Rebel Skies Ann Sei Lin,2024-02-13 Ann Sei Lin's enchanting and action-packed debut, first in a series, will sweep readers away to an aerial world of magic, danger and political intrigue. Perfect for fans of Elizabeth Lim, Kalynn Bayron and the films of Studio Ghibli. Kurara has never known any other life than being a servant onboard the Midori, a flying ship serving the military elite of the Mikoshiman Empire, a vast realm of floating cities. Kurara also has a secret — she can make folded paper figures come to life with a flick of her finger. But when the Midori is attacked and Kurara's secret turns out to be a power treasured across the empire, a gut-wrenching escape leads her to the gruff Himura, who takes her under his wing. Under Himura's tutelage, and with the grudging support and friendship of his crew, Kurara learns to hunt shikigami — wild paper spirits sought after by the Princess of Mikoshima. But what does the princess really want with the shikigami? Are they merely enchanted figures without will or thought, or are they beings with souls and minds of their own? As fractures begin to appear both across the empire and within Kurara's understanding of herself, Kurara will have to decide who she can trust. Her fate, and the fate of her friends — and even the world — may rest on her choice. And time is running out.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
