**Star Wars Origami** ,2012-08-07 Kids love origami—and what could be cooler than transforming a piece of paper into Boba Fett, Princess Leia, Yoda, or R2-D2? And not just any paper, but custom-designed paper illustrated with art from the movies. Star Wars® Origami marries the fun of paper folding with the obsession of Star Wars. Like *The Joy of Origami* and *Origami on the Go*, this book puts an original spin on an ancient art. And like Star Wars® Scanimation® and Star Wars® Fandex®, it's a fresh take on Star Wars mania. Chris Alexander is a master folder and founder of the popular website [StarWarsOrigami.com](http://StarWarsOrigami.com), and here are 36 models, clearly explained, that range in difficulty from Youngling (easy) to Padawan (medium), Jedi Knight (difficult), and Jedi Master (tricky!). A front section introduces origami definitions and basic folds. Bound in the back is the book's unique folding paper, two sheets for each figure. Illustrated with original art, it makes each creation—the essential lightsabers, the Death Star, and much more—true to the movies. Star Wars Origami includes a foreword by Tom Angleberger, author of the New York Times bestsellers *The Strange Case of Origami Yoda* and *Darth Paper Strikes Back*, and is scheduled to be published at the same time as Angleberger's upcoming book, *The Secret of the Fortune Wookiee*.

Players build their own factions, representing desperate civilians, military personnel, or hardened survivors, and must explore, scavenge, and fight in order to survive another day. Rival gangs are only one of the dangers they face - mindless zombies wander the streets, driven by insatiable hunger and drawn by the sound of combat! A gang's ability to scavenge is as vital as their combat ability, and players must ensure that they have the resources to survive in this hostile world. Scenarios and campaigns allow you to develop your gang, gain experience and recruit new henchmen to build up your strength or replace the inevitable casualties of the zombie apocalypse.

Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a HUBZONE SDVOSB. <https://usgovpub.com>

**Complete Book of Urban Combatives** Lee Morrison,2015-02-01 The Complete Book of Urban Combatives is based on what Lee Morrison teaches in his Urban Combatives (UC) curriculum. Morrison formed UC after 22 years of researching various Asian and Western methods of combat, incorporating the teachings of W.E. Fairbairn and E.A. Sykes, Charles Nelson, Geoff Thompson, Bob Kasper, and Kelly McCann, to name just a few. Morrison's reality-based UC is neither a sport nor an art. It is designed to counter street violence. Having been in his share of real blood-and-snot fights, first as a somewhat misguided youth and later as a doorman at pubs and nightclubs, Morrison knows that 30 seconds on the street is worth three years in the dojo any day of the week. His hard-earned experience also taught him that no one system has all the answers, necessitating that you keep an open mind and stay on the cutting edge of combatives. At UC, the essence of good self-protection is threefold: Master a few well-honed personal security concepts. Add a realistic understanding of your enemy. Gain an understanding of fear and how you will react under pressure. In this book, Morrison includes attribute-developing drills to help you develop these and other key combatives principles, as well as the combative mentality that must accompany every aspect of your training. The goal is to provide you with a functional game plan that can be tapered to your specific needs, whether for personal protection, or for law enforcement, military, or executive-protection duties.
