Howard, 2021-08-31 The Phoenix on the Sword Robert Ervin Howard - The Phoenix on the Sword is one of Howards original short stories about Conan the Cimmerian. First published in Weird Tales in December 1932, this epic tale, in which Conan debuts. Originally a rewrite of the unpublished Kull story, By This Axe I Rule! which had been rejected, Howard recreated the story and its hero.

The Phoenix on the Sword Illustrated Robert Ervin Howard, 2021-03-03 The Phoenix on the Sword begins with a middle-aged Conan of Cimmeria attempting to govern the turbulent kingdom of Aquilonia. Conan has recently seized the bloody crown of Aquilonia from King Numedides whom he strangled upon his throne; however, things have not gone well, as Conan is more suited to swinging a broadsword than to signing official documents with a stylus. The people of Aquilonia, who originally welcomed Conan as their liberator from Numedides' tyranny, have gradually turned against him due to his foreign Cimmerian blood. They have built a statue to Numedides' memory in the temple of Mitra, and people burn incense before it, hailing it as the holy effigy of a saintly monarch who was done to death by a red-handed barbarian.

The Phoenix on the Sword: Large Print by Robert E. Howard
The sun was setting, etching the green and hazy blue of the forest in brief gold. The waning beams glinted on the thick golden chain which Dion of Attalus twisted continually in his pudgy hand as he sat in the flaming riot of blossoms and flower-trees which was his garden. He shifted his fat body on his marble seat and glanced furtively about, as if in quest of a lurking enemy. He sat within a circular grove of slender trees, whose interlapping branches cast a thick shade over him. Near at hand a fountain tinkled silverly, and other unseen fountains in various parts of the great garden whispered an everlasting symphony. Dion was alone except for the great dusky figure which lounged on a marble bench close at hand, watching the baron with deep somber eyes. Dion gave little thought to Thoth-amon. He vaguely knew that he was a slave in whom Ascalante reposed much trust, but like so many rich men, Dion paid scant heed to men below his own station i

The Sleeping Phoenix Patrick J. O'Brian, 2006-07
One year after his hometown of Muncie, Indiana is invaded by terrorists bent on revenge, Sergeant Tim Packard takes a personal day to chaperone his daughter at a theme park. When a park guest dies right before his eyes, everyone thinks a tragic accident has occurred, but Packard knows better.

His presence is the catalyst of an evil plan. A terrorist known as Chung-Hee Kim orders Packard to call his officers to the park under the threat of hundreds more dying. He calls Clay Branson, knowing his best officer's special training may be the only hope for the thousands of unsuspecting guests inside the park. Monitored by the terrorists, and under orders to go where they are told, the officers find the task of locating their new enemies nearly impossible. Packard learns the terrorist cell may have employees working inside the park, meaning he cannot trust anyone except his own men. A mysterious FBI agent tracks Branson to the park, adding yet another complication to Packard's investigation. Unable to escape watchful eyes, Packard must trust his officers to help him discover the truth before thousands of innocent people die.

The Paper Sword Robert Priest, 2016-12-29 After shaking hands with a man with a red hand, Xemion and Saheni must flee their forest home and cross dangerous lands haunted by creatures caught in the forces of conflicting spells, while being pursued by a traitorous Examiner. The Junks and Sampans of the Yangtze: The craft of the Lower and Middle Yangtze and tributaries G. R. G. Worcester, 1948 In the prefatory note to Mr. Worcester's earlier book--Junks and Sampans of the Upper Yangtze--Sir Frederick Maze, former Inspector General of Customs, pointed out that the Chinese have probably shown more originality than any other people in connection with shipbuilding, and

commented on their ingenuity in designing vessels to suit special requirements and different conditions. Mr. Worcester's present book, which deals with the craft of the Yangtze Estuary, provides further striking evidence of the high degree of specialization in design and function achieved by Chinese shipbuilders. Steam and internal combustion engines, with their superior speed and economy, have already supplanted the sail and the oar on certain routes and in certain types of vessels, and these developments must inevitably continue, but even to-day an immense tonnage of cargo, and uncounted thousands of passengers, are carried by the junks and sampans described in this book. -- Prefactory note.

