Under a Wing Reeve Lindbergh, 2009-05-05 A memoir of the Lindbergh family by a daughter of the famous aviator Charles Lindbergh.

A Wing and a Prayer Harry H. Crosby, 2021-09-14 “A compelling account of the air war against Germany” written by the navigator portrayed by Anthony Boyle in Apple TV’s *Masters of the Air* (Publishers Weekly). They began operations out of England in the spring of ’43. They flew their Flying Fortresses almost daily against strategic targets in Europe in the name of freedom. Their astonishing courage and appalling losses earned them the name that resounds in the annals of aerial warfare and made the “Bloody Hundredth” a legend. Harry H. Crosby—depicted in the miniseries *Masters of the Air* developed by Tom Hanks and Steven Spielberg—arrived with the very first crews, and left with the very last. After dealing with his fear and gaining in skill and confidence, he was promoted to Group Navigator, surviving hairbreadth escapes and eluding death while leading thirty-seven missions, some of them involving two thousand aircraft. Now, in a breathtaking and often humorous account, he takes us into the hearts and minds of these intrepid airmen to experience both the triumph and the white-knuckle terror of the war in the skies. “Affecting . . . A vivid account . . . Uncommonly thoughtful recollections that address the moral ambiguities of a great cause without in any way denigrating the selfless valor or camaraderie that helped ennoble it.” —Kirkus Reviews “Re-creates for us the sense of how it was when European skies were filled with noise and danger, when the fate of millions hung in the balance. An evocative and excellent memoir.” —Library Journal “The acrid stench of fear and cordite, the coal burning stoves, the heroics, the losses . . . This has to be the best memoir I have read, bar none.” —George Hicks, director of the Airmen Memorial Museum

A Wing and a Prayer Katharine Jefferts Schori, 2007 Katharine Jefferts Schori is a bishop on the move. She pilots her plane to remote parishes around the sprawling Diocese of Nevada and shares her passionate message of reconciliation and peace. A Wing and a Prayer Anders Gyllenhaal, Beverly Gyllenhaal, 2023-04-18 A captivating drama from the frontlines of the race to save birds set against the devastating loss of one third of the avian population. Three years ago, headlines delivered shocking news: nearly three billion birds in North America have vanished over the past fifty years. No species has been spared, from the most delicate jeweled hummingbirds to scrappy black crows, from a rainbow of warblers to common birds such as owls and sparrows. In a desperate race against time, scientists, conservationists, birders, wildlife officers, and philanthropists are scrambling to halt the collapse of species with bold, experimental, and sometimes risky rescue missions. High in the mountains of Hawaii, biologists are about to release clouds of laboratory-bred mosquitos in a last-ditch attempt to save Hawaii’s remaining native forest birds. In Central Florida, researchers have found a way to hatch Florida Grasshopper Sparrows in captivity to rebuild a species down to its last two dozen birds. In the Sierra Nevada Mountains, a team is using artificial intelligence to save the California Spotted Owl. In North Carolina, a scientist is experimenting with genomics borrowed from human medicine to bring the long-extinct Passenger Pigeon back to life. For the past year, veteran journalists Anders and Beverly Gyllenhaal traveled more than 25,000 miles across the Americas, chronicling costly

experiments, contentious politics, and new technologies to save our beloved birds from the brink of extinction. Through this compelling drama, *A Wing and a Prayer* offers hope and an urgent call to action: Birds are dying at an unprecedented pace. But there are encouraging breakthroughs across the hemisphere and still time to change course, if we act quickly.

On a Wing and a Prayer Sarah Woods, 2015-05-21 As a young child, Sarah Woods imagined going on epic voyages to exotic, illusory lands filled with bizarre creatures, intoxicating rhythms, vibrant colours and other-worldly forests. As soon as she was old enough she packed a bag and set off to see the world for real, leaving friends and family behind to fulfil her childhood dreams. To journey solo through Central and South America was perhaps the ultimate challenge. Leaving the tourist traps behind, Sarah ventured into the wilderness, experiencing disease-ridden swamps, shark-infested waters and dense tracts of primary rainforest that are home to jaguars, anacondas and tusk-gnashing peccaries. One animal, though, is truly emblematic of these forests – the awe-inspiring harpy eagle. But to see it you have to be prepared for serious hardship... Facing gruelling, energy-sapping jungle conditions and constant challenges that saw her question the deepest and most intimate aspects of her life, Sarah's intrepid travels on the trail of iconic wildlife took her through some of the toughest terrain imaginable, and led to encounters with extraordinary indigenous people of the forest, with whom she experienced kindnesses and cultures beyond her wildest dreams. This book tells the incredible story of one woman's adventure into the heart of the rainforest.

