Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Troubling Borders Isabelle Thuy Pelaud,Lan Duong,Kathy L. Nguyen,Mariam B. Lam,2020-01-09 Juxtaposing short stories, poetry, painting, and photographs, *Troubling Borders* showcases the creative work of women of Vietnamese, Cambodian, Lao, Thai, and Filipino ancestry. This thematically arranged collection interrupts borders of categorization and gender, in what preface author Shirley Geok-Lin Lim describes as a leap over the barbed fences that have kept these women apart in these, our United States of America. The sixty-two contributors have been shaped by colonization, wars, globalization, and militarization. For some of these women on the margins of the margin, crafting and showing their work is a bold act in itself. Their provocative and accessible creations tell unique stories, provide sharp contrasts to familiar stereotypes--Southeast Asian women as exotic sex symbols, dragon ladies, prostitutes, or bar girls--and serve as entry points for broader discussions about questions of history, memory, and identity.

Playing with Forms Eduardo Duran,2019-09-24 With a backpack, a young engineer travels the world seeking to enhance his education and gain insight into the world at large and the human condition. His quest for knowledge takes him beyond the visible world and into a world of quantum connections, non-physical beings, and a story of history that isn't teachable in the classroom. Working with spiritual leaders and channelers as a source of knowledge, he weaves the story of his travels into the story of the source and nature of humanity, of Earth, and the cosmos. Eduardo left everything he had and started to travel the world alone, using only a backpack, and staying with local people. In some parts of the world, he traveled

without using any money at all. After visiting almost every country of the world and talking to many people, he discovered the nature of humanity and a hidden, ancient history of the world. He met people who shared this knowledge. After several spiritual experiences, he met higher dimensional beings who helped him to deepen his understanding. He describes what he found in simple, straightforward language, making it easy to understand. You will find interesting stories from all over the world, impressive information from ancient civilizations, religions, history, psychology, physics, medicine, politics, and how it's all related to our modern world. But most importantly, how to use it in your daily life. He explains how powerful our thoughts are, and how we experience our reality through mental images that he calls forms.
