A Grammar of Kham David E. Watters, 2009-10-01 First published in 2002, this is a comprehensive grammatical documentation of Kham, a previously undescribed language from west-central Nepal, belonging to the Tibeto-Burman language family. The language contains a number of grammatical systems that are of immediate relevance to current work on linguistic theory, including split ergativity, a mirative system, and a rich class of derived adjectivals. Its verb morphology has implications for the understanding of the history of the entire Tibeto-Burman family. The book, based on extensive fieldwork, deals with all major aspects of the language including segmental phonology, tone, word classes, noun phrases, nominalizations, transitivity alterations, tense-aspect-modality, non-declarative speech acts, and complex sentence structure. It provides copious examples throughout the exposition and includes three short native texts and a vocabulary of more than 400 words, many of them reconstructed for Proto-Kham and Proto-Tibeto-Burman.

Original Grin Ron English, 2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters

such as MC Supersized, the obese fast-food mascot featured in the hit movie Supersize Me; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on The Simpsons secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Icons Unmasked Alex Solis, 2016-02-14 Ever wonder if the characters you see on TV, in movies and in comic books are hiding something behind their masks? That perhaps they're really someone -- or something -- else? When pop culture is such a huge part of our lives, we're bombarded with these characters everywhere we turn. Each time we see a new character in a movie, video game or commercial, we feel a sudden sense déjà vu. There's something about their goofy grin, that creepy laugh, or those boogly eyes that feels eerily familiar... This got me thinking. Is anything we see ever 100% original? Or is everything we experience really just our minds piecing together past experiences to create something that feels unique and new? In Icons Unmasked, I'm trying to bring a new sense of discovery to characters everyone has seen hundreds of times. I wanted to recreate the experience of what it might be like to see one iconic character from your childhood for the first time as an adult. Proceed at your own caution and keep in mind the following illustrations cannot be unseen. Your childhood might possibly be destroyed forever
