Star Wars Master Models Millennium Falcon Benjamin

Harper, Claudio Dias, 2017-10-10 This YT-1300 freighter has saved the galaxy more than once, and now you can build it with Star Wars Master Models: Millennium Falcon. Build and display this iconic ship in a manner truly fitting! Relive the Millennium Falcon's daring rescues and escapes as it aided in the defeat of both Imperial Death Stars. Then build the ultimate model ship complete with lights and sound! Star Wars Master Models: Millennium Falcon includes die-cut pieces, a sound module, LED lights, and a detailed instruction booklet to build a foot-wide model of the galaxy's most famous ship. Also included is Millennium Falcon: Mission Reports, an illustrated book that takes us back through seven pivotal moments in the Star Wars saga when the Falcon really showed its stuff, from escaping Imperial stormtroopers to shuttling Luke and Obi-Wan off Mos Eisley, and the destruction of the second Death Star. The book also includes details of the ship's modifications, a schematic diagram, crew profiles, and technical sidebars on the Falcon's most important components. Relive the adventures while you create a replica of the scrappy smuggling ship that made galactic history!

Simulacra and Simulation Jean Baudrillard, 1994 Develops a theory of contemporary culture that relies on displacing economic notions of cultural production with notions of cultural expenditure. This book represents an effort to rethink cultural theory from the perspective of a concept of cultural materialism, one that radically redefines postmodern formulations of the body.

Dark Mirror Diane Duane, 2012-12-11 One hundred years ago, four crewmembers of the U.S.S Enterprise™ crossed the dimensional barrier and found a mirror image of their own universe, populated by nightmare duplicates of their shipmates. Barely able to escape with their lives, they returned, thankful that the accident which had brought them there could not be duplicated, or so they thought. But now the scientists of that empire have found a doorway into our universe. Their plan is to destroy from within, to replace a Federation Starships with one of their own. Their victims are the crew of the U.S.S. Enterprise NCC-1701-D, who now find themselves engaged in combat against the most savage enemies they have ever encountered, themselves.

Anarchism George Woodcock, 2018-09-03 “‘Whoever denies authority and fights against it is an anarchist,’ said Sebastien Faure. The definition is tempting in its simplicity, but simplicity is the first thing to guard against in writing a history of anarchism. Few doctrines or movements have been so confusedly understood in the public mind, and few have presented in their own variety of approach and action so much excuse for confusion.” These are the opening sentences of this book, which brilliantly effaces confusion by

providing a critical history of anarchist thought and practice. Mr. Woodcock traces the development of anarchism from its earliest appearances, and the rise and fall of anarchism as a movement aiming at practical social changes during the nineteenth and twentieth centuries. He discusses the ideas of the principal anarchist thinkers—Godwin, Proudhon, Bakunin, Kropotkin, Tolstoy, among others—and explains the various forms—anarchist individualism, anarchist communism, anarcho-syndicalism—that anarchist proposals for change have taken. The development of anarchist organizations, the various forms (peaceful and violent) of anarchist political action in Europe and America, the reasons for the appeal of anarchism at certain periods and to certain people—all these are given full treatment in Mr. Woodcock’s comprehensive work, which closes with a discussion of the causes of anarchism’s failure as a movement and with a consideration of whether there are any elements in anarchist thought that—despite the failure of anarchism as a political panacea—may still be worth preserving in the modern world. “The essential introduction to the classical anarchist thinkers.”—Mark Leier, Director, Centre for Labour Studies, Simon Fraser University

Design And Truth Robert Grudin, 2010-04-20 “If good design tells the truth,” writes Robert Grudin in this path-breaking book on esthetics and authority, “poor design tells a lie, a lie usually related . . . to the getting or abusing of power.” From the ornate cathedrals of Renaissance Europe to the much-maligned Ford Edsel of the late 1950s, all products of human design communicate much more than their mere intended functions. Design holds both psychological and moral power over us, and these forces may be manipulated, however subtly, to surprising effect. In an argument that touches upon subjects as seemingly unrelated as the Japanese tea ceremony, Italian

mannerist painting, and Thomas Jefferson's Monticello plantation, Grudin turns his attention to the role of design in our daily lives, focusing especially on how political and economic powers impress themselves on us through the built environment. Although architects and designers will find valuable insights here, Grudin's intended audience is not exclusively the trained expert but all those who use designs and live within them every day.

