Preserver William Shatner, 2012-10-09 In the Mirror Universe the tyrannical Emperor Tiberius, once captain of the ISS Enterprise, had great success turning captured alien weaponry to his advantage. Until, that is, his failure to seize the tantalising advances of the ancient First Federation. Now, in the more peaceful universe of the United Federation of Planets, Tiberius sees his second chance. And a new ally will help him take it - his alter ego for whom he has nothing but contempt - Starfleet Captain James T. Kirk. Honorable, idealistic and decent, James T. Kirk is many things Tiberius is not. But he is also a man deeply in love with his wife - and Teilani is dying. To save her life, Kirk is prepared to compromise his ideals and enter into his most dangerous alliance yet. Battling Captain Jean-Luc Picard and a new generation of Starfleet heroes, Kirk must guide Tiberius to a long-abandoned First Federation base which conceals a power so great it will enable Tiberius to conquer the mirror universe - and his own. But on that journey Kirk uncovers long-hidden secrets that raise the stakes far beyond the mere survival of family and friends. At the heart of their quest, something else is waiting: an object from a civilisation whose technology is far more advanced than any Kirk or Tiberius could hope to acquire, placed there for Kirk's eyes only by mysterious aliens who appear to have influenced life within the galaxy over eons of time - a message from the Preservers...

Enterprise. Years before the formal first contact between Earth and another planet's inhabitants, a Vulcan space vessel crash landed in the South Pacific, forcing humanity to decide whether to offer the hand of friendship, or the fist of war. Complicating matters is a second visitation: a group of people from two hundred years in the future, who serve on a starship called Enterprise. Discover the astonishing truth about this heretofore unknown first contact and the nightmares that plague Admiral James T. Kirk. Dreams of his dead comrades, of his earliest days aboard the U.S.S. Enterprise, and of a forgotten past in which he somehow changed the course of history and destroyed the Federation before it began.

*Eon* Greg Bear, 1991-10-15 Science fiction-roman.

**Galactic North** Alastair Reynolds, 2020-04-21 A collection of eight short stories and novellas in the dark and turbulent world of Alastair Reynolds' Revelation Space universe. Centuries from now, solidarity stretches thin as humanity spreads past the solar system and to the nearest stars. Technology has produced powerful new tools-but lethal risk will always accompany great advancement. And without foresight, opposing groups may fracture multiple worlds. Between the Demarchists and the Conjoiners, the basic right to expand human intelligence-beyond its natural limits-has become a war-worthy cause. Only vast lighthugger starships bind these squabbling colonies together, manned by the panicky and paranoid Ultras. And the hyperpigs just try to keep their heads down. The rich get richer. And everyone tries not to think about the worrying number of extinct alien civilizations turning up on the outer reaches of settled space...because who's to say that humanity won't be next?

**Dangling Propositions** Billy Sledge, 2017-12-11 ...blest are those/Whose blood and judgment are so well commingled/That they are not a pipe for Fortune's finger/To sound what stop she please. (Hamlet III, 2) I can imagine these Shakespearean lines occurring to my character Nebo Rhombus, confronted with obeying the mysterious will of the plasmamorph In Instrument, one of three stories comprising Dangling Propositions. A force of life from Earth's atmosphere has revealed itself to Rhombus, an image consultant/promoter. It is determined to employ him to somehow lead humankind from a world-threatening course, before that course is cataclysmically corrected. A matter of course is also plotted in The Superstoic, though on an individual scale. Whether ultra-reticent library worker Zharko Solovich is willing, he is held to account for his right to be silent in an alternate world where no such right exists. For compulsive mimic Bogustin Guisermann, who hides himself mirroring others, being unintentionally gifted with the ability to blind people to his presence, as a result of thought-projection experiments, may be the refuge from the judging sight of the world he's sought. In Not to Behold, to be perceived, not to be perceived, seems the question.
