Starship Spotter Adam 'mojo' Lebowitz, Robert Bonchune, 2012-09-17 The Starship Spotter was created more than two centuries ago in the early years of deep space travel to serve as a reference guide to assorted space-going vessels. Captains of the spaceships of the United Earth Space Probe Agency used this invaluable tool to help their crews to distinguish friend from foe in the unexplored reaches of the cosmos. When the services were merged to form Starfleet, the Spotter as a paper book disappeared from use. Only recently rediscovered, the newest editions of this historic volume have until now been the sole purview of the students of Starfleet Academy. Each year a new class of Starfleet cadets carefully reviews and revises the contents. The ships displayed in the Starship Spotter are chosen as a tribute to the crews who have served on them and the valour shown, regardless of the ship's affiliation. Although only thirty ships could be selected, the cadets feel that these ships reflect the noble history of space exploration and travel. We proudly present to you the Class of 2383 edition of Starship Spotter.
