Twentieth Century Words John Ayto, 1999 A landmark book for the end of the century, presenting an overview of the development of English vocabulary from 1900 to the present day. There will be ten chapters, one for each decade, that will provide an introduction to the decade, with areas of particular importance and interest noted, and a presentation of new words for that decade. The selected entries will be both new words, and words that have important new meanings. They will be listed alphabetically in a dictionary-style presentation, with the earliest recorded date of each word entered, and an exemplary quote also given. The source for the entries will be the OED2, and the Additions Series, as well as unpublished material from the New Words group in the OED Department. In addition to the main alphabetic sequence of entries, there will also be boxed panels covering specific aspects of a decade's vocabulary e.g. words arising directly from World War II for the 1940s. There will also be cross-chapter panels, for example 'insults of the century'. Examples of new words and their, perhaps surprising, earliest recorded dates: 'astronaut' - first coined in the 1920s when it was still an ambition. 'fruit machine' - 1930s; 'discotheque' - 1950s; 'pager' - 1960s

The Peopled Wound Martin Esslin, 1970

The Routledge Handbook of Mobilities Peter Adey, David Bissell, Kevin Hannam, Peter Merriman, Mimi Sheller, 2014-01-10 The 21st century seems to be on the move, perhaps even more so than the last. With cheap travel, and more

than two billion cars projected worldwide for 2030. And yet, all this mobility is happening incredibly unevenly, at different paces and intensities, with varying impacts and consequences to the extent that life on the move might be actually quite difficult to sustain environmentally, socially and ethically. As a result 'mobility' has become a keyword of the social sciences; delineating a new domain of concepts, approaches, methodologies and techniques which seek to understand the character and quality of these trends. This Handbook explores and critically evaluates the debates, approaches, controversies and methodologies, inherent to this rapidly expanding discipline. It brings together leading specialists from range of backgrounds and geographical regions to provide an authoritative and comprehensive overview of this field, conveying cutting edge research in an accessible way whilst giving detailed grounding in the evolution of past debates on mobilities. It illustrates disciplinary trends and pathways, from migration studies and transport history to communications research, featuring methodological innovations and developments and conceptual histories - from feminist theory to tourist studies. It explores the dominant figures of mobility, from children to soldiers and the mobility impaired; the disparate materialities of mobility such as flows of water and waste to the vectors of viruses; key infrastructures such as logistics systems to the informal services of megacity slums, and the important mobility events around which our world turns; from going on vacation to the commute, to the catastrophic

disruption of mobility systems. The text is forward-thinking, projecting the future of mobilities as they might be lived, transformed and studied, and possibly, brought to an end. International in focus, the book transcends disciplinary and national boundaries to explore mobilities as they are understood from different perspectives, different fields, countries and standpoints. This is an invaluable resource for all those with an interest in mobility across disciplinary boundaries and areas of study.

Kumba Africa Sampson Ejike Odum,2020-11-03 'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They

celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

Stillness in a Mobile World David Bissell, Gillian Fuller, 2013-01-11 This edited collection of essays on the conceptual, political and philosophical importance of stillness is positioned within a world that has increasingly come to be understood through the theoretical and conceptual lens of movement. With contributions from leading scholars in the field, the diversity of this collection illuminates the multiplicity of ontological and epistemological registers through which stillness moves: from human geography to media studies, cultural theory to fine arts. With the help of luminaries such as Deleuze, Bergson, Barthes and Beckett, this book interweaves cutting-edge theoretical insight with empirical illustrations which examine and traverse a multitude of practices, spaces and events. In an era where stasis, slowness and passivity are often held to be detrimental, this collection puts forward a new set of political and ethical concerns which help us to come to terms with, understand, and account for (im)mobile life. Stillness in a Mobile World in an essential source of reference for both undergraduate and post-graduate students working within disciplines such as cultural studies, sociology, mobility studies, and human geography.

The Longman Register of New Words John Ayto,1989 This book systematically records, verifies and interprets over 1200 new English words and meanings which appeared worldwide, predominantly in 1987 and 1988. The entry records the word, gives a definition, cites the press quotation to verify the occurrence and interprets the origin of the word.

Truth Is a Woman Loren Jakobov,2017-09-12 Truth Is A Woman is a poetry collection by Loren Jakobov written in response to her friends tragic death in 2015 as a victim of rape and murder. The poems discuss the World from the eyes of a woman, the pain and the beauty that lies therein.

