Katharine Buljan,Carole M. Cusack

Freak the Mighty Rodman Philbrick,2015-04-01 Max is used to being called Stupid. And he is used to everyone being scared of him. On account of his size and looking like his dad. Kevin is used to being called Dwarf. And he is used to everyone laughing at him. On account of his size and being some cripple kid. But greatness comes in all sizes, and together Max and Kevin become Freak The Mighty and walk high above the world. An inspiring, heartbreaking, multi-award winning international bestseller.

Sword Art Online 10 (light novel) Reki Kawahara,2017-07-25 Two years after waking up in a mysterious fantasy world, Kirito and his oddly human NPC friend, Eugeo, continue their quest to become Integrity Knights--and find Alice, who disappeared so long ago and yet has somehow lingered in the back of Kirito's mind. Their journey takes them to the Imperial Swordcraft Academy, where they must train to become two of the top twelve seats in the class to have even a hope of seeing Alice again. Meanwhile, as Asuna desperately searches for Kazuto Kirigaya, she stumbles across the deeper secret of his new world...

Anime, Religion and Spirituality Katharine Buljan,Carole M. Cusack,2015 Barely a century has passed since anime (Japanese animation) was first screened to a Western audience. Over time the number of anime genres and generic hybrids have significantly grown. These have been influenced and inspired by various historical and cultural phenomena, one of which - Japanese native religion and spirituality - this book argues is important and dominant. There have always been anime lovers in the West, but today that number is growing exponentially. This is intriguing as many Japanese anime directors and studios initially created works that were not aimed at a Western audience at all. The mutual imbrication of the profane and sacred worlds in anime, along with the profound reciprocal relationship between 'Eastern' (Japanese) and 'Western' (chiefly American) culture in the development of the anime artistic form, form the twin narrative arcs of the book. One of the most significant contributions of this book is the analysis of the employment of spiritual and religious motifs by directors. The reception of this content by fans is also examined. The appeal of anime to aficionados is, broadly speaking, the appeal of the spiritual in a post-religious world, in which personal identity and meaning in life may be crafted from popular cultural texts which offer an immersive and enchanting experience that, for many in the modern world, is more thrilling and authentic than 'real life'. In the past, religions posited that after human existence on earth had ceased, the individual soul would be reincarnated again, or perhaps reside in heaven. In the early twenty-first century, spiritual seekers still desire a life beyond that of everyday reality, and just as passionately believe in the existence of other worlds and the afterlife. However, the other worlds are the fantasy landscapes and outer space settings of anime (and other popular cultural forms), and the afterlife the digital circuitry and electronic impulses of the Internet. These important new understandings of religion and the spiritual underpin anime's status as a major site of new religious and spiritual inspiration in the West, and indeed, the world.

High School DxD, Vol. 11,2018-11-13 The fateful rating game has finally begun! Rias and her team may be hot stuff, but they find themselves struggling against Team Sohna and its members, who are putting their very lives on the line! When things look desperate, Issei's strongest-ever technique explodes forth! And it's coming for Team Sohna's...boobs?!

Inherit the Wind Jerome Lawrence,Robert E. Lee,2003-11-04 A classic work of American theatre, based on the Scopes Monkey Trial of 1925, which pitted Clarence Darrow against William Jennings Bryan in defense of a schoolteacher accused of teaching the theory of evolution The accused was a slight, frightened man who had deliberately broken the law. His trial was a Roman circus. The chief gladiators were two great legal giants of the century. Like two bull elephants locked in mortal combat, they bellowed and roared imprecations and abuse. The spectators sat uneasily in the sweltering heat with murder in their hearts, barely able to restrain themselves. At stake was the freedom of every American. One of the most moving and meaningful plays of our generation. Praise for *Inherit the Wind* A tidal wave of a drama.—New York World-Telegram And Sun “Jerome Lawrence and Robert E. Lee were classic Broadway scribes who knew how to crank out serious plays for thinking Americans. . . . *Inherit the Wind* is a perpetually prescient courtroom battle over the legality of teaching evolution. . . . We’re still arguing this case—all the way to the White House.”—Chicago Tribune “Powerful . . . a crackling good courtroom play . . . [that] provides two of the juiciest roles in American theater.”—Copley News Service “[This] historical drama . . . deserves respect.”—The Columbus Dispatch

Microbe Hunters Paul De Kruif,1926 First published in 1927.

The Invention of Religion in Japan Jason Ānanda Josephson,Jason Ananda Josephson Storm,2012-10-03 Throughout its long history, Japan had no concept of what we call “religion.” There was no corresponding Japanese word, nor anything close to its meaning. But when American warships appeared off the coast of Japan in 1853 and forced the Japanese government to sign treaties demanding, among other things, freedom of religion, the country had to contend with this Western idea. In this book, Jason Ananda Josephson reveals how Japanese officials invented religion in Japan and traces the sweeping intellectual, legal, and cultural changes that followed. More than a tale of oppression or hegemony, Josephson’s account demonstrates that the process of articulating religion offered the Japanese state a valuable opportunity. In addition to carving out space for belief in Christianity and certain forms of Buddhism, Japanese officials excluded Shinto from the category. Instead, they enshrined it as a national ideology while relegating the popular practices of indigenous shamans and female mediums to the category of “superstitions”—and thus beyond the sphere of tolerance. Josephson argues that the invention of religion in Japan was a politically charged, boundary-drawing exercise that not only extensively reclassified the inherited materials of Buddhism, Confucianism, and Shinto to lasting effect, but also reshaped, in subtle but significant ways, our own formulation of the concept of religion today. This ambitious and wide-ranging book contributes an important perspective to broader debates on the nature of religion, the secular, science, and superstition.

