📖 **Carrie’s Quest** Pam Sievers,2020-04-02 Carrie’s late mother always stressed, if it’s not perfect, it’s not worth it. That lesson has served Carrie well in most of her life, but not in love. When Carrie and her sister dismantle the family home, ugly truths about her mother are revealed, and Carrie’s perception of perfect unravels as well. At age 38, she is tired of sharing her suburban Milwaukee condo with her two cats. And remembers the advice her aunt always gave her. If a woman doesn’t walk down the aisle by the age of 40, she’ll be a social pariah. Eligible men will compare her to the day-old meat at the market--okay on the surface, but a little iffy once you open the package. When she realizes it’s time to stretch her vision and bury some of her outdated judgements and attitudes, she begins her quest for the love of her life. He does exist, doesn’t he? She’s not sure why an online dating program would produce better results than traditional methods of dating, but fortunately, her sense of humor helps her survive the search.

📖 **The Pixar Theory** Jon Negroni,2015-06-04 Every Pixar movie is connected. I explain how and possibly why. These are the words that began the detailed essay now known as The Pixar Theory, which came out way back in 2013. It collected over 10 million views on Jon’s blog alone, and was syndicated on Buzzfeed, Mashable, HuffPost, Entertainment Weekly, and more - generating over 100 million impressions and now translated into a dozen languages. Now, these thoughts and ideas first written by Jon Negroni have been fully realized inside this book, aptly named The Pixar Theory. In this book, you’ll find an analysis of every single Pixar movie to date and how it tells a hidden story lurking behind these classic movies. You’ll learn about how the toys of Toy Story secretly owe their existence to the events of The Incredibles. You’ll learn about what truly happened to the civilization of Cars from Cars before the events of Wall-E. And of course, you’ll find out the possible truth for why Boo of Monsters Inc. is the most important Pixar character yet. Welcome to the Pixar Theory. Don’t forget to fasten your imagination.

📖 **The Unicorn Project** Gene Kim,2019-11-26 The Phoenix Project wowed over a half-million readers. Now comes the Wall Street Journal bestselling The Unicorn Project! “The Unicorn Project is amazing, and I loved it 100 times more than The Phoenix Project...”—Fernando Cornago, Senior Director Platform Engineering, Adidas “Gene Kim does a masterful job of showing how ... the efforts of many create lasting business advantages for all.”—Dr. Steven Spear, author of The High-Velocity Edge, Sr. Lecturer at MIT, and Principal of HVE LLC. “The Unicorn Project is so clever, so good, so crazy enlightening!”—Cornelia Davis, Vice President of Technology at Pivotal Software, Inc., Author of Cloud Native Patterns This highly anticipated follow-up to the bestselling title The Phoenix Project takes another look at Parts Unlimited, this time from the perspective of software development. In The Unicorn Project, we follow Maxine, a senior lead developer and architect, as she is exiled to the Phoenix Project, to the horror of her friends and colleagues, as punishment for contributing to a payroll outage. She tries to survive in what feels like a heartless and uncaring bureaucracy and to work within a system where no one can get anything done without endless committees, paperwork, and approvals. One day, she is approached by a ragtag bunch of misfits who say they want to overthrow the existing order, to liberate developers, to bring joy back to technology work, and to enable the business to win in a time of digital disruption. To her surprise, she finds herself drawn ever further into this movement, eventually becoming one of the leaders of the rebellion, which puts her in the crosshairs of some familiar and very dangerous enemies. The Age of Software is here, and another mass extinction event looms—this is a story about rebel developers and business leaders working together, racing against time to innovate, survive, and thrive in a time of unprecedented uncertainty...and opportunity. “The Unicorn Project provides insanely useful insights on how to improve your technology business.”—Dominica DeGrandis, author of Making Work Visible and Director of Digital Transformation at Tasktop ——— “My goal in writing The Unicorn Project was to explore and reveal the necessary but invisible structures required to make developers (and all engineers) productive, and reveal the devastating effects of technical debt and complexity. I hope this book can create common ground for technology and business leaders to leave the past behind, and co-create a better future together.”—Gene Kim, November 2019

📖 **Seat 29B** Gordon R. Page,2020-07-28 In the 1930s, air travel was considered glamorous and exciting. But in today’s world, lines have unfortunately become long, leg room has shrunk to unthinkable sizes, food choices have become less than desirable, and passengers have become unpredictable travelers who often conduct themselves in ways that would have made their grandmothers shudder in horror. In a candid collection of real-life air travel experiences, seasoned business traveler Gordon Page shares both humorous and cringey stories of his challenges traveling the world in Seat 29B to appraise aircraft. From passengers who clipped their toenails, blacked out, and stripped naked during an overnight international flight, to a spiritual healer who confidently assisted with an in-flight medical emergency, to the flight attendants who patiently dealt with a variety of incidents and personalities, Page leads us through his diverse, often shocking experiences gathered from a million-plus miles of flying. Throughout his entertaining narrative, Page reminds all of us that attitude is the key to viewing travel as an adventure rather than an ordeal. “Gordon ... has captured the pain of travel for business but also demonstrated a clear sense of humor about the process. Sit back, relax, and enjoy the view from Seat 29B.” —Paul Hinton, pilot and aviation industry professional

📖 **DANGLING PROPOSITIONS** Billy Sledge,2017-12-11 ...blest are those/Whose blood and judgment are so well commingled/That they are not a pipe for Fortune's finger/To sound what stop she please. (Hamlet III, 2) I can imagine these Shakespearean lines occurring to my character Nebo Rhombus, confronted with obeying the mysterious will of the Plasmamorph in Instrument, one of three stories comprising *Dangling Propositions*. A force of life from Earth's atmosphere has revealed itself to Rhombus, an image consultant/promoter. It is determined to employ him to somehow lead humankind from a world-threatening course, before that course is cataclysmically corrected. A matter of course is also plotted in *The Superstoic*, though on an individual scale. Whether ultra-reticent library worker Zharko Solovich is willing, he is held to account for his right to be silent in an alternate world where no such right exists. For compulsive mimic Bogustin Guisermann, who hides himself mirroring others, being unintentionally gifted with the ability to blind people to his presence, as a result of thought-projection experiments, may be the refuge from the judging sight of the world he's sought. In *Not to Behold*, to be perceived, not to be perceived, seems the question.
