Romance Languages and Linguistic Theory 2011 Sergio Baauw, Frank Drijkoningen, Luisa Meroni, Manuela Pinto,2013-11-06 In 2011, the annual conference series Going Romance celebrated its 25th edition in Utrecht, the founder city of the enterprise. Since its inception in the eighties of the last century, the local initiative has developed into the major European discussion forum for research focussing on the contribution of (one of the) Romance languages to general linguistic theorizing as well as on the working out of in-depth analyses of Romance data within linguistic frameworks. The annual meeting took place on December, 8-10. The present volume is the 5th of the series Romance Languages and Linguistic Theory published by John Benjamins. We publish here a selected set of peer-reviewed articles bearing on topics in phonology, morphology, syntax and semantics, that represent both issues of theoretical nature as well as developments in the field of acquisition. The articles are of great interest for specialists of Romance and for general linguists appreciating parameters and/or language acquisition. Among the contributions are three papers presented by invited speakers (Andrea Calabrese, Ricardo Etxepare and Jason Rothman), while two other very prominent Romance linguists figure as co-authors (Aafke Hulk, Luigi Rizzi).

Cambridge Yearbook of European Legal Studies, Vol 14 2011-2012 Catherine Barnard, Markus Gehring, Iyiola Solanke,2012-12-20 The Cambridge Yearbook of European Legal Studies provides a forum for the scrutiny of significant issues in EU Law, the law of the European Convention on Human Rights, and Comparative Law with a 'European' dimension, and particularly those issues which have come to the fore during the year preceding publication. The contributions appearing in the collection are commissioned by the Centre for European Legal Studies (CELS) Cambridge, a research centre in the Law Faculty of the University of Cambridge specialising in European legal issues. The papers presented are at the cutting edge of the fields which they address, and reflect the views of recognised experts drawn from the University world, legal practice, and the institutions of both the EU and its Member States. Inclusion of the comparative dimension brings a fresh perspective to the study of European law, and highlights the effects of globalisation of the law more generally, and the resulting cross fertilisation of norms and ideas that has occurred among previously sovereign and separate legal orders. The Cambridge Yearbook of European Legal Studies is an invaluable resource for those wishing to keep pace with legal developments in the fast moving world of European integration.
