Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

The Order of the Stick Rich Burlew,2007 These volumes are print compilations of of the popular online comic The Order of the Stick! plus pages of never-before-seen bonus stories and material. Taking place in a magical world that loosely operates by the rules of 3.5 edition Dungeons and Dragons, the comic follows the sometimes farcical exploits of six adventurers as they strive to save the world from an evil lich. Much of the comic's humor stems from these characters either being aware of the game rules that affect their lives or having anachronistic knowledge of modern culture, which in turn is often used by the author to parody various aspects of role-playing games and fantasy fiction.
