Greg A. Vaughan

Preserver William Shatner, 2012-10-09 In the Mirror Universe the tyrannical Emperor Tiberius, once captain of the ISS Enterprise, had great success turning captured alien weaponry to his advantage. Until, that is, his failure to seize the tantalising advances of the ancient First Federation. Now, in the more peaceful universe of the United Federation of Planets, Tiberius sees his second chance. And a new ally will help him take it - his alter ego for whom he has nothing but contempt - Starfleet Captain James T. Kirk. Honorable, idealistic and decent, James T. Kirk is many things Tiberius is not. But he is also a man deeply in love with his wife - and Teilani is dying. To save her life, Kirk is prepared to compromise his ideals and enter into his most dangerous alliance yet. Battling Captain Jean-Luc Picard and a new generation of Starfleet heroes, Kirk must guide Tiberius to a long-abandoned First Federation base which conceals a power so great it will enable Tiberius to conquer the mirror universe - and his own. But on that journey Kirk uncovers long-hidden secrets that raise the stakes far beyond the mere survival of family and friends. At the heart of their quest, something else is waiting: an object from a civilisation whose technology is far more advanced than any Kirk or Tiberius could hope to acquire, placed there for Kirk's eyes only by mysterious aliens who appear to have influenced life within the galaxy over eons of time - a message from the Preservers...

Scars of a Nation Peter Mbuthia,2019-05-22 On December 30, 2007, declaration of highly disputed

presidential election results triggered widespread violence across Kenya. The height of the violence was on January 1, 2008 when attackers who were unleashing murderers' violence on supporters of the presidential candidate who had just been declared winner meticulously planned and torched down Kenya Assemblies of God church full of women, children, and old people who had sought refuge there after learning of an imminent attack on Kiambaa Village in Eldoret Kenya. Seventeen people, mostly women and children, were burnt alive inside the church, and more than eighteen other people were shot with arrows, hacked with machete, and killed outside the church. Anthony Njoroge Mbuthia, who was then ten years old, survived the church fire but with very severe burns. He was treated in Kenya for one year and then referred to Shriners Hospital for children in Sacramento, California, USA, for reconstructive surgery. The international community led by the UN, USA, and the African Union quickly intervened to stop the murderers' violence that was becoming genocide, and thereafter mediation efforts between the combatants gave rise to a government of national unity that incorporated all political stakeholders. Investigations into the violence revealed that crimes against humanity were committed by well-organized and properly financed tribal militias. Several people, among them two who would later become president and deputy president, were indicted by the international criminal court that seats in The Hague, Netherlands. While Anthony was recuperating at the hospital and while he was suffering acute pain, he

asked, Dad . . . why did they burn the church? I thought the church is a sacred place? I had no simple answer. Scars of a Nation is a story that gives a witness narration of what transpired during and after the violence efforts to obtain justice for Anthony and all other survivors and victims of the violence, while at the same time answering Anthony's question, Dad . . . why did they burn the church? which is actually the real motivation behind the writing of this book.

My Man Jeeves Sir Pelham Grenville Wodehouse, 2020-09-28 Jeeves—my man, you know—is really a most extraordinary chap. So capable. Honestly, I shouldn't know what to do without him. On broader lines he's like those chappies who sit peering sadly over the marble battlements at the Pennsylvania Station in the place marked Inquiries. You know the Johnnies I mean. You go up to them and say: When's the next train for Melonsquashville, Tennessee? and they reply, without stopping to think, Two-forty-three, track ten, change at San Francisco. And they're right

every time. Well, Jeeves gives you just the same impression of omniscience. As an instance of what I mean, I remember meeting Monty Byng in Bond Street one morning, looking the last word in a grey check suit, and I felt I should never be happy till I had one like it. I dug the address of the tailors out of him, and had them working on the thing inside the hour. Jeeves, I said that evening. I'm getting a check suit like that one of Mr. Byng's. Injudicious, sir, he said firmly. It will not become you. What absolute rot! It's the soundest thing I've struck for years. Unsuitable for you, sir. Well, the long and the short of it was that the confounded thing came home, and I put it on, and when I caught sight of myself in the glass I nearly swooned. Jeeves was perfectly right. I looked a cross between a music-hall comedian and a cheap bookie. Yet Monty had looked fine in absolutely the same stuff. These things are just Life's mysteries, and that's all there is to it. But it isn't only that Jeeves's judgment about clothes is infallible, though, of course, that's really the main thing. The man knows everything. There was the matter of that tip on the Lincolnshire. I forget now how I got it, but it had the aspect of being the real, red-hot tabasco. Jeeves, I said, for I'm fond of the man, and like to do him a good turn when I can, if you want to make a bit of money have something on Wonderchild for the 'Lincolnshire.'

From Hobbits to Hollywood ,2006-01-01 Peter Jackson's film version of The Lord of the Rings (2001-2003) is the grandest achievement of 21st century cinema so far. But it is also linked to

topical and social concerns including war, terrorism, and cultural imperialism. Its style, symbols, narrative, and structure seem always already linked to politics, cultural definition, problems of cinematic style, and the elemental mythologies that most profoundly capture our imaginations. From Hobbits to Hollywood: Essays on Peter Jackson's Lord of the Rings treats Jackson's trilogy as having two conditions of existence: an aesthetic and a political. Like other cultural artefacts, it leads a double life as objet d'art and public statement about the world, so that nothing in it is ever just cinematically beautiful or tasteful, and nothing is ever just a message or an opinion. Written by leading scholars in the study of cinema and culture From Hobbits to Hollywood gives Jackson's trilogy the fullest scholarly interrogation to date. Ranging from interpretations of The Lord of the Rings' ideological and philosophical implications, through discussions of its changing fandoms and its incorporation into the Hollywood industry of stars, technology, genre, and merchandising, to considerations of CGI effects, acting, architecture and style, the essays contained here open a new vista of criticism and light, for ardent fans of J.R.R. Tolkien, followers of Jackson, and all those who yearn for a deeper appreciation of cinema and its relation to culture.
