Creating Concrete Art Furniture Charles Sthreshley,2008 Concrete is a fascinating material in the hands of a creative person. The Direct Concrete Technique, illustrated in this book, empowers anyone to make furniture or sculpture by hand without molds or forms. The key to this method is the use of a steel armature covered with wires. With 296 vivid color photos and precise text, you can learn the steps necessary to use concrete as a fine art material to create innovative and imaginative furniture, from initial concept and the creation of the armature to the application of concrete and finishing the artwork. Bold and elegant designs of lightweight curvilinear elements can be fashioned with this method. The advantages of concrete and the direct technique are numerous, and the results are immediate and durable. Skills to make free-formed objects of concrete are easily mastered and creative opportunities abound throughout the process. A furniture gallery is provided for further inspiration.

Mooch Adam Palmer,2006 Jake's life takes a turn for the weird when a local big shot dies, and Jake finds himself handling the funeral arrangements, including his client's last wish to be buried with his fortune. Jake must decide whether to take the money and run, or do the right thing. Or can he have it all?

Face Recognition Across the Imaging Spectrum Thirimachos Bourlai,2016-02-12 This authoritative text/reference presents a comprehensive review of algorithms and techniques for face recognition (FR), with an emphasis on systems that can be reliably used in operational environments. Insights are provided by an international team of pre-eminent experts into the processing of multispectral and hyperspectral face images captured under uncontrolled environments. These discussions cover a variety of imaging sensors ranging from state-of-the-art visible and infrared imaging sensors, to RGB-D and mobile phone image sensors. A range of different biometric modalities are also examined, including face, periocular and iris. This timely volume is a mine of useful information for researchers, practitioners and students involved in image processing, computer vision, biometrics and security.

Mughal Painter of Flora and Fauna Ustād Maṣūṛ Som Prakash Verma,1999 This volume follows *Mughal Painters and their Work-A Biographical Survey and Comprehensive Catalogue* (Oxford University Press, New Delhi, 1994), the first comprehensive book of reference on the work of nearly 200 Mughal painters; and has been conceived to provide

readers much information on the Mughal painting through the contribution of individual master painters. Need not say ample information is available about the artists of the Mughal atelier (sixteenth-seventeenth centuries). Yet, to date, except for some articles on a few painters, no book has been published on individual artist. Ustad Mansur, a keen observer of nature endowed with almost Euclidean intellect, deserved a more detailed study to re-evaluate his merit as an artist whose achievement in naturalistic portraiture of a large number of species from the world of flora and fauna has remained unsurpassed till today. Our attempt is to enter into the very creative process of this great Mughal painter; to relive in his times and environment, in order to discover real Mansur. The whole panorama of Mansur's portraits of birds, animals and flowers set in marvellously and uniquely laid background represents, in his true spirit and characteristics, the very quintessence of nature's endless variety of creation and beauty. Part I provides historical and artistic context in which Ustad Mansur worked. Information about him has been gleaned from original texts (principally Persian historical sources), supplemented by the evidence of artist's own work. Part II comprises the plate section of representative eighteen miniatures that illustrate our painter's style and his specialisation in painting. The appendix further enhances the value of this work since it provides correct rendering of contemporary inscriptions and determines genuine signatures and contemporary ascriptions. The volume is richly illustrated with a large number of black-and-white and colour illustrations. These illustrate the art and style of Ustad Mansur Nadir u'l 'Asr (Unequaled of the Age), the most illustrious naturalist painter of India. It will naturally be of interest to students of art and natural history. It is also recommended to persons curious to know about the Mughal times. It is hoped that other volumes on individual Mughal painters will follow' and monographs on their lives and work with a critical valuation will be available.