On a Wing and a Prayer C. S. Peters, 2010-11 Tense, Exciting, Absorbing, Thoughtful. It is 1940 and the Battle of Britain is raging fiercely in the skies above Great Britain. *On a Wing and a Prayer* is the story of James Graham, a young Fighter Pilot, flying Hurricanes in the daily combat of the Battle. The novel vividly describes James's apprehension and fears of being the new boy on the Squadron. Through passages of descriptive, exciting, action-packed narrative, the story takes the reader - as if in the cockpit with James during dogfight action - to when he becomes an experienced and seasoned Fighter Pilot fighting for survival. During this time he also has to come to terms with the loss of Squadron comrades and friends and other personal tragedy. Through its characters, the novel also tells what it was like, not only for James's family but, also, for civilians, evacuees, rescue workers, those working for the War Effort and for all those in Britain as they awaited - expected to be invaded and over-run. *On a Wing and a Prayer* is the first part of the compelling story of the Graham family as they and others live and survive through the Second World War.

A World on the Wing: The Global Odyssey of Migratory Birds Scott Weidensaul, 2021-03-30 New York Times Bestseller Finalist for the Los Angeles Times Book Prize A Library Journal Best Science and Technology Book of the Year An exhilarating exploration of the science and wonder of global bird migration. In the past two decades, our understanding of the navigational and physiological feats that enable birds to cross immense oceans, fly above the highest mountains, or remain in unbroken flight for months at a stretch has exploded. What we've learned of these key migrations—how billions of birds circumnavigate the globe, flying tens of thousands of miles between hemispheres on an annual basis—is nothing short of extraordinary. Bird migration entails almost unfathomable endurance, like a sparrow-sized sandpiper that will fly nonstop from Canada to Venezuela—the equivalent of running 126 consecutive marathons without food, water, or rest—avoiding dehydration by drinking moisture from its own muscles and organs, while orienting itself using the earth's magnetic field through a form of quantum entanglement that made Einstein queasy. Crossing

the Pacific Ocean in nine days of nonstop flight, as some birds do, leaves little time for sleep, but migrants can put half their brains to sleep for a few seconds at a time, alternating sides—and their reaction time actually improves. These and other revelations convey both the wonder of bird migration and its global sweep, from the mudflats of the Yellow Sea in China to the remote mountains of northeastern India to the dusty hills of southern Cyprus. This breathtaking work of nature writing from Pulitzer Prize finalist Scott Weidensaul also introduces readers to those scientists, researchers, and bird lovers trying to preserve global migratory patterns in the face of climate change and other environmental challenges. Drawing on his own extensive fieldwork, in *A World on the Wing* Weidensaul unveils with dazzling prose the miracle of nature taking place over our heads.

A Wing and a Prayer Katharine Jefferts Schori, 2007-01-01 “A Wing and a Prayer offers profound truths and vivid images of a more peaceful and just world. This powerful book will inspire people of faith and seekers alike to make its vision real.”—Rev. Dr. Katharine Henderson, author of *God's Troublemakers: How Women of Faith Are Changing the World* Katharine Jefferts Schori is a bishop on the move. She pilots her plane to remote parishes around the sprawling Diocese of Nevada and shares her passionate message of reconciliation and peace. As the first female primate in the 500-year history of Anglicanism, she has the opportunity to speak to a far wider audience. “A collections of micro-sermons grouped thematically around issues like social justice, the deep love of God, the need for interfaith understanding, and the responsibility of all baptized persons to participate in lay ministry. Jefferts Schori speaks from an Episcopalian perspective, but also draws on Orthodox, Catholic and other Protestant traditions, making this a thoughtful resource for many different Christian denominations.”—Publishers Weekly “Read this book as a series of daily meditations, and by the end of it you will not only know Bishop Katharine better, but you will find yourself filled with a livelier hope, reenergized for the ministry and mission of all of us baptized in Christ.”—The Rev. Linda Lee Clader, Ph.D., Dean of Academic Affairs and Professor of Homiletics, Church Divinity School of the Pacific

Investigation at Transonic Speeds of Loading Over a 30 Deg Sweptback Wing of Aspect Ratio 3, Taper Ratio 0.2, and NACA 65A004 Airfoil Section Mounted on a Body Donald D. Arabian, 1960 The aerodynamic load characteristics of a wing-body combination were determined experimentally at Mach numbers from 0.80 to 1.03 for angles of attack up to 26 degrees. Two wings,

both with 30 degrees sweep of the quarter-chord line, taper ratio of 0.2, aspect ratio of 3, and thickness of 4 percent chord, but of different types of construction, were tested. One wing was of solid steel and the other was of plastic with an inner steel core ...

Aerodynamic Characteristics of a Delta Wing with Leading Edge Swept Back 45 Degrees, Aspect Ratio 4, and NACA 65A006 Airfoil Section William C. Sleeman, 1949 This paper presents the results of the investigation of wing-alone and wing-fuselage combination employing a delta wing having 45 degree sweepback of the leading edge, aspect ratio 4, and an NACA 65A006 airfoil section. Lift, drag, pitching moment, and root bending moment were obtained for these configurations. In addition, effective downwash angles and dynamic-pressure characteristics in the region of a probable tail location also were obtained for these configurations, and are presented for a range of tail heights at one tail length. In order to expedite publishing of these data, only a brief analysis is included.
