Pain Management and the Opioid Epidemic National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Sciences Policy, Committee on Pain Management and Regulatory Strategies to Address Prescription Opioid Abuse, 2017-09-28 Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.

Critical Thinking, Reading, and Writing Sylvan Barnet, Hugo Bedau, 2013-08-23 PACKAGE THIS TITLE WITH OUR 2016 MLA SUPPLEMENT, Documenting Sources in MLA Style (package ISBN-13: 9781319084370). Get the most recent updates on MLA citation in a convenient, 40-page resource based on The MLA Handbook, 8th Edition, with plenty of models. Browse our catalog or contact your representative for a full listing of updated titles and packages, or to request a custom ISBN. Critical Thinking, Reading, and Writing is a compact but complete guide to critical thinking and argumentation. Comprising the text portion of the widely adopted Current Issues and Enduring Questions, it draws on the authors' dual expertise in effective persuasive writing and comprehensive rhetorical strategies to help students move from critical thinking to argumentative and researched writing. This extraordinarily versatile text includes comprehensive coverage of classic and contemporary approaches to argument, from Aristotelian to Toulmin, to a new chapter on rhetorical analysis of pop culture texts, as well as 35 readings (including e-Pages that allow students to take advantage of working with multimodal arguments on the Web), and a casebook on the state and the individual. This affordable guide can stand alone or supplement a larger anthology of readings.

Grassroots Postmodernism Gustavo Esteva, Madhu Suri Prakash, 2014-08-14 With the publication of this remarkable book in 1998, Gustavo Esteva and Madhu Suri Prakash instigated a complete epistemological rupture. Grassroots Post-modernism attacks the three sacred cows of modernity: global thinking, the universality of human rights and the self-sufficient individual. Rejecting the constructs of development in all its forms, Esteva and Prakash argue that even alternative development prescriptions deprive the people of control over their own lives, shifting this control to bureaucrats, technocrats and educators. Rather than presuming that human progress fits a predetermined mould, leading towards an increasing homogenization of cultures and lifestyles, the authors argue for a 'radical pluralism' that honours and nurtures distinctive cultural variety and enables many paths to the realization of self-defined aspirations. This classic text is essential reading for those looking beyond neoliberalism, the global project and the individual self.

Naming What We Know Linda Adler-Kassner, Elizabeth Wardle, 2015-06-15 Naming What We Know examines the core principles of knowledge in the discipline of writing studies using the lens of "threshold concepts"—concepts that are critical for epistemological participation in a discipline. The first part of the book defines and describes thirty-seven threshold concepts of the discipline in entries written by some of the field's most active researchers and teachers, all of whom participated in a collaborative wiki discussion guided by the editors. These entries are clear and accessible, written for an audience of writing scholars, students, and colleagues in other disciplines and policy makers outside the academy. Contributors describe the conceptual background of the field and the principles that run throughout practice, whether in research, teaching, assessment, or public work around writing. Chapters in the second part of the book describe the benefits and challenges of using threshold concepts in specific sites—first-year writing programs, WAC/WID programs, writing centers, writing majors—and for professional development to present this framework in action. Naming What We Know opens a dialogue about the concepts that writing scholars and teachers agree are critical and about why those concepts should and do matter to people outside the field.

Once Upon a River: A Novel Bonnie Jo Campbell, 2011-07-05 "A demonstration of outstanding skills on the river of American literature." —Entertainment Weekly Bonnie Jo Campbell has built her new novel like a modern-day craftsman from the old timbers of our national myths about loners living off the land, rugged tales as perilous as they are alluring. Without sacrificing any of its originality, this story comes bearing the saw marks of classic American literature, the rough-hewn sister of The Leatherstocking Tales, The Adventures of Huckleberry Finn, and Walden."—Ron Charles, Washington Post

The Routledge Handbook of Translation History Christopher Rundle, 2021-09-30 The Routledge Handbook of Translation History presents the first comprehensive, state-of-the-art overview of this multi-faceted disciplinary area and serves both as an introduction to carrying out research into translation and interpreting history and as a key point of reference for some of its main theoretical and methodological issues, interdisciplinary approaches, and research themes. The Handbook brings together 30

eminent international scholars from a wide range of disciplinary backgrounds, offering examples of the most innovative research while representing a wide range of approaches, themes, and cultural contexts. The Handbook is divided into four sections: the first looks at some key methodological and theoretical approaches; the second examines some of the key research areas that have developed an interdisciplinary dialogue with translation history; the third looks at translation history from the perspective of specific cultural and religious perspectives; and the fourth offers a selection of case studies on some of the key topics to have emerged in translation and interpreting history over the past 20 years. This Handbook is an indispensable resource for students and researchers of translation and interpreting history, translation theory, and related areas.

