed over time. The study concludes that while the Russian military was able to significantly improve its ability to carry out a number of key tasks in the five-year interval between the wars, other important missions--particularly in the urban realm--were ignored, largely in the belief that the urban mission could be avoided. This conscious decision not to prepare for a most stressful battlefield met with devastating results, a lesson the United States would be well served to study.

*The North Korean People's Army* James M. Minnich, 2005 For more than fifty years, the combined armed forces of the United States and the Republic of Korea have faced down the North Korean People's Army (NKPA) along the world's most militarized stretch of land known as the demilitarized zone. Despite the prolonged standoff, much remains unknown about the world's third largest army. In this authoritative study, James M. Minnich blends academic knowledge with nearly twenty-five years of military experience to explain the NKPA's origins, military ideology, strategy, combat formations, and tactics to ensure a full understanding of this reclusive belligerent. At the outset, Minnich examines the first crucial years of the North Korean state and its army. Solidly grounded in primary sources and buttressed by the judicious use of secondary sources, his work traces the formative elements of the Korean partisans, Soviet Army, and Chinese communists to show how each group contributed to the NKPA's development and its ability to mount the first shooting campaign of the Cold War. This timely book then presents a vitally relevant examination of the NKPA's current military tactics, including its seven forms of offensive maneuver, two forms of defense, and tactical artillery groupings. Required reading for military planners and personnel who must remain prepared to rapidly deploy to

Korea, this concise profile will also appeal to students of Korean history and those seeking a deeper understanding of the NKPA.

**Appellate Practice Handbook** Edward J. Horowitz,1982

**Not by Bread Alone** Robert Nalbandov,2016-01-01 Since its independence in 1991, Russia has struggled with the growing pains of defining its role in international politics. After Vladimir Putin ascended to power in 2000, the country undertook grandiose foreign policy projects in an attempt to delineate its place among the world's superpowers. With this in mind, Robert Nalbandov examines the milestones of Russia's international relations since the turn of the twenty-first century. He focuses on the specific goals, engagement practices, and tools used by Putin's administration to promote Russia's vital national and strategic interests in specific geographic locations. His findings illuminate Putin's foreign policy objective of reinstituting Russian global strategic dominance. Nalbandov argues that identity-based politics have dominated Putin's tenure and that Russia's east/west split is reflected in Asian-European politics. Nalbandov's analysis shows that unchecked domestic power, an almost exclusive application of hard power, and determined ambition for unabridged global influence and a defined place as a world superpower are the keys to Putin's Russia.

*Mountain Warfare and Other Lofty Problems* Charles K.

Bartles,Lester Grau,2016 The United States has been in a mountain war in Afghanistan for almost a decade. Other nations have different, extensive experience in training and conduction mountain combat. Les Grau and Chuck Bartles gathered this experience in a detailed study aimed at being of use both to military professionals and others with an interest in military operations in mountainous terrain. Chapters include small and large unit actions, reconnaissance, artillery, small arms fire, logistics, communications, medicine and aviation. Much experience is drawn from Soviet efforts in Afghanistan during the 1980s, and modern Russian army training. The text is

complemented by numerous maps and diagrams.

## **Operation Anaconda** Lester W. Grau,Dodge

Billingsley,2011-11-25 Long before it became Obama's War, the long-running conflict in Afghanistan was launched by President George W. Bush in retaliation for the 9/11 attacks on the United States. Only a few months later, Operation Anaconda sent American-led coalition forces into their most intensely brutal confrontation with Al Qaeda and their Taliban hosts in the Shar-i Kot Valley near the Pakistan border. The result was an unexpected set piece of conventional fighting in what has become an era of guerrilla warfare. Drawing upon previously unavailable or neglected sources, Lester Grau and Dodge Billingsley give us the most complete and accurate account of this thirteen-day firefight waged in mountainous terrain nearly two miles above sea level. They describe how allied troops fought a fierce and well-entrenched enemy to a standstill, close to an old Soviet battlefield, and then drove them completely out of Afghanistan. Grau and Billingsley's account also highlights problems encountered in Anaconda and the lessons we should learn from their in-depth study. The Army and Air Force operated under conflicting views regarding the appropriate application of Close Air Support, and airpower both crippled and aided the overall effort. In addition, severe shortages of transport, attack helicopters, and artillery hampered the effort, while the acquisition and timely sharing of intelligence barely occurred at all and coalition relations frayed under the intense pressures of combat. As an added bonus, the authors also include with the book a documentary on DVD that features interviews with soldiers who fought in Anaconda, provides additional information concerning major phases of the battle, and presents insightful commentary by Grau and by Billingsley, who was on the ground with U.S. forces for the operation. Providing the richest description and critique of all the forces involved-including those that fought on the enemy side-the combined book-and-DVD surpasses all previous accounts of this landmark engagement and is an essential volume in the literature on our war in Afghanistan.