Mobility Peter Adey,2009-09-10 As everything from immigration, airport security and road tolling become headline news, the need to understand mobility has never been more pertinent. Yet 'mobility' remains remarkably elusive in summary and definition. This introductory text makes 'mobility' tangible by explaining the key theories and writings that surround it. This book traces out the concept of mobility as a key idea within the discipline of geography as well as subject areas from the wider arts and social sciences. The text takes an interdisciplinary approach to draw upon key writers and thinkers that have contributed to the topic. In analyzing these, it develops an understanding of mobility as a relationship through which the world is lived and understood. Mobility is organized around themed chapters discussing – 'Meanings', 'Politics', 'Practices' and 'Mediations', and the book identifies the evolution of mobility and its implications for

theoretical debate. These include the way we think about travel and embodiment, to regarding issues such as power, feminism and post-colonialism. Important contemporary case-studies are showcased in boxes. Examples range from the mobility politics evident in the evacuation of the flooding of New Orleans, xenophobia in Southern Africa, motoring in India, to the new social relationships emerging from the mobile phone. The methodological quandaries mobility demands are addressed through highlighted boxes discussing both qualitative and quantitative research methods. Arguing for a more relational notion of the term, the book understands mobility as a keystone to the examination of issues from migration, war and transportation; from communications and politics to disability rights and security. Key concept and case-study boxes, further readings, and central issue discussions allow students to grasp the central importance of 'mobility' to social, cultural, political, economic and everyday terrains. The text also assists scholars of Geography, Sociology, Cultural Studies, Planning, and Political Science to understand and engage with this evasive concept.

Mobility, Space and Culture Peter Merriman, 2012-07-26 Over the past ten to fifteen years there has emerged an increasing concern with mobility in the social sciences and humanities. In *Mobility, Space and Culture*, Peter Merriman provides an important and timely contribution to the mobilities turn in the social sciences, encouraging academics to rethink the relationship between movement, embodied practices, space and place. The book takes an

interdisciplinary approach, drawing upon theoretical and empirical work from across the social sciences and humanities to provide a critical evaluation of the relationship between 'mobility' and 'place'/'site', reformulating places as in process, open, and dynamic spatial formations. Merriman draws upon post-structuralist writings on space, practice and society to demonstrate how movement is not simply practised or experienced in relation to space and time, but gives rise to rhythms, forces, atmospheres, affects and materialities which are often more crucial to embodied apprehensions of events than sensibilities of spatiality and temporality. He draws upon detailed empirical research on experiences of, and social reactions to, driving in late Victorian and Edwardian Britain to trace how the motor-car became associated with sensations of movement-space and enmeshed with debates about embodiment, health, visuality, gender and politics. The book will be essential reading for undergraduates and postgraduates studying mobility in sociology, geography, cultural studies, politics, transport studies, and history.

My Incredible Adventures ,2017-03-04 Mary was an ordinary schoolgirl who never thought about having crazy adventures. One day, she was captured by an alien and sent to another planet for an experiment, but it was a failure. When the experiment failed, she was sent back to Earth by a UFO. Then she

experienced another adventure, going back to her past life as a queen who was a fish. Will she be able to return to her present life? Age Range: 8-10 (Third/Fourth/Fifth grade)

On the Move Timothy Cresswell, 2012-11-12 On the Move presents a rich history of one of the key concepts of modern life: mobility. Increasing mobility has been a constant throughout the modern era, evident in mass car ownership, plane travel, and the rise of the Internet. Typically, people have equated increasing mobility with increasing freedom. However, as Cresswell shows, while mobility has certainly increased in modern times, attempts to control and restrict mobility are just as characteristic of modernity. Through a series of fascinating historical episodes Cresswell shows how mobility and its regulation have been central to the experience of modernity.

Understanding Tourism Kevin Hannam, Dan Knox, 2010-03-25 Understanding Tourism introduces tourism students to concepts drawn from critical theory, cultural studies and the social sciences. It does so with a light and readable touch, highlighting the ideas that underlie contemporary critical tourism studies in a practical and engaging way. Specifically, the authors examine how post-structuralist thought has led to a re-imagining of power relationships and the ways in which they are central to the production and consumption of tourism experiences. Eleven clear, relevant chapters provide an accessible introduction to tourism defining, explaining and developing the key issues and methods in this exciting field.
