Chris Foss

**States of the Body Produced by Love** Nisha Ramayya,2019 Love is a many-headed snake in Nisha Ramayya's debut poetry collection, twisting its way through devotion, sacrifice, and bliss. Seeking a way home, Ramayya discovers that homecoming - the impossible return - is a process of make-believe and magical thinking across Britain, India, and the infinite expanse. Ramayya's visionary poetry traces an opalescent, treacherous world by way of heritage, ritual, and myth. Thousand-petalled lotuses bloom inside skulls, goddesses with dirty feet charm honeybees, strains of jazz standards bleed into anti-national anthems. Meditating on diasporic identity and relationships, her writing roams the Indo-European language family, finds consolation in genealogies of decolonial and anti-racist resistance, and roots itself in the movements between ancient Sanskrit texts and contemporary feminist prose poems. In Ramayya's hands, the body assumes many forms as love produces many states: attraction and repulsion, excitement and exhaustion, selfishness and the dissolution of self. Desire, eroticism, and care contain the possibilities of shame, fury, and destruction. Moving towards and away from love, being translated and transformed by love, suffering under love and refusing its power - the poems in this book never leave love's hold.

**Hardware: The Definitive SF Works of Chris Foss** Chris Foss,2011-09-06 Foss's groundbreaking and distinctive science fiction art revolutionized paperback covers in the 1970s and 80s. Dramatically raising the bar for realism and invention, his trademark battle-weary spacecraft, dramatic alien landscapes and crumbling brutalist architecture irrevocably changed the aesthetic of science fiction art and cinema. Featuring work for books by Isaac Asimov, E. E. 'Doc' Smith, Arthur C. Clarke, A. E. Van Vogt and Philip K. Dick, and film design for Ridley Scott and Stanley Kubrick, this volume brings together many rare and classic images that have never been seen or reprinted before. The first comprehensive retrospective of Chris Foss's SF career. "Chris Foss' name has become pre-eminent among sf artists... He is in love with the monstrous, with angular momentum, with inertia-free projectiles and irresistible objects." – Brian Aldiss "[Foss'] creations are real machines, not just an artist's dreams. They combine the two elements so essential to science fiction: realism and a sense of wonder... A medieval goldsmith of future eons." – Alejandro Jodorowsky

**Mechanika** Doug Chiang,2008-06-27 Delve into a world of imagination populated with giant robots, strange vehicles, alien creatures and other fantastic inventions. For generations artists have created imagery destined for the entertainment of others, and now you can too. Revered science fiction artist and film designer, Doug Chiang, reveals the thought processes and techniques he used working on blockbusters such as the Star Wars prequels, War of the Worlds, Terminator, and Beowulf. You'll learn from Chiang's visionary experience as he shares his design processes, giving expert advice and showcasing the groundbreaking style that has earned his creations a spot in the Brooklyn Museum, Houston Museum of Fine Art and the Tokyo National Museum. Inside you'll discover: 30+ lessons for creating out-of-this-world science fiction scenes in the style featured in films, books, comics, toys and games using both traditional and digital techniques Details and tips for using Adobe Photoshop to conceive, design, draw and enhance your creations 25 step-by-step demonstrations of outrageous robots, vehicles, creatures

and environments with finished color images Foreword by film producer/director Robert Zemeckis (Monster House, The Polar Express, Back to the Future, Beowulf) With tips on everything from basic skills like blue-line sketching and assembling a toolkit to conceptualization and painting for digital art, Mechanika has everything you need to get great results and make your science fiction worlds come alive!
