Impact and Explosion M. Y. H. Bangash, 1993-07-15
Impact and Explosion: Structural Analysis and Design presents a comprehensive study of the structural dynamics of impact and explosion by providing a survey of types of aircraft, missiles, bombs, and detonators. Impact dynamics, including empirical models developed for different materials, water surfaces, and soil/rock mediums, is discussed. Other topics include load time history; explosion

dynamics related to material damage capabilities; dynamic finite elements with provisions for impact and explosions; a discussion of solution procedures, acceleration, and convergence criteria; methods for designing structures resistant to impact and explosions; and how damage results due to impact or explosions. Case histories, comparative studies, numerous examples, appendices, and extensive references reinforce information presented in this important book for engineers and researchers working in government and private industry laboratories concerned with blast or impact loading effects on structures. Small firms that deal with impact loading (e.g., automobile collisions) will also find this book valuable.

Upon a Trailing Edge Michael Joy, 2015-11-28 This is a story of aviation, risk and the heart of the pilot. Four out of five fatal aircraft accidents are due to human error; three out of five to pilot error. This book examines the technical aspects of these issues from the viewpoint of one of the UK's most experienced aviation cardiologists. It spans the end of the Second World War through teaching cardiology in aviation on behalf of the International Civil Aviation Organisation (ICAO) worldwide, via a history of powered flight, time in the cadet force, a flying scholarship on a Tiger Moth, training to be a doctor, later a cardiologist, and owning a series of aircraft. Michael Joy was appointed as cardiologist to the Civil Aviation Authority (CAA) in 1974 to assist the regulator in the development of standards of cardiological fitness. Error, risk and accident causation are introduced in the context of various fatal accidents. In this stimulating and highly informative autobiography, Michael looks back at his time with the ICAO and CAA, drafting cardiological standards for Europe and worldwide travel to spread the message, including the Khyber pass, an aircraft factory in the Indonesian jungle and the slave island of Goree in Senegal. Safety is no accident and history is its judge.

Suitcase of Dreams Tania Blanchard, 2018-10-23 From the bestselling author of *The Girl from Munich*, a sweeping, dramatic tale of love and identity, inspired by a true story. After enduring the horror of Nazi Germany and the chaos of postwar occupation, Lotte Drescher and her family arrive in Australia in 1956 full of hope for a new life. It's a land of opportunity, where Lotte and her husband Erich dream of giving their children the future they have always wanted.

After years of struggling to find their feet as New Australians, Erich turns his skill as a wood carver into a successful business and Lotte makes a career out of her lifelong passion, photography. The sacrifices they have made finally seem worth it until Erich's role in the trade union movement threatens to have him branded a communist and endanger their family. Then darker shadows of the past reach out to them from Germany, a world and a lifetime away. As the Vietnam War looms, an unexpected visitor forces Lotte to a turning point. Her decision will change her life forever . . . and will finally show her the true meaning of home. PRAISE FOR TANIA BLANCHARD
