In *Get Your Life Back*, New York Times bestselling author John Eldredge provides a practical, simple, and refreshing guide to taking your life back. By practicing a few wonderfully simple practices—or what John calls “graces”—you can begin to recover your soul, disentangle from the tragedies of this broken world, and discover the restorative power of beauty. Ask yourself: Are you happy most of the time? Do you feel deeply loved? Are you excited about your future? How often do you feel lighthearted? After reading this book you will... Learn how to insert the One Minute Pause into your day Begin practicing “benevolent detachment” and truly let it all go Offer kindness toward yourself in the choices you make Drink in the simple beauty available to you every day Take realistic steps to unplug from technology overload These simple practices and others are ready for the taking. You don’t need to abandon your life to get it back. Begin restoring your life here and now. Your soul will thank you for it.

University and School Collaborations During a Pandemic Fernando M. Reimers, Francisco J. Marmolejo, 2022 Based on twenty case studies of universities worldwide, and on a survey administered to leaders in 101 universities, this open access book shows that, amidst the significant challenges caused by the COVID-19 pandemic, universities found ways to engage with schools to support them in sustaining educational opportunity. In doing so, they generated considerable innovation, which reinforced the integration of the research and outreach functions of the university. The evidence suggests that universities are indeed open systems, in interaction with their environment, able to discover changes that can influence them and to change in response to those changes. They are also able, in the success of their efforts to mitigate the educational impact of the pandemic, to create better futures, as the result of the innovations they can generate. This challenges the view of universities as ivory towers being isolated from the surrounding environment and detached from local problems. As they reached out to schools, universities not only generated clear and valuable innovations to sustain educational opportunity and to improve it, this process also contributed to transform internal university processes in ways that enhanced their own ability to deliver on the third mission of outreach

Viral Loads Lenore Manderson, Nancy J. Burke, Ayo Wahlberg, 2021-09-20 Drawing upon the empirical scholarship and research expertise of contributors from all settled continents and from diverse life settings and economies, *Viral Loads* illustrates how the COVID-19 pandemic, and responses to it, lay bare and load onto people’s lived realities in countries around the world. A crosscutting theme pertains to how social unevenness and gross economic disparities are shaping global and local responses to the pandemic, and illustrate the effects of both the virus and efforts to contain it in ways that amplify these inequalities. At the same time, the contributions highlight the nature of contemporary social life, including virtual communication, the nature of communities, neoliberalism and contemporary political economies, and the shifting nature of nation states and the role of government. Over half of the world’s population has been affected by restrictions of movement, with physical distancing requirements and self-isolation recommendations impacting profoundly on everyday life but also on the economy, resulting also, in turn, with dramatic shifts in the economy and in mass unemployment. By reflecting on how the pandemic has interrupted daily lives, state infrastructures and healthcare systems, the contributing authors in this volume mobilise anthropological theories and concepts to locate the pandemic in a highly connected and exceedingly unequal world. The book is ambitious in its scope – spanning the entire globe – and daring in its insistence that medical anthropology must be a part of the growing calls to build a new world.

Public Health Asia During Covid-19 Panhb Schneider VEERE, 2022-02-09 Every

nation in Asia has dealt with COVID-19 differently and with varying levels of success in the absence of clear and effective leadership from the WHO. As a result, the WHO's role in Asia as a global health organization is coming under increasing pressure. As its credibility is slowly being eroded by public displays of incompetence and negligence, it has also become an arena of contestation. Moreover, while the pandemic continues to undermine the future of global health governance as a whole, the highly interdependent economies in Asia have exposed the speed with which pandemics can spread, as intensive regional travel and business connections have caused every area in the region to be hit hard. The migrant labor necessary to sustain globalized economies has been strained and the security of international workers is now more precarious than ever, as millions have been left stranded, seen their entry blocked, or have limited access to health services. This volume provides an accessible framework for the understanding the effects of the COVID-19 pandemic in Asia, with a specific emphasis on global governance in health and labor.

The Civic Web Shakuntala Banaji, David Buckingham, 2013-10-11 An investigation of how governments, organizations, and groups use the Internet to promote civic and political engagement among young people. There has been widespread concern in contemporary Western societies about declining engagement in civic life; people are less inclined to vote, to join political parties, to campaign for social causes, or to trust political processes. Young people in particular are frequently described as alienated or apathetic. Some have looked optimistically to new media—and particularly the Internet—as a means of revitalizing civic life and democracy. Governments, political parties, charities, NGOs, activists, religious and ethnic groups, and grassroots organizations have created a range of youth-oriented websites that encourage widely divergent forms of civic engagement and use varying degrees of interactivity. But are young people really apathetic and lacking in motivation? Does the Internet have the power to re-engage those disenchanted with politics and civic life? Based on a major research project funded by the European Commission, this book attempts to understand the role of the Internet in promoting young people's participation. Examples are drawn from Hungary, the Netherlands, Slovenia, Spain, Sweden, Turkey, and the United Kingdom—countries offering contrasting political systems and cultural contexts. The book also addresses broader questions about the meaning of civic engagement, the nature of new forms of participation, and their implications for the future of civic life.

The African Film Industry UNESCO, 2021-10-01 The production and distribution of film and audiovisual works is one of the most dynamic growth sectors in the world. Thanks to digital technologies, production has been growing rapidly in Africa in recent years. For the first time, a complete mapping of the film and audiovisual industry in 54 States of the African continent is available, including quantitative and qualitative data and an analysis of their strengths and weaknesses at the continental and regional levels. The report proposes strategic recommendations for the development of the film and audiovisual sectors in Africa and invites policymakers, professional organizations, firms, filmmakers and artists to implement them in a concerted manner.