Literary Skinheads? Jay Rosellini, 2000 These two phenomena can be seen as manifestations of a general malaise, a disorientation that may last for quite some time, and Jay Rosellini approaches his subject with the belief that it would be irresponsible to ignore these disquieting trends. This account is recommended for the general reader interested in international issues as well as for students and scholars of German, intellectual history, political science, and comparative sociology.--BOOK JACKET.

Relieving Pain in America Institute of Medicine, Board on Health Sciences Policy, Committee on Advancing Pain Research, Care, and Education, 2011-10-26 Chronic pain costs the nation up to \$635 billion each year in medical treatment and lost productivity. The 2010 Patient Protection and Affordable Care Act required the Department of Health and Human Services (HHS) to enlist the Institute of Medicine (IOM) in examining pain as a public health problem. In this report, the IOM offers a blueprint for action in transforming prevention, care, education, and research, with the goal of providing relief for people with pain in America. To reach the vast multitude of people with various types of pain, the nation must adopt a population-level prevention and management strategy. The IOM recommends that HHS develop a comprehensive plan with specific goals, actions, and timeframes. Better data are needed to help shape efforts, especially on the groups of people currently underdiagnosed and undertreated, and the IOM encourages federal and state agencies and private organizations to accelerate the collection of data on pain incidence, prevalence, and treatments. Because pain varies from patient to patient, healthcare providers should increasingly aim at tailoring pain care to each person's experience, and self-management of pain should be promoted. In addition, because there are major gaps in knowledge about pain across health care and society alike, the IOM recommends that federal agencies and other stakeholders redesign education programs to bridge these gaps. Pain is a major driver for visits to physicians, a major reason for taking medications, a major cause of disability, and a key factor in quality of life and productivity. Given the burden of pain in human lives, dollars, and social consequences, relieving pain should be a national priority.

Escape from Slavery Francis Bok, 2007-04-01 In this groundbreaking modern slave narrative, Francis Bok shares his remarkable story with grace, honesty, and a wisdom gained from surviving ten years in captivity. May, 1986: Selling his mother's eggs and peanuts near his village in southern Sudan, seven year old Francis Bok's life was shattered when Arab raiders on horseback, armed with rifles and long knives, burst into the quiet marketplace, murdering men and women and gathering the young children into a group. Strapped to horses and donkeys, Francis and others were taken north, into lives of slavery under wealthy Muslim farmers. For ten years, Francis lived alone in a shed near the goats and cattle that were his responsibility. Fed with scraps from the table, slowly learning bits of an unfamiliar language and religion, the boy had almost no human contact other than his captor's family. After two failed attempts to escape--each bringing severe beatings and death threats--Francis finally escaped at age seventeen, a dramatic breakaway on foot that was his final chance. Yet his slavery did not end there, for even as he made his way toward the capital city of Khartoum, others sought to deprive him of his freedom. Determined to avoid that fate and discover what had happened to his family on that terrible day in 1986, the teenager persevered through prison and refugee camps for three more years, winning the attention of United Nations officials and being granted passage to America. Now a student and an anti-slavery activist, Francis Bok has made it his life mission to combat world slavery. His is the first voice to speak for an estimated twenty seven million people held against their will in nearly every nation, including our own. Escape from Slavery is at once a riveting adventure, a story of desperation and triumph, and a window revealing a world that few have survived to tell.

How to Study in College Walter Pauk, Ross J.Q. Owens, 2013-02-14 Over a million students have transformed adequate work into academic achievement with this best-selling text. HOW TO STUDY IN COLLEGE sets students on the path to success by helping them build a strong foundation of study skills, and learn how to gain, retain, and explain information. Based on widely tested educational and learning theories, HOW TO STUDY IN COLLEGE teaches study techniques such as visual thinking, active listening, concentration, note taking, and test taking, while also incorporating material on vocabulary building. Questions in the Margin, based on the Cornell Note Taking System, places key questions about content in the margins of the text to provide students with a means for reviewing and reciting the main ideas. Students then use this technique--the Q-System--to formulate their own questions. The Eleventh Edition maintains the straightforward and traditional academic format that has made HOW TO STUDY IN COLLEGE the leading study skills text in the market. Nephilim Crown 5G Apocalypse Dean Henderson, 2019-07-16 Nephilim Crown 5G Apocalypse is an indictment of the computer revolution as simply the latest mechanism through which the royal bloodline families seek to control humanity. The roll out of their well-tested battlefield weapons system known as 5G represents the pinnacle in their use of electro-magnetic frequencies to literally remote control what these feudalists have for 8,000 years seen as their human herd. Since their intervention in Sumeria, these hybrid fallen angel Nephilim have usurped, steered and plundered all of Creation as self-appointed god/kings. The coming 5G apocalypse represents an opportunity for a great unveiling - the Greek meaning of apocalypse - of not only their nefarious 5G deception, but of the fraudulent Nephilim Crown itself. This book is written with the hope that it contributes to this great unveiling so that humanity will seize this moment not just to stop the 5G fourth industrial revolution of the Fourth Reich, but to emancipate itself from its Crown overlords.
