**Marketing Tourist Destinations in Emerging Economies** Ishmael Mensah,Kandappan Balasubramanian,Mohd Raziff Jamaluddin,Gina Alcoriza,Vanessa Gaffar,S. Mostafa Rasoolimanesh,2021-11-27 While tourism is a key economic generator for many countries, emerging economies are confronted with additional challenges that those well-established destinations in North America, Australia and Europe normally don't have to contend with. The potential for terrorism, political unrest, natural disasters, accidents – not to mention epidemics – have the potential to derail tourism in emerging economies. To mitigate these risks, emerging destinations need well-coordinated management and marketing strategies. However, most texts on tourism destination marketing reflect destinations in more advanced countries. This book acknowledges the fact that emerging tourist destinations have unique characteristics and challenges, which have implications for destination marketing. Highlighting the marketing challenges, best practices and strategies relevant to emerging economies, this book covers core topics such as image creation and branding, destination marketing during crises and pandemics, market segmentation and the travel decision making process among others. Providing up to date knowledge on an otherwise under-explored topic, this collection is ideal reading for upper-level students, researchers and policymakers.

**Being Young and Muslim** Linda Herrera,Asef Bayat,2010-08-16 This is an excellent collection of essays on youth in a number of Muslim majority (and minority) societies in the context of globalization and modernity. A particular strength of this volume is its ability to highlight the multiple and contested roles of religion and personal faith in the fashioning of contemporary youthful Muslim identities. Such insights often challenge secular Western master narratives of modernity and suggest credible reconceptualizations of what it means to be young and modern in a broad swath of the world today. -- Asma Afsaruddin, Professor of Islamic Studies, Indiana University In recent years, there has been a proliferation of interest in youth issues and Muslim youth in particular. Young Muslims have been thrust into the global spotlight in relation to questions about security and extremism, work and migration, and rights and citizenship. This book interrogates the cultures and politics of Muslim youth in the global South and North to understand their trajectories, conditions, and choices. Drawing on wide-ranging research from Indonesia to Iran and Germany to the U.S., it shows that while the majority of young Muslims share many common social, political, and economic challenges, they exhibit remarkably diverse responses to them. Far from being exceptional, young Muslims often have as much in common with their non-Muslim global generational counterparts as they share among themselves. As they migrate, forge networks, innovate in the arts, master the tools of new media, and assert themselves in the public sphere, Muslim youth have emerged as important cultural and political actors on a world stage.

*Fire, the Australian Experience* ,200? Fire on Earth in the form of volcanic activity pre-existed vegetation. It

has most likely affected the environment since the first vegetation appeared. Lightning, volcanic eruptions and maybe even sparks from rock falls would have served as ignition sources from the earliest times. Later, spontaneous ignition could have occurred in peat and coal deposits. ... Most fires today are caused by people, either deliberately or accidentally. However, many of these fires are quite small. The largest fires which burn the widest areas are started by lightning, but the most devastating fires are caused by people. The influence of both climate and fire on the evolving vegetation can be traced by looking at the palaeoecological evidence collected at a range of sites across Australia.--The website.

**Handbook of Regional and Urban Economics** V. Henderson, J.F. Thisse, 2004-07-21 The new Handbook of Regional and Urban Economics: Cities and Geography reviews, synthesizes and extends the key developments in urban and regional economics and their strong connection to other recent developments in modern economics. Of particular interest is the development of the new economic geography and its incorporation along with innovations in industrial organization, endogenous growth, network theory and applied econometrics into urban and regional economics. The chapters cover theoretical developments concerning the forces of agglomeration, the nature of neighborhoods and human capital externalities, the foundations of systems of cities, the development of local political institutions, regional agglomerations and regional growth. Such massive progress in understanding the theory behind urban and regional phenomenon is consistent with on-going progress in the field since the late 1960's. What is unprecedented are the developments on the empirical side: the development of a wide body of knowledge concerning the nature of urban externalities, city size distributions, urban sprawl, urban and regional trade, and regional convergence, as well as a body of knowledge on specific regions of the world—Europe, Asia and North America, both current and historical. The Handbook is a key reference piece for anyone wishing to understand the developments in the field.

Global Outlaws Carolyn Nordstrom, 2007 A deeply insightful book that connects the dots of the hidden systems that have subverted democracy and caused the type of desperation and anger that result in a 9/11. A book that opens our awareness.--John Perkins, author of The New York Times bestseller Confessions Of An Economic Hit Man Anyone interested in global economic crime should read this book.--Charmian Gooch, a founding director of Global Witness Global Outlaws is a revealing book about a global trend whose importance is still far from being fully recognized.--Moises Naim, Editor in Chief of Foreign Policy Magazine and author of Illicit: How Smugglers Traffickers and Copycats are Hijacking the Global Economy Carolyn Nordstrom's important new book takes us on a dark journey through war-torn landscapes riddled with corruption, violence, and gross inequalities. It is a compelling study--one guided by the norms of scholarly research but also written out of deeply felt experience. A

book infused by anger, compassion, but also hope.--Andrew Mack, University of British Columbia This is a fascinating, insightful, and important ethnographic study of the intersection of crime, finance, and power in the illegal, 'informal', or underground economy. I have read all of Carolyn Nordstrom's books, and this is the best one yet.--Jeff Sluka, Massey University Carolyn Nordstrom's *Global Outlaws* is a rare and remarkable fusion of economic anthropology and travel writing. The prose is highly engaging without being sensationalistic. This is a timely and fascinating read for anyone looking for an on-the-ground account of the clandestine underside of globalization.--Peter Andreas, co-author of *Policing the Globe: Criminalization and Crime Control in International Relations* Carolyn Nordstrom is the best fieldworker in anthropology, bar none. Yet again she has pioneered new fieldsites and new forms of ethnography in this book, as well as presented a new framework for viewing economics and economic power. This is undoubtedly a highly important work that sets new frontiers for anthropology.--Monique Skidmore, Australian National University

**The Paradox of Love** Pascal Bruckner, 2012-02-13 Drawing on history, politics, psychology and pop culture, the author traces the roots of sexual liberation to explain love's supreme paradox, and concludes that love's messiness, surprises and paradoxes are not merely the sources of its pain--but also of its pleasure.

