Burden's Edge Sever Bronny, 2017-12 When a young man chooses a forbidden calling, he must prove his worth . . . or watch his kingdom fall. Sixteen-year-old Augum Stone is a warlock prodigy suffocating under the weight of expectations. Students idolize him. Nobles plot to exploit him. Commoners think he's a miracle-maker. And with invasion looming, his already war-weakened kingdom expects him to be its champion. But Augum doesn't want to be a pawn in someone else's game. He'll forge his own path: that of the Arcaner—not a warlock or a knight, but a lethal combination of both. Legend says Arcaners once had the power to summon dragons. If true, it could change

everything. Resurrecting the Arcaner path comes with consequences, however. Scandal. Malice. Treachery. And a harrowing test of character. He must survive. May '68 Julie Pagis, 2018 Much as in other locations around the world, civil

uprising, particularly rooted in the activism of young people and students, plagued France during May of 1968. Massive strikes and occupations succeeded in paralyzing France's economy and bringing the country to the verge of a leftist revolution. This book studies the life trajectories of many ordinary protestors during the period, using statistics and personal narratives to analyze how this activism arose, its impact on people's personal and professional lives, and its transmission through familial generations.

U.S. Marines in Afghanistan, 2001-2009 U S Marine Corps History Division, 2017-02-05 This volume presents a collection of 38 articles, interviews, and speeches describing many aspects of the U.S. Marine Corps' participation in Operation Enduring Freedom from 2001 to 2009. This work is intended to serve as a general overview and provisional reference to inform both Marines and the general public until the History Division completes monographs dealing with major Marine Corps operations during the campaign. The accompanying annotated bibliography provides a detailed look at selected sources that currently exist until new scholarship and archival materials become available. From the Preface - From the outset, some experts doubted that the U.S. Marines Corps would play a major role in Afghanistan given the landlocked nature of the battlefield. Naval expeditionary Task Force 58 (TF-58) commanded by then-Brigadier General James N. Mattis silenced naysayers with the farthest ranging amphibious assault in Marine Corps/Navy history. In late November 2001, Mattis' force seized what became Forward

Operating Base Rhino, Afghanistan, from naval shipping some 400 miles away. The historic assault not only blazed a path for follow-on forces, it also cut off fleeing al-Qaeda and Taliban elements and aided in the seizure of Kandahar. While Corps doctrine and culture advocates Marine employment as a fully integrated Marine air-ground task force (MAGTF), deployments to Afghanistan often reflected what former Commandant General Charles C. Krulak coined as the three-block war. Following TF-58's deployment during the initial take down of the Taliban regime, the MAGTF made few appearances in Afghanistan until 2008. Before then, subsequent Marine units often deployed as a single battalion under the command of the U.S. Army Combined Joint Task Force (CJTF) to provide security for provincial reconstruction teams. The Marine Corps also provided embedded training teams to train and mentor the fledgling Afghan National Army and Police. Aviation assets sporadically deployed to support the U.S.-led coalition mostly to conduct a specific mission or to bridge a gap in capability, such as close air support or electronic warfare to counter the improvised explosive device threat. From 2003 to late 2007, the national preoccupation with stabilizing Iraq focused most Marine Corps assets on stemming the insurgency, largely centered in the restive al-Anbar Province. As a result of the North Atlantic Treaty Organization (NATO) taking over command of Afghan operations and Marine Corps' commitments in Iraq, relatively few Marine units operated in Afghanistan from late 2006 to 2007. Although Marines first advocated shifting

resources from al-Anbar to southern Afghanistan in early 2007, the George W. Bush administration delayed the Marine proposal for fear of losing the gains made as a result of Army General David H. Petraeus' surge strategy in Iraq. By late 2007, the situation in Afghanistan had deteriorated to the point that it inspired Rolling Stone to later publish the story How We Lost the War We Won. In recognition of the shifting tides in both Iraq and Afghanistan, the Bush administration began to transfer additional resources to Afghanistan in early 2008. The shift prompted senior Marines to again push for a more prominent role in the Afghan campaign, even proposing to take over the Afghan mission from the Army. . . .

Global Political Ecology Richard Peet, Paul Robbins, Michael Watts, 2010-12-17
The world is caught in the mesh of a series of environmental crises. So far attempts at resolving the deep basis of these have been superficial and disorganized. Global Political Ecology links the political economy of global capitalism with the political ecology of a series of environmental disasters and failed attempts at environmental policies. This critical volume draws together contributions from twenty-five leading intellectuals in the field. It begins with an introductory chapter that introduces the readers to political ecology and summarizes the book's main findings. The following seven sections cover topics on the political ecology of war and the disaster state; fuelling capitalism: energy scarcity and abundance; global governance of health, bodies, and genomics; the contradictions of global food; capital's

marginal product: effluents, waste, and garbage; water as a commodity, a human right, and power; the functions and dysfunctions of the global green economy; political ecology of the global climate, and carbon emissions. This book contains accounts of the main currents of thought in each area that bring the topics completely up-to-date. The individual chapters contain a theoretical introduction linking in with the main themes of political ecology, as well as empirical information and case material. Global Political Ecology serves as a valuable reference for students interested in political ecology, environmental justice, and geography.

Data filtering, data compression and the impact of measurement selection on data reconciliation are also exhaustively explained. Data errors can cause big problems in any process plant or refinery. Here's a book that helps you detect, analyze, solve, and avoid the data acquisition problems that can rob plants of peak performance. This indispensable volume provides crucial insights into data reconciliation and gross error detection techniques that are essential for optimal process control and information systems. For industrial personnel and students, Data Reconciliation and Gross Error Detection is the ultimate reference.

The Path to War, U.S. Marine Corps Operations in Southeast Asia 1961 to 1965 George Rhodes Hofmann (Jr.), 2014 Overview: The 2008 National Defense Authorization Act authorized the Secretary of Defense to conduct a program to commemorate the 50th anniversary of the Vietnam War. A Path to War is the first in a series dedicated to the Marine Corps' involvement in Southeast Asia from the early 1960s until 1975. This commemorative publication covers the period from 1961 to 1965, a time when the Marine involvement in the region deepened from an advisory and supporting role to the amphibious landing near Da Nang in March 1965, which marked the first major commitment of U.S. ground forces to the war in Vietnam. Contains five color maps and numerous black and white photographs.

It describes who our nation's enemies are; how America became involved in the Global War on Terrorism; and how the Marine Corps struggled to acquire a major role in Operation Enduring Freedom, as well as the actions of Marines and sailors who helped prosecute the air and ground campaigns against Taliban and al-Qaeda forces."— Dr. Charles P. Neimeyer, Director of Marine Corps History