Innovation in Information Systems and Technologies to Support Learning Research Mohammed Serrhini, Carla Silva, Sultan Aljahdali, 2019-11-30 This book provides glimpses into contemporary research in information systems & technology, learning, artificial intelligence (AI), machine learning, and security and how it applies to the real world, but the ideas presented also span the domains of telehealth, computer vision, the role and use of mobile devices, brain-computer interfaces, virtual reality, language and image processing and big data analytics and applications. Great research arises from asking pertinent research questions. This book reveals some of the authors' "beautiful questions" and how they develop the subsequent "what if"

and “how” questions, offering readers food for thought and whetting their appetite for further research by the same authors.

Becoming the Math Teacher You Wish You'd Had Tracy Johnston

Zager, 2023-10-10 Ask mathematicians to describe mathematics and they'll use words like playful, beautiful, and creative. Pose the same question to students and many will use words like boring, useless, and even humiliating. *Becoming the Math Teacher You Wish You'd Had*, author Tracy Zager helps teachers close this gap by making math class more like mathematics. Zager has spent years working with highly skilled math teachers in a diverse range of settings and grades and has compiled those ideas from these vibrant classrooms into this game-changing book. Inside you'll find: 'How to Teach Student-Centered Mathematics:' Zager outlines a problem-solving approach to mathematics for elementary and middle school educators looking for new ways to inspire student learning Big Ideas, Practical Application:' This math book contains dozens of practical and accessible teaching techniques that focus on fundamental math concepts, including strategies that simulate connection of big ideas; rich tasks that encourage students to wonder, generalize, hypothesize, and persevere; and routines to teach students how to collaborate Key Topics for Elementary and Middle School Teachers:' *Becoming the Math Teacher You Wish You'd Had* offers fresh perspectives on common challenges, from formative assessment to classroom management for elementary and middle school teachers No matter what level of math class you teach, Zager will coach you along chapter by chapter. All teachers can move towards increasingly authentic and delightful mathematics teaching and learning. This important book helps develop instructional techniques that will make the math classes we teach so much better than the math classes we took.

Confessions of an Economic Hit Man John Perkins, 2004-11-09

Perkins, a former chief economist at a Boston strategic-consulting firm, confesses he was an economic hit man for 10 years, helping U.S. intelligence agencies and multinationals cajole and blackmail foreign leaders into serving U.S. foreign policy and awarding lucrative contracts to American business.

After Capitalism David Schweickart, 2011-08-16

Since first published in 2002, *After Capitalism* has offered students and political activists alike a coherent vision of a viable and desirable alternative to capitalism. David Schweickart calls this system Economic Democracy, a successor-system to capitalism which preserves the efficiency strengths of a market economy while extending democracy to the workplace and to the structures of investment finance. In the second edition, Schweickart recognizes that increased globalization of companies has created greater than ever interdependent economies and the debate about the desirability of entrepreneurship is escalating. The new edition includes a new preface, completely updated data, reorganized chapters, and new sections on the economic instability of capitalism, the current economic crisis, and China. Drawing on both theoretical and empirical research, Schweickart shows how and why this model is efficient, dynamic, and applicable in the world today.

The Fight Against Platform Capitalism Jamie Woodcock, 2021-03-02

So far, platform work has been an important laboratory for capital. Management techniques, like the use of algorithms, are being tested with a view to exporting across the global economy and it is argued that automation is undermining workers' agency. Although the contractual trick of self-employment has allowed platforms to grow quickly and keep their costs down, yet it has also been the case also that workers have also found they can strike without following the existing regulations. This book develops a critique of platforms and platform capitalism from the perspective of workers and contributes to the ongoing debates about the future of work and worker organising. It presents an alternative portrait returning to a focus on workers' experience, focusing on solidarity, drawing out a global picture of new forms of agency. In particular, the book focuses on three dynamics that are driving struggles in the platform economy: the increasing connections

between workers who are no longer isolated; the lack of communication and negotiation from platforms, leading to escalating worker action around shared issues; and the internationalisation of platforms, which has laid the basis for new transnational solidarity. Focusing on transport and courier workers, online workers and freelancers author Jamie Woodcock concludes by considering how workers build power in different situations. Rather than undermining worker agency, platforms have instead provided the technical basis for the emergence of new global struggles against capitalism.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Introduction to Genetic Algorithms S.N. Sivanandam, S. N. Deepa, 2007-10-24

This book offers a basic introduction to genetic algorithms. It provides a detailed explanation of genetic algorithm concepts and examines numerous genetic algorithm optimization problems. In addition, the book presents implementation of optimization problems using C and C++ as well as simulated solutions for genetic algorithm problems using MATLAB 7.0. It also includes application case studies on genetic algorithms in emerging fields.

Human Capital Gary S. Becker, 2009 A diverse array of factors may influence both earnings and consumption; however, this work primarily focuses on the impact of investments in human capital upon an individual's potential earnings and psychic income. For this study, investments in human capital include such factors as educational level, on-the-job skills training, health care, migration, and consideration of issues regarding regional prices and income. Taking into account varying cultures and political regimes, the research indicates that economic earnings tend to be positively correlated to education and skill level. Additionally, studies indicate an inverse correlation between education and unemployment. Presents a theoretical overview of the types of human capital and the impact of investment in human capital on earnings and rates of return. Then utilizes empirical data and

research to analyze the theoretical issues related to investment in human capital, specifically formal education. Considered are such issues as costs and returns of investments, and social and private gains of individuals. The research compares and contrasts these factors based upon both education and skill level. Areas of future research are identified, including further analysis of issues regarding social gains and differing levels of success across different regions and countries. (AKP).