He is Theseus fighting the terrifying Minotaur, or Perseus battling with snake-haired Medusa. It feels as though he's really there ; The Legendeer is more than just a game. Play it if you dare.

History of Paper in Iran, 1501-1925 Willem Floor, Amélie Courvat Desvergnés, 2022-10-04
The Chinese invented papermaking, which by the 8th century had reached the Muslim world in Samarkand and Baghdad, and Spain by the 11th century. Much later at the end of the 18th century onwards, modern, industrial papermaking was developed by the Europeans. The History of Paper in Iran, 1501 to 1925 sets out for the reader the types of paper made in Iran during the Safavid and Qajar periods and the crucial role imported paper played in the country. The Iranian government attempted to

introduce modern European paper production technology, first by sending students abroad to learn about this technology and then by purchasing equipment to set up a paper industry. However, during the 19th century, domestic Iranian paper production came under increasing pressure from paper imports, and the government abandoned its efforts to modernize the domestic paper industry. The authors, renowned scholar Willem Floor in collaboration with Amélie Couvrat Desvergnés a museum conservator of artworks on paper and books, identify and illustrate the watermarks and/or countermarks of the various paper producers and provide examples of the diversity of quality, composition, and nature of the different types of paper used by various strata of the Iranian society. Also provided are detailed import data, showing which country exported paper to Iran, via which routes, as well as their changing market position over time. Finally, the various end uses of paper, from books and farmans to paintings, and diverse packing and utilitarian paper are examined and, where possible, quantified data are presented. This book will reward scholars and general readers alike.

Storytelling in the Pulp, Comics, and Radio Tim DeForest, 2004-05-20 The first half of the twentieth century was a golden age of American storytelling. Mailboxes burgeoned with pulp magazines, conveying an endless variety of fiction. Comic strips, with their ongoing dramatic storylines, were a staple of the papers, eagerly followed by millions of readers. Families gathered around the radio, anxious to hear the exploits of their favorite heroes and villains. Before the emergence of television as a dominant--and stifling--cultural force, storytelling blossomed in America as audiences and artists alike embraced new mediums of expression. This examination of storytelling in America during the first half of the twentieth century covers comics, radio, and pulp magazines. Each was bolstered by new or improved technologies and used unique attributes to tell dramatic stories. Sections of the book cover each medium. One appendix gives a timeline for developments relative to the subject, and another highlights particular episodes and story arcs that typify radio drama. Illustrations and a bibliography are included.

Martial Arts in the Arts: An Appreciation of Artifacts Michael DeMarco,2013-01-13 Combative forms of movement meet all the criteria required to be called “arts”. Additionally, items associated with martial art theory and practice can be shown in a variety media and appreciated as objets d’art in their own right. This anthology presents the aesthetic side of the martial arts as they are found in numerous examples of material culture and items of fine art. An often neglected but incredibly rich area for seeing martial themes represented in art are museum collections. Five of the fourteen chapters in this book deal with museum collections. In many museums you can find interesting items that reflect aspects derived from a martial tradition. Weaponry is the most

obvious category. You may also discover items in other categories that are directly related, such as painted scrolls and training equipment. Other fascinating items can be hidden in plain sight. It seems martial themes can be found in any museum category, including collections of statuary, ceramics, prints, paintings, jewelry, and calligraphy. For example, there are paintings of famous generals and battles, fearsome statues of temple guardian warriors, and philosophical insights in brush writings. While contemplating a particular collection from the interest of martial traditions, one museum curator said she had never previously thought of the collection from this perspective. – It's enlightening. Objects that exhibit martial themes are made by artists and craftspeople. Only some of these items go into museums. Others are found in personal collections, stores, research institutes, art galleries, universities, practice halls, and elsewhere. Aid in recognizing martial themes in objects is one objective of this book, regardless of where these objects may be found. Who are the real martial art heroes? What symbols were created to represent the warriors' bravery and ethical codes? This anthology—comprised of fourteen chapters conveniently gathered here for your ease of reading—assists anyone interested in discovering the artistic representations of martial traditions. In doing so, we hope that readers who appreciate the contents of this book will be inspired to discover and appreciate the artifacts associated with the martial side of the world's cultural heritage.
