Hiroshige 100 Famous Views of Edo Cristina Berna, Eric Thomsen, Come on the journey from Edo, modern day Tokyo, to Kyoto, as experienced by Utagawa Hiroshige in, when he travelled the road to participate in an important procession in 1832. There were 53 post stations along this important road, apart from the start and terminus, in all 55 prints, which are all here in the order from Edo to Kyoto. This was the most popular print series ever made in Japan. It was even more popular than Hokusai's series Thirty-six Views of Mount Fuji, which had been recently published and which had influenced Hiroshige tremendously (ISBN 9782919787159 as hard cover). It is possible to travel the same road today and some villages are still looking quite like they did back then. The postal stations were constructed between 1601 and 1624.

One Hundred Views of Mt. Fuji Hokusai Katsushika, 1988 Considered Hokusai's masterpiece, this series of images -- which first appeared in the 1830s in three small volumes -- captures the simple, elegant shape of Mount Fuji from every angle and in every context.

Japanese Woodblock Prints Andreas Marks, 2012-03-13 Japanese woodblock prints, or ukiyo-e, are the most recognizable Japanese art form. Their massive popularity has spread from Japan to be embraced by a worldwide audience. Covering the period from the beginning of the Japanese woodblock print in the 1680s until the year 1900, *Japanese Woodblock Prints* provides a detailed survey of all the famous ukiyo-e artists, along with over 500 full-color prints. Unlike previous examinations of this art form, *Japanese Woodblock Prints* includes detailed histories of the publishers of woodblock prints—who were often the driving force determining which prints, and therefore which artists, would make it into mass circulation for a chance at critical and popular success. Invaluable as a guide for ukiyo-e enthusiasts looking for detailed information about their favorite Japanese woodblock print artists and prints, it is also an ideal introduction for newcomers to the world of the woodblock print. This lavishly illustrated book will be a valued addition to the libraries of scholars, as well as the general art enthusiast.

Hiroshige Matthi Forrer, 2017-11-21 This lavishly produced authoritative monograph presents an in-depth view of the life and work of Utagawa Hiroshige, one of Japan's most revered artists. Presented in a style as stunning as the prints it celebrates, this survey of Hiroshige tells the fascinating story of the last great practitioner of ukiyo-e, or pictures of the floating world. Hiroshige is considered to be the tradition's most poetic artist and his work had a marked influence on Western painting towards the end of the 19th century. Vincent van Gogh, Claude Monet, Paul Cézanne, and James Whistler were inspired by Hiroshige's serene depictions of the natural world. Arranged chronologically, this book illustrates through text and magnificent reproductions Hiroshige's youth and early career; his artistic development in the genre of landscape prints; his depictions of Edo and the provinces; the flower and bird prints; and his many popular books and paintings. It discusses the historic and cultural environment in which Hiroshige flourished and the many reasons his art continues to be revered and imitated. Filled with 300 color reproductions, and featuring a clamshell box and Japanese-style binding, this volume is destined to become the definitive examination of Hiroshige's oeuvre.

Hiroshige, 2018

Hiroshige Adele Schlombs, 2016 Utagawa Hiroshige (1797-1858) was one of the last great artists in the ukiyo-e tradition. Literally meaning pictures of the floating world, ukiyo-e refers to the famous Japanese woodblock print genre that originated in the 17th century and is practically synonymous with the Western world's visual characterization of Japan. Though Hiroshige captured a variety of subjects, his greatest talent was in creating landscapes of his native Edo (modern-day Tokyo) and his most famous work was a series known as 100 Famous Views of Edo (1856-1858). This book provides an introduction to his work and an overview of his career.

From the Country of Eight Islands Hiroaki Sato, Burton Watson, 1986 A survey of Japanese poetry contains the works of over one hundred poets from the eighth century to the present.

Cent vues celebres d'Edo Melanie Trede, Lorenz Bichler, 2007 Mr. Renny's paintings are so good that they almost appear real. But no one seems to pay them any attention-until a strange man offers to make everything that Mr. Renny paints come to life. First there's the painting of the apple, which Mr. Renny can now eat. Then there's a huge hotdog, a new car, a cruise liner... Mr. Renny paints himself a life of luxury-until his friend Rose comes to ask if she can buy one of his paintings. But he doesn't have any real paintings left! The spell must be broken-and soon! A book containing subtle references to the work of Belgian surrealist Ren Magritte, the illustrations are full of clever and amusing details.

100 Views of Mount Fuji British Museum, Timothy Clark, 2001 Mount Fuji is renowned worldwide as Japan's highest and most perfectly shaped mountain. Serving as a potent metaphor in classical love poetry and revered since ancient times by mountain-climbing sects of both the Shinto and Buddhist faiths, Fuji has taken on many roles in pre-modern Japan. This volume explores a wide range of manifestations of the mountain in more recent visual culture, as portrayed in more than 100 works by Japanese painters and print designers from the 17th century to the present. Featured alongside traditional paintings of the Kano, Sumiyoshi, and Shijo schools are the more individualistic print designs of Katsushika Hokusai, Utagawa Hiroshige, Munakata Shiko, Hagiwara Hideo, and

others. New currents of empiricism and subjectivity have enabled artists of recent centuries to project a surprisingly wide range of personal interpretations onto what was once regarded as such an eternal, unchanging symbol.
