Paint by Sticker Kids: Under the Sea Workman Publishing, 2017-05-16 Paint by Sticker is the most exciting new idea in activity books, both for grown-ups and kids. A compelling activity for crafters and artists, doodlers and colorers of all ages, each Paint by Sticker Kids book includes everything you need to create ten vibrant, full-color "paintings." The original images are rendered in low-poly, a computer graphics style using geometric polygon shapes to create a 3D effect. As in paint-by-number, each template is divided into spaces, each with a number that corresponds to a particular sticker. Find the sticker, peel it, and place it in the right space. Add the next, and the next, and the next—it's an activity that's utterly absorbing, both in the pleasure of peeling and sticking and the growing satisfaction of watching a "painting" come to life, emerging from a flat black-and-white illustration

to a dazzling image with color, body, and spirit. *Paint by Sticker Kids: Under the Sea* is a journey into the world beneath the waves. Kids will create a dolphin, a shark, an octopus, and other denizens of the watery world. The card stock pages are perforated so kids can remove them easily and display, or share, their finished works of art.

Paint by Sticker Kids: Dinosaurs Workman Publishing, 2020-07-21 *Paint by Sticker Kids* just gets stronger and stronger, with the last three titles—Unicorns & Magic, Halloween, and Christmas—on fire. With over 1.7 million copies in print, and with sales increasing every season, it is the phenomenal activity book series that marries the joy of paint by number and coloring with every kid's favorite thing—stickers. And now add dinosaurs—what could be better? Kids will have a blast “painting” an armored Ankylosaurus, and an agile Velociraptor, now known to have been covered in feathers. And don't forget about the king of them all: a ferocious T-Rex, which could eat 500 pounds of meat in one bite! New to the series, on the back of each image is a paragraph of lively text packed with facts about the dinosaur pictured, how it lived, and how to pronounce its name. Designed especially for children and their smaller hands, the *Paint by Sticker Kids* series offers a quiet, completely absorbing, no-mess activity that—bonus!—encourages kids to practice number recognition without them even thinking they're doing math. The way it works is simple: Find the numbered sticker, peel it, and place it in the right space. Add the next, and the next—and see the images come to life in the “low-poly” style that uses geometric shapes. The card-stock pages are perforated, allowing the artwork to be easily removed so kids can hang them up as decorations or proudly display them on the fridge. In other words, hours and hours of artistic fun with none of the hassle or cleanup!

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the

result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