*The Architect as Worker* Peggy Deamer, 2015-07-30 Directly confronting the nature of contemporary architectural work, this book is the first to address a void at the heart of architectural discourse and thinking. For too long, architects have avoided questioning how the central aspects of architectural "practice" (professionalism, profit, technology, design, craft, and building) combine to characterize the work performed in the architectural office. Nor has there been a deeper evaluation of the unspoken and historically-determined myths that assign cultural, symbolic, and economic value to architectural labor. *The Architect as Worker* presents a range of essays exploring the issues central to architectural labor. These include questions about the nature of design work; immaterial and creative labor and how it gets categorized, spatialized, and monetized within architecture; the connection between parametrics and BIM and labor; theories of architectural work; architectural design as a cultural and economic condition; entrepreneurialism; and the possibility of ethical and rewarding architectural practice. The book is a call-to-arms, and its ultimate goal is to change the practice of architecture. It will strike a chord with architects, who will recognize the struggle of their profession; with students trying to understand the connections between work, value, and creative pleasure; and with academics and cultural theorists seeking to understand what grounds the discipline.

**Modern Noise, Fluid Genres** Jeremy Wallach, 2008-12-15 What happens to “local” sound when globalization exposes musicians and audiences to cultural influences from around the world? Jeremy Wallach explores this question as it plays out in the eclectic, evolving world of Indonesian music after the fall of the repressive Soeharto regime. Against the backdrop of Indonesia’s chaotic and momentous transition to democracy, Wallach takes us to recording studios, music stores, concert venues, university campuses, video shoots, and urban neighborhoods. Integrating ground-level ethnographic research with insights drawn from contemporary cultural theory, he shows that access to globally circulating music and technologies has neither extinguished nor homogenized local music-making in Indonesia. Instead, it has provided young Indonesians with creative possibilities for exploring their identity in a diverse nation undergoing dramatic changes in an increasingly interconnected world. Ultimately, he finds, the unofficial, multicultural nationalism of Indonesian popular music provides a viable alternative to the religious, ethnic, regional, and class-based extremism that continues to threaten unity and democracy in that country.

**Women, Islam and Everyday Life** Nina Nurmila, 2009-06-10 This book examines Islam and women’s everyday life, focusing in particular on the highly controversial issue of polygamy. It discusses the competing interpretations of the Qur’anic verses that are at the heart of Muslim controversies over polygamy, with some groups believing that Islam enshrines polygamy as a male right, others seeing it as permitted but discouraged in favour of monogamy, and other groups arguing that Islam implicitly prohibits polygamy. Based on detailed fieldwork conducted in Indonesia, it provides an empirically-based account of women’s lived experiences in polygamous marriages, describing the different perceptions of the practice and strategies in dealing with it. It also considers the impact of changing public policy, in particular Indonesia’s 1974 Marriage Law which restricted the practice of polygamy. It shows that, in fact, this law has not resulted in widespread adherence, and considers how public policy could be modified to increase its effectiveness in affecting behaviour in everyday life. Overall, the book argues that polygamy has been a source of injustice towards women and children, that this is against Islamic teaching, and that a just Islamic law would need to call for the abolition of polygamy.

**Karukku Pāmā**, 2014 In 1992 when a Dalit woman left the convent and wrote her autobiography, the Tamil publishing industry found her language unacceptable. So Bama Faustina published her milestone work *Karukku* privately in 1992—a passionate and important mix of history, sociology, and the strength to remember. *Karukku* broke barriers of tradition in more ways than one. The first autobiography by a Dalit woman writer and a classic of subaltern writing, it is a bold and poignant tale of life outside mainstream Indian thought and function. Revolving around the main theme of caste oppression within the Catholic Church, it portrays the tension between the self and the community, and presents Bama's life as a process of self-reflection and recovery from social and institutional betrayal. The English translation, first published in 2000 and recognized as a new alphabet of experience, pushed Dalit writing into high relief. This second edition includes a Postscript in which Bama relives the dramatic movement of her leave-taking from her chosen vocation and a special note Ten Years Later.

**Indonesian Islam in a New Era** Susan Blackburn,Bianca J. Smith,Siti Syamsiyatun,2008 Indonesian Islam in a new era examines the religious practices and identities of Indonesian Muslim women in the post-Suharto era. After 1998 Indonesian Islam changed socially and nationally as society underwent sweeping alterations. Based on new empirical research by sociologists, political scientists, and anthropologists from Indonesia and Australia, the book underscores the negotiations Muslim women have made in arenas such as schools, organisations, popular culture and village life. Whereas theology has until recently dominated studies of women and Islam in Indonesia, this book breaks new ground by examining from social science perspectives how Indonesian women negotiate their Muslim identities.