Tales of King Arthur and the Round Table ,1916

Behold a Pale Horse William Cooper,2012-04-11 Bill Cooper, former United States Naval Intelligence Briefing Team member, reveals information that remains hidden from the public eye. This information has been kept in Top Secret government files since the 1940s. His audiences hear the truth unfold as he writes about the assassination of John F. Kennedy, the war on drugs, the Secret Government and UFOs. Bill is a lucid, rational and powerful speaker who intent is to inform and to empower his audience. Standing room only is normal. His presentation and information transcend partisan affiliations as he clearly addresses issues in a way that has a striking impact on listeners of all backgrounds and interests. He has spoken to many groups throughout the United States and has appeared regularly on many radio talk shows and on television. In 1988 Bill decided to talk due to events then taking place worldwide, events which he had seen plans for back in the early '70s. Since Bill has been talking, he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing Team and from over 17 years of thorough research. Bill Cooper is the world's leading expert on UFOs. -- Billy Goodman, KVEG, Las Vegas. The onlt man in America who has all the pieces to the puzzle that has troubled so many for so long. -- Anthony Hilder, Radio Free America William Cooper may be one of America's greatest heros, and this story may be the biggest story in the history of the world. --

Mills Crenshaw, KTALK, Salt Lake City. Like it or not, everything is changing. The result will be the most wonderful experience in the history of man or the most horrible enslavement that you can imagine. Be active or abdicate, the future is in your hands. -- William Cooper, October 24, 1989.

Engineering DevOps Marc Hornbeek,2019-12-06 This book is an engineering reference manual that explains How to do DevOps?. It is targeted to people and organizations that are doing DevOps but not satisfied with the results that they are getting. There are plenty of books that describe different aspects of DevOps and customer user stories, but up until now there has not been a book that frames DevOps as an engineering problem with a step-by-step engineering solution and a clear list of recommended engineering practices to guide implementors. The step-by-step engineering prescriptions can be followed by leaders and practitioners to understand, assess, define, implement, operationalize, and evolve DevOps for their organization. The book provides a unique collection of engineering practices and solutions for DevOps. By confining the scope of the content of the book to the level of engineering practices, the content is applicable to the widest possible range of implementations. This book was born out of the author's desire to help others do DevOps, combined with a burning personal frustration. The frustration comes from hearing leaders and practitioners say, We think we are doing DevOps, but we are not getting the business results we had expected. Engineering DevOps describes a strategic approach, applies engineering implementation discipline, and focuses operational expertise to define and accomplish specific goals for each leg of an organization's unique DevOps journey. This book guides the reader through a journey from defining an engineering strategy for DevOps to implementing The Three Ways of DevOps maturity using engineering practices: The First Way (called Continuous Flow) to The Second Way (called Continuous Feedback) and finally The Third Way (called Continuous Improvement). This book is intended to be a guide that will continue to be relevant over time as your specific DevOps and DevOps more generally evolves.

The Alchemyst Michael Scott,2007-05-22 Nicholas Flamel appeared in J.K. Rowling's Harry Potter—but did you know he really lived? And his secrets aren't safe! Discover the truth in book one of the New York Times bestselling series the Secrets of the Immortal Nicholas Flamel. The truth: Nicholas Flamel's tomb is empty. The legend: Nicholas Flamel lives. Nicholas Flamel is the greatest Alchemyst to ever live. The records show that he died in 1418, but what if he's actually been making the elixir of life for centuries? The secrets to eternal life are hidden within the book he protects—the Book of Abraham the Mage. It's the most powerful book that has ever existed, and in the wrong hands, it will destroy the world. And that's exactly what Dr. John Dee plans to do when he steals it. There is one hope. If the prophecy is true, Sophie and Josh Newman have the power to save everyone. Now they just have to learn to use it. “The Secrets of the Immortal Nicholas Flamel has everything you loved about Harry Potter, including magic, mystery, and a constant battle of good versus evil.”—Bustle Read the whole series! The Alchemyst The Magician The Sorceress The Necromancer The Warlock The Enchantress

Le Morte Darthur Sir Thomas Malory,1903

As You Wish Cary Elwes,Joe Layden,2014-10-14 In a 25th anniversary, behind-the-scenes account of the making of the cult-classic film, the lead actor shares never-before-told stories and exclusive photographs as well as interviews with Robin Wright, Billy Crystal and more. 100,000 first printing.

Our Island Story H. E. Marshall,2013-02-20 Our Island Story is the history of England up to Queen Victoria's Death. Marshall used these stories to tell her children about their homeland, Great Britain. To add to the excitement, she mixed in a bit of myth as well as a few legends.

