Silk and Cotton Susan Meller, 2018-12-15 The traditional textiles of Central Asia are unknown treasures. Straddling the legendary Silk Road, this vast region stretches from Russia in the west to China in the east. Whether nomadic or sedentary, its peoples created textiles for every aspect of their way of life, from ceremonial objects marking rites of passage, to everyday garments, to practical items for the home. There were suzanis for the marriage bed; prayer mats; patchwork quilts; bridal ensembles; bags for tea, scissors, and mirrors; lovingly embroidered hats and bibs; and robes of every color and pattern. Author Susan Meller has spent years assembling the 590 textiles illustrated in this book. She documents their history, use, and meaning through archival photographs and fascinating travelers' narratives spanning many centuries. Her book will be a revelation to designers, collectors, students of Central Asia, and travelers to the region. Silk and Cotton is destined to become a classic.

Bedouin Weaving of Saudi Arabia and Its Neighbours Joy Totah Hilden, 2010 Portable and practical, tough and colourful, Bedouin textiles played until recent times a vital and functional part in the life of the Arab nomads. Bedouin women were expected to master the art of making entire tents as well as a wide range of rugs, saddlebags and other equipment able to withstand the rigours of the desert. They took a fierce pride in their work and produced, on the simplest ground looms, textiles that were at once hard-wearing and of vibrant aesthetic appeal. The true craftspeople of the desert, Bedouin women wove to provide the very fabric of day-to-day living. Joy Hilden describes the weaving techniques of the Bedouin in the context of their transitional mode of life, as they adapt from their centuries-old nomadic existence to being both semi- and fully settled. She gathered her information on dyeing, spinning and weaving while living and travelling in Saudi Arabia between 1982 and 1994, extending her scope with trips to other parts of the Arabian Peninsula and adjacent Arab countries. She describes visits to Bedouin families, desert markets and urban centres where Bedouin gathered. Her work comes at a time when many tribal peoples are losing their cultural traditions and, with them, their crafts and the material of everyday life in the desert. This is the most exhaustive study to date of the weaving methods practised by the Bedouin of Saudi Arabia. Profusely illustrated, and giving thorough instruction in techniques, Bedouin Weaving is an essential companion for collectors and connoisseurs of flat-weave textiles, the category into which Bedouin weavings fall. It is aimed both at general readers and at weavers, craftspeople in general, students, ethnographers, and museum and textile authorities.

Introductory Grammar of Amharic Wolf Leslau, 2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

A Call to Duty David Weber, Timothy Zahn, 2014-09-16 Growing up, Travis Uriah Long yearned for order and discipline in his life . . . the two things his neglectful mother couldn't or wouldn't provide. So when Travis enlisted in the Royal Manticoran Navy, he thought he'd finally found the structure he'd always wanted so desperately. But life in the RMN isn't exactly what he expected. Boot camp is rough and frustrating; his first ship assignment lax and disorderly; and with the Star Kingdom of Manticore still recovering from a devastating plague, the Navy is possibly on the edge of budgetary extinction. The Star Kingdom is a minor nation among the worlds of the Diaspora, its closest neighbors weeks or months away, with little in the way of resources. With only modest interstellar trade, no foreign contacts to speak of, a plague-ravaged economy to rebuild, and no enemies looming at the hyper limit, there are factions in Parliament who want nothing more than to scrap the Navy and shift its resources and manpower elsewhere. But those factions are mistaken. The universe is not a safe place. Travis Long is about to find that out. At the publisher's request, this title is sold without DRM (Digital Rights Management). About A Call to Duty: A new series set in the universe of Webers popular heroine Honor Harrington gets off to a solid start. . . . Cowriters Zahn and Weber do an excellent job alluding to events known to longtime fans. . . . [T]his astronautical adventure is filled with . . . intrigue and political drama. Handwoven Tape Susan Faulker Weaver, 2016-11-28 Narrow bands of woven tape were important to Americans in the eighteenth and early nineteenth centuries, before the days of elastic and zippers. This book documents the fascinating American history of handwoven tape and offers patterns and instructions to enable today's weavers to make it. Many Early American households had a tape loom for making the tape needed by the family, and this book offers a discussion of the people who wove tape, the patterns woven, and the types of looms used, along with over 280 color images. The book also gives step-by-step instructions for setting up a tape loom with warp threads, and explains how to weave your own tape. You can weave tape for similar practical uses as our forebears, or to create one-of-a-kind gifts and decorations like key chains, holiday garlands, or lanyards.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book—used as a textbook by Panzer officers in the war—has an introduction and extensive background notes by the modern English historian Paul Harris.
