Leadership, Management and Command K. Grint, 2007-11-16 The author argues that the successes and failures of D-Day, on both sides, cannot be explained by comparing the competing strategies of each side. Instead he provides an account of the battle through the overarching nature of the relationship between the leaders and their followers.

The Arts of Leadership Keith Grint, 2000-04-13 Leadership is still much discussed, studied, and sought after, even though we now live in supposedly more democratic times with flatter organizations and empowered employees. But how can we best understand leadership? Are leaders born or made? Do they have particular traits or are we all potential leaders? Do the requirements for leadership change over time or are there timeless patterns? Do traditional approaches help us to pick and develop leaders or are there alternative ways that advance our understanding? In this book, Keith Grint, who has been studying and teaching leadership for over a decade, investigates the notion of leadership in a series of historical case studies and rich essay portraits of some of the most famous, and infamous, leaders (e.g. Florence Nightingale, Richard Branson, Horatio Nelson, Martin Luther King, Henry Ford, etc.). The scenarios are drawn from right across the spectrum to include business, politics, society, and the military. The first part of the book considers four sets of parallel cases where leadership appears to be a major explanation of success and failure. The second part takes the four critical issues arising from these parallel cases (identity, strategic vision, organizational tactics, and persuasive communication) and explores them in detail. One main reason we have such difficulty in explaining and enhancing leadership, Grint argues, is because we often adopt perspectives and models that obscure rather than illuminate the issues involved. The reliance upon traditional scientific analysis has not provided the anticipated advances in our understanding because leadership is more fruitfully considered as an art, or more exactly an array of arts, rather than as a science. Grint's rich and meticulously-researched profiles combine to reveal these Arts of Leadership.

Kumba Africa Sampson Ejike Odum, 2020-11-03 'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New Yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning

during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

The Hinge Factor Erik Durschmied, 2011-10-01 From the wooden horse at Troy to a harrowing photograph snapped in Vietnam, from Robert E. Lee's lost battle plans to the evacuation of Dunkirk, world history has been shaped as much by chance and error as by courage and heroism. Time and again, invincible armies fall to weaker opponents in the face of impossible odds, when the outcome had seemed a foregone conclusion. How and why does this happen? What is it that decides the fate of battle? Writing with the style and flair that has made him an award-winning war correspondent, Durschmied takes us through the major battles of history, from the battlefields of ancient Greece to the Gulf War. In a series of gripping narratives, he vividly recreates the crucial events in all their mayhem and confusion while pointing out the decisive moments that changed the course of history. We see Agincourt, where rain combined with French arrogance to give Henry V the day; the Crimea, where a badly worded order led to the disastrous charge of the Light Brigade; and colonial Africa, where an attack by African killer bees, described by the London Times as Germany's secret weapon, repulsed an Allied invasion. And in a chilling epilogue, we are given a disturbing glimpse of the secret attempt by Libya to buy atomic weapons from China for use against Israel. Drawing from a variety of sources, including personal accounts such as soldiers' diaries and letters home, *The Hinge Factor* is an instructive, fascinating look at how the unpredictable, the absurd, and the bizarre have shaped the face of history in war.

Antifascisms David Ward,1996 This book is an in-depth analysis of three of the most crucial years in twentieth-century Italian history, the years 1943-46. After more than two decades of a Fascist regime and a disastrous war experience during which Italy changed sides, these years saw the laying of the political and cultural foundations for what has since become known as Italy's First Republic. Drawing on texts from the literature, film, journalism, and political debate of the period, Antifascisms offers a thorough survey of the personalities and positions that informed the decisions taken in this crucial phase of modern Italian history.

Murphy's Laws of Combat Marion F. Sturkey,2009 Modern-day warriors who desire to stay alive in battle should heed Murphy's Laws of Combat - hilarious because of their inherent truths. How Chance and Stupidity Have Changed History Erik Durschmied,2016-07-19 From the Trojan Horse to a photograph snapped in Vietnam, world history has been shaped as much by chance and error as by courage and heroism. Despite impossible odds, invincible armies fall in bitter defeat to weaker opponents. How and why does this happen? What decides the fate of battle? In this fascinating book, Erik Durschmied takes us through the major conflicts of history—from Agincourt to the Civil War, from Crimea to the Gulf War—and reveals how, in war, it is the improbable and the inconceivable that determine events. Writing with the style and flair that made him an award-winning war correspondent, Durschmied explores the fistful of nails that could have won Waterloo for Napoleon; the barrel of schnapps that proved disastrous for an Austrian emperor; and the three cigars that changes the course of Antietam; and many other instances when chance decided history's path. Conflicts are decided by the caprice of weather, erroneous intelligence, unlikely heroism, strange coincidence, or individual incompetence—in short, by the unpredictable “hinge factor.” Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

D-Day 1944 Robin Neillands, Roderick De Normann, 2012-07-26 The story of D-Day, told in the words of those who were actually there. 'The gigantic scale of the invasion is stunningly evoked' - MAIL ON SUNDAY At fifteen minutes after midnight on June 6 1944, Operation 'Overlord', the Allied invasion of Hitler's Fortress Europe, became reality. In this penetrating account of D-Day and the period which followed, Robin Neillands and Roderick de Normann weave objective narration with personal accounts from those who were there to create a matchless history of the largest amphibious assault ever launched.

Three Masters: Balzac, Dickens, Dostoevsky Stefan Zweig, 2019-08-16 In these early 20th century literary essays, Stefan Zweig offers a Central European view of the writers he believed to be the "three greatest novelists" of the 19th century: Balzac, Dickens, and Dostoevsky. In Zweig's view, Balzac set out to emulate his childhood hero Napoleon. Writing 20 hours a day, Balzac's literary ambition was "tantamount to monomania in its persistence, its intensity, and its concentration." His characters, each similarly driven by one desperate urge, were more vital to Balzac than people in his daily life. In Zweig's reading, Dickens embodied Victorian England and its "bourgeois smugness". His characters aspire to "A few hundred pounds a year, an amiable wife, a dozen children, a well-appointed table and succulent meats to entertain their friends with, a cottage not too far from London, the windows giving a view over the green countryside, a pretty little garden, and a modicum of happiness." The ideal of middle-class respectability suffuses Dickens' fiction. Dostoevsky drew on the struggles of his own life to illuminate the contradictions of the human soul. In Zweig's view, his heroes had no desire to be citizens or ordinary human beings. While Balzac's heroes "would gladly have subjugated the world, Dostoevsky's heroes wished to transcend it."