In the Court of King Arthur Samuel E. Lowe,2023-09-11 Together and well they fought. Easily did they withstand the men of King Ryence. Four men were slain by their might, through wondrous and fearful strokes, and four were sorely wounded. There lay the four against an oaken tree where they had been placed in a moment's lull. But two knights were left to oppose Launcelot and Gawaine but these two were gallant men and worthy, the very best of all the ten....FROM THE BOOKS.

The Cursed Existence Amal Elhshik,

U.S. Marines in Afghanistan, 2001-2009 U S Marine Corps History Division,2017-02-05 This volume presents a collection of 38 articles, interviews, and speeches describing many aspects of the U.S. Marine Corps' participation in Operation Enduring Freedom from 2001 to 2009. This work is intended to serve as a general overview and provisional reference to inform both Marines and the general public until the History Division completes monographs dealing with major Marine Corps operations during the campaign. The accompanying annotated bibliography provides a detailed look at selected sources that currently exist until new scholarship and archival materials become available. From the Preface - From the outset, some experts doubted that the U.S. Marines Corps would play a major role in Afghanistan given the landlocked nature of the battlefield. Naval expeditionary Task Force 58 (TF-58) commanded by then-Brigadier General James N. Mattis silenced naysayers with the farthest ranging amphibious assault in Marine Corps/Navy history. In late November 2001, Mattis' force seized what became Forward Operating Base Rhino, Afghanistan, from naval shipping some 400 miles away. The historic assault not only blazed a path for follow-on forces, it also cut off fleeing al-Qaeda and Taliban elements and aided in the seizure of Kandahar. While Corps doctrine and culture advocates Marine employment as a fully integrated Marine air-ground task force (MAGTF), deployments to Afghanistan often reflected what former Commandant General Charles C. Krulak coined as the three-block war. Following TF-58's deployment during the initial take down of the Taliban regime, the MAGTF made few appearances in Afghanistan until 2008. Before then, subsequent Marine units often deployed as a single battalion under the command of the U.S. Army Combined Joint Task Force (CJTF) to provide security for provincial reconstruction teams. The Marine Corps also provided embedded training teams to train and mentor the fledgling Afghan National Army and Police. Aviation assets sporadically deployed to support the U.S.-led coalition mostly to conduct a specific mission or to bridge a gap in capability, such as close air support or electronic warfare to counter the improvised explosive device threat. From 2003 to late 2007, the national preoccupation with stabilizing Iraq focused most Marine Corps assets on stemming the insurgency, largely centered in the restive al-Anbar Province. As a result of the North Atlantic Treaty Organization (NATO) taking over command of Afghan operations and Marine Corps' commitments in Iraq, relatively few Marine units operated in Afghanistan from late 2006 to 2007. Although Marines first advocated shifting resources from al-Anbar to southern Afghanistan in early 2007, the George W. Bush administration delayed the Marine proposal for fear of losing the gains made as a result of Army General David H. Petraeus' surge strategy in Iraq. By late 2007, the situation in Afghanistan had deteriorated to the point that it inspired Rolling Stone to later publish the story How We Lost the War We Won. In recognition of the shifting tides in both Iraq and Afghanistan, the Bush administration began to transfer additional resources to Afghanistan in early 2008. The shift prompted senior Marines to again push for a more prominent role in the Afghan campaign, even proposing to take over the Afghan mission from the Army. . . .

Crossing the Rubicon Michael C. Ruppert,2004-09-15 The acclaimed investigative reporter and author of Confronting Collapse examines the global forces that led to 9/11 in this provocative exposé. The attacks of September 11, 2001 were accomplished through an amazing orchestration of logistics and personnel. Crossing the Rubicon examines how such a conspiracy was possible through an interdisciplinary analysis of petroleum, geopolitics, narco-traffic, intelligence and militarism—without which 9/11 cannot be understood. In reality, 9/11 and the resulting War on Terror are parts of a massive authoritarian response to an emerging economic crisis of unprecedented scale. Peak Oil—the beginning of the end for our industrial civilization—is driving the elites of American power to implement unthinkable draconian measures of repression, warfare and population control. Crossing the Rubicon is more than a story of corruption and greed. It is a map of the perilous terrain through which we are all now making our way.

Tales from the Pit David G. Schwartz,2016 Dealing in a casino presents challenges and rewards not seen in many workplaces. With hundreds of thousands

of dollars at stake every minute, table games pits are high-stress workplaces. Managing a workforce of dealers and attending to the needs of players brings stresses of its own. In 2015, the University of Nevada, Las Vegas's Center for Gaming Research received a grant from the UNLV University Libraries Advisory Board that enabled it to undertake an oral history project intended to capture the stories of table games managers, including both those currently working in the field and those who have retired. Drawn from these interviews, Tales from the Pit provides an overview of how the interviewees felt about a variety of topics, ranging from their experiences breaking in as new dealers to their transitions to management and the changes the industry has seen over their careers. The current and former managers speak candidly about the owners, bosses, dealers, and players who made each day challenging. This book illuminates the past several decades of casino history through the words of those who lived and made it.
