

168 Hours Laura Vanderkam,2011-05-31 It's an unquestioned truth of modern life: we are starved for time. We tell ourselves we'd like to read more, get to the gym regularly, try new hobbies, and accomplish all kinds of goals. But then we give up because there just aren't enough hours to do it all. Or if we don't make excuses, we make sacrifices- taking time out from other things in order to fit it all in. There has to be a better way...and Laura Vanderkam has found one. After interviewing dozens of successful, happy people, she realized that they allocate their time differently than most of us. Instead of letting the daily grind crowd out the important stuff, they start by making sure there's time for the important stuff. When plans go wrong and they run out of time, only their lesser priorities suffer. Vanderkam shows that with a little examination and prioritizing, you'll find it is possible to sleep eight hours a night, exercise five days a week, take piano lessons, and write a novel without giving up quality time for work, family, and other things that really matter.

The Central Self Patricia M. Ball,2014-01-13 In this closely argued book Dr Ball is concerned to analyse the imaginative process of self-understanding which emerged as a characteristic feature of English Romantic poetry and, acquiring fresh creative force in the Victorian period, has been transmitted to our own times as a determining principle of the contemporary imagination. Dr Ball relates her discussion to the distinction between the poet speaking directly in his own voice and the impulse to dramatised utterance – the two modes of poetic expression conveniently summed up in Keats's contrasting terms 'egotistical sublime' and 'chameleon'. She shows how these 'polar' tendencies co-exist fruitfully in the work of Wordsworth, Coleridge, Byron, Shelley and Keats and from this standpoint supplies a coherent appreciation of the little-regarded

plays written by these poets. Turning to Victorian critics and poets Dr Ball considers how the Romantic inheritance fared at their hands. She sees in the poets, notably Tennyson, Arnold, Browning, and Hopkins, a vital link by which the Romantic commitment to the agency of self-consciousness has been carried forward to the twentieth century and concludes with a brief sketch of the creative role of self-exploration in T. S. Eliot and W. B. Yeats.