Representations LuMing Mao, Morris Young, 2008-11-28 Asian American rhetorics, produced through cultural contact between Asian traditions and US English, also comprise a dynamic influence on the cultural conditions and practices within which they move. Though always interesting to linguists and contact language scholars, in an increasingly globalized era, these subjects are of interest to scholars in a widening range of disciplines—especially those in rhetoric and writing studies. Mao, Young, and their contributors propose that Asian American discourse should be seen as a spacious form, one that deliberately and selectively incorporates Asian “foreign-ness” into the English of Asian Americans. These authors offer the concept of a dynamic “togetherness-in-difference” as a way to theorize the contact and mutual influence. Chapters here explore a rich diversity of histories, theories, literary texts, and rhetorical practices. Collectively, they move the scholarly discussion toward a more nuanced, better balanced, critically informed representation of the forms of Asian American rhetorics and the cultural work that they do.

Trauma and Lived Religion R. Ruud Ganzevoort, Srdjan Sremac, 2018-08-11 This book focuses on the power of the 'ordinary', 'everydayness' and 'embodiment' as keys to exploring the intersection of trauma and the everyday reality of religion. It critically investigates traumatic experiences from a perspective of lived religion, and therefore, examines how trauma is articulated and lived in the foreground of people's concrete, material actualities. Trauma and Lived Religion seeks to demonstrate the vital relevance between the concept of lived religion and the study of trauma, and the reciprocal relationship between the two. A central question in this volume therefore focuses on the key dimensions of body, language, memory, testimony, and ritual. It will be of interest to academics in the fields of sociology, psychology, and religious studies with a focus on lived religion and trauma studies, across various religions and cultural contexts.

Discourse on the State of the Jews Simone Luzzatto, 2019-07-08 In 1638, a small book of no more than 92 pages in octavo was published "appresso Gioanne Calleoni" under the title "Discourse on the State of the Jews and in particular those dwelling in the illustrious city of Venice." It was dedicated to the Doge of Venice and his counsellors, who are labelled "lovers of Truth." The author of the book was a certain Simone (Simḥa) Luzzatto, a native of Venice, where he lived and died, serving as rabbi for over fifty years during the course of the

seventeenth century. Luzzatto's political thesis is simple and, at the same time, temerarious, if not revolutionary: Venice can put an end to its political decline, he argues, by offering the Jews a monopoly on overseas commercial activity. This plan is highly recommendable because the Jews are "wellsuited for trade," much more so than others (such as "foreigners," for example). The rabbi opens his argument by recalling that trade and usury are the only occupations permitted to Jews. Within the confines of their historical situation, the Venetian Jews became particularly skilled at trade with partners from the Eastern Mediterranean countries. Luzzatto's argument is that this talent could be put at the service of the Venetian government in order to maintain – or, more accurately, recover – its political importance as an intermediary between East and West. He was the first to define the role of the Jews on the basis of their economic and social functions, disregarding the classic categorisation of Judaism's alleged privileged religious status in world history. Nonetheless, going beyond the socio-economic arguments of the book, it is essential to point out Luzzatto's resort to sceptical strategies in order to plead in defence of the Venetian Jews. It is precisely his philosophical and political scepticism that makes Luzzatto's texts so unique. This edition aims to grant access to his works and thought to English-speaking readers and scholars. By approaching his texts from this point of view, the editors hope to open a new path in research into Jewish culture and philosophy that will enable other scholars to develop new directions and new perspectives, stressing the interpenetration between Jews and the surrounding Christian and secular cultures.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At

the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Deterritorialisations ... Mark Dorrian, Gillian Rose, 2003 In recent years, landscape has become increasingly recognised as a topic of central importance to a wide variety of disciplines. To a large degree this recognition has been based upon an expanding appreciation of the political aspects of landscape, its ideological character and effects. *Landscapes and Politics* is an innovative cross-disciplinary volume of new writing which brings together, in a strategic and productive encounter, a broad variety of critical work currently being done in this field. With 28 papers and five photo essays. *Landscapes and Politics* presents material by scholars and practitioners from anthropology, archaeology, architecture, art history, cultural studies, English and American literature, film studies, fine art, geography, history, landscape architecture, philosophy, political science, and religious studies. As an important marker of current methodologies, research and practice across these different disciplinary areas *Landscapes and Politics* is an invaluable resource. It will be of interest to all those concerned with current discourses and debates on landscape and its representation.
