**Leadership, Management and Command** K. Grint, 2007-11-16 The author argues that the successes and failures of D-Day, on both sides, cannot be explained by comparing the competing strategies of each side. Instead he provides an account of the battle through the overarching nature of the relationship between the leaders and their followers.

**Another Life** Andrew R B Simpson, 2011-08-31 T.E. Lawrence found global recognition for his leadership of the Arab Revolt during World War I, preparing the ground for the final Allied offensive in 1918. He was hailed as a hero, but little is known about this mysterious and charismatic man after those events. Here is Lawrence's life after Arabia, his service in the RAF and the Tank Corps as a mere ranker, and how he became an expert in the technology of the new RAF. The book examines the work he did for the 1929 Schneider Trophy Race, the development of the new RAF 200 seaplane tender, and the development of its armour plated offspring, the Armoured Target Boat. It also investigates his literary endeavours and his tragically early death, a sad end to a Renaissance man of all talents, an academic, a talented engineer and a soldier sans pareil. T.E. was offered exalted diplomatic positions by Churchill, implored by Nancy Astor to re-enter the fray as the Nazi threat grew, socialised with the Cliveden set, argued with the Archbishop of Canterbury. He made lasting friendships with humble squaddies. His self-loathing was expressed physically. Consulting primary

sources and also having interviewed some of those who knew Lawrence after Arabia the author portrays the last years of one of the most astonishing figures of the 20th century.

*The Story of Crass* George Berger, 2009 In-depth interviews with the main movers in the punk rock movement--Crass members Penny Rimbaud, Gee Vaucher, and Steve Ignorant--detail the face of the revolution founded by these radical thinkers and artists. When punk ruled the waves, Crass waived the rules by putting out their own records, films, and magazines and setting up a series of situationist pranks that were dutifully covered by the world's press. Not just another iconoclastic band, Crass was a musical, social, and political phenomenon: commune dwellers that were rarely photographed and remained contemptuous of conventional pop stardom. As detailed in this history, their members explored and finally exhausted the possibilities of punk-led anarchy. This definitive biography of the band not only gives backstage access to their lives, philosophies, and the movement that followed, but also to never-before-seen photographs and rare dialogues.

**Dying Modern** Diana Fuss, 2013-04-12 In *Dying Modern*, renowned literary critic Diana Fuss argues that as death has been increasingly shunted off-stage, out of the public eye, poets have taken up the task of reckoning with dying, loss, absence, and grief.

*Twentieth Century Words* John Ayto, 1999 A landmark book for the end of the century, presenting an overview of the development of English vocabulary from 1900 to the present day. There will be ten chapters, one for each decade, that will provide an introduction to the decade, with areas of particular importance and interest noted, and a presentation of new words for that decade. The selected entries will be both new words, and words that have important new meanings. They will be listed alphabetically in a dictionary-style presentation, with the earliest recorded date of each word entered, and an exemplary quote also given. The source for the entries will be the OED2, and the Additions Series, as well as unpublished material from the New Words group in the OED Department. In addition to the main alphabetic sequence of entries, there will also be boxed panels covering specific aspects of a decade's vocabulary e.g. words arising directly from World War II for the 1940s. There will also be cross-chapter panels, for example 'insults of the century'. Examples of new words and their, perhaps surprising, earliest recorded dates: 'astronaut' - first coined in the 1920s when it was still an ambition. 'fruit machine' - 1930s; 'discotheque' - 1950s; 'pager' - 1960s

**Dictionary of Word Origins** John Ayto, 2011-04-01 Uncover the hidden and often surprising connection between words. Written in a clear and informative style, the more than 8,000 articles reveal the origins of and links between some of the most common English-language words. What is the link between map and apron, acrobat and oxygen, zeal and jealousy, flour and pollen, secret and crime? Did you know that crimson originally comes from the name of tiny scale insects, the kermes, from whose dried bodies a red dyestuff is made? That Yankee began as a nickname for Dutchmen? That omelette evolved from amulette, "a thin sheet of metal," and is a not-too-distant cousin of the word laminate? That jeans find their antecedent in jean fustian, meaning "a cotton fabric from Genoa"? They also contain an extensive selection of words whose life histories are intrinsically fascinating or instructive. This dictionary shows how modern English has developed from its Indo-European roots and how the various influences on the language—from migration and invasion to exploration, trade, technology, and scholarship—have intermingled. It is an invaluable addition to any English or linguistics library.

The Arts of Leadership Keith Grint, 2000-04-13 Leadership is still much discussed, studied, and sought after, even though we now live in supposedly more democratic times with flatter organizations and empowered employees. But how can we best understand leadership? Are leaders born or made? Do they have particular traits or are we all potential leaders? Do the requirements for leadership change over time or are there timeless patterns? Do traditional approaches help us to pick and develop leaders or are there alternative ways that advance our understanding? In this book, Keith Grint—who has been studying and teaching leadership for over a decade—investigates the notion of leadership in a series of historical case studies and rich essay portraits of some of the most famous, and infamous, leaders (e.g. Florence Nightingale, Richard Branson, Horatio Nelson, Martin Luther King, Henry Ford, etc.). The scenarios are drawn from right across the spectrum to include business, politics, society, and the military. The first part of the book considers four sets of parallel cases where leadership appears to be a major explanation of success and failure. The second part takes the four critical issues arising from these parallel cases (identity, strategic vision, organizational tactics, and persuasive communication) and explores them in detail. One main reason we have such difficulty in explaining and enhancing leadership, Grint argues, is because we often adopt perspectives and models that obscure rather than illuminate the issues involved. The reliance upon traditional scientific analysis has not provided the anticipated advances in our understanding because leadership is more fruitfully considered as an art, or more exactly an array of arts, rather than as a science. Grint's rich and meticulously-researched profiles combine to reveal these Arts of Leadership.

Decline to Fall Douglas Wass, 2008-03-13 Written by the former Permanent Secretary to HM Treasury, Sir Douglas Wass, *Decline to Fall* traces the unusual events of the 1976 IMF crisis which saw the UK government accept a massive loan from the IMF. Using a wealth of documentation, Sir Douglas questions the inevitability of the crisis and the measures taken to resolve it.
