Sensory-Being for Sensory Beings Joanna Grace,2017-07-14 Sensory-being: the enveloping of natural presentness and awareness in an unfolding sensory moment. Sensory Beings: people whose experience of the world, and meaning within it, is primarily sensory. Often these are people who do not have access to language. If you support someone who understands the world in a primarily sensory way, for example someone with PMLD or later stage dementia, you will recognise that they often face periods of time in which they are left without an activity they can access. This unique, practical guide helps you to plan and deliver sensory activities that lead people into a calm, focused state. You are even invited to let the person you support lead you into a state of sensory focus. Written by a leading sensory specialist this book will help you to: View the world as the person you support may view it, and identify times when a sensory-being activity may be appropriate. Understand how to select and create the most engaging, low cost, sensory foci to suit the specific needs of the individuals in your care. Effectively facilitate sensory-being sessions from start to finish so that the people you care for receive the full and many benefits of calm, focused time. Tried and tested in a diverse range of settings prior to publication, these techniques and practical tools have already helped many people provide an enriched experience of life for those in their care. Throughout the book you will find numerous case studies and insights from parents, carers, special school practitioners, therapists, research institutions and more so that you can benefit from this broad body of experience.

Introductory Grammar of Amharic Wolf Leslau,2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's Traite de langue amharique (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language.The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

Backyard Fairies Phoebe Wahl,2018-03-06 Fairies are real, and they're all around us! Award-winning author-illustrator Phoebe Wahl offers a fanciful and beautifully illustrated peek into the hidden world of fairies, sprites, and other magical creatures. A girl searches for fairies in her backyard and the woods beyond, following little clues and traces of magic. Fairies and other magical creatures can be found on every page, hidden among the flowers, trees and pebbles. But although readers can see them, the girl keeps searching, just one step behind... In the end, it is clear (both to the girl and readers) that there is magic all around, even when it's hidden in plain sight. Phoebe Wahl takes us deep into the world of fairies, and her vibrant, multi-textured woodland scenes are every bit as enchanting as the creatures therein. A gorgeously illustrated paean to imagination and the natural world. Delightful . . . This gently magical outing will appeal not only to longtime lovers of European folklore, but also to fans of the popular fairy door phenomenon.--Kirkus Reviews

The Challenge Alan Drake,2023-12-28 God invites you to cast your cares on Him, because He cares for you (1 Peter 5:7). It is natural to seek first to meet our own needs and the needs of our family members, but God invites us to make an exchange. He invites us to cast our concerns on Him, and He promises to care for us better than we could take care of ourselves. In exchange, He desires for us to take on His concerns, His priorities, and seek His Kingdom first.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
