Abu Bakr Resit Haylamaz, 2011-09-16 This book is about Abu Bakr, the first Caliph to rule the world of Islam after the Prophet Muhammad. More important than his achievements as a state leader was his close companionship with Prophet Muhammad, a relationship that earned him the name al Siddiq. He was the only Companion who was privileged to ride alongside the Prophet Muhammad in his great migration to Madina, a turning point in the history of Islam. This book analyzes his exemplary life, his relationship with the Prophet, and his unique role in the birth period of Islam.

Abu Dhabi's Vision 2030 Linda Low, 2012 This book aims to tell the Abu Dhabi story in economic development, from its past dominance in oil to its economic vision for the future. More than being an exemplar of industrial restructuring and diversification from a resource-based to a 21st century knowledge-based economy and society, Abu Dhabi emphasises its cultural legacy and tradition as an environmental advocate for green and sustainable pathways. It has as many challenges as creative responses to show that its success is not by wealth alone. This case study unveils Abu Dhabi in particular and the rest of Arabic and GCC economic development in general. They have all attracted foreign investment and global business, typically as hydrocarbon-rich resource economies. Beyond that, the geoeconomics and geopolitics of the Middle East and North Africa, with or without the Arab Spring in 2011 is in and of itself, a rich region for multidisciplinary studies and research, not just for economics and business. With Qatar, Abu Dhabi boasts of one of the highest per capita income in the world; therein lies a reason to enquire about its success and pivotal role in the GCC and global contexts.

The Business Year: Abu Dhabi 2023 , Featuring dozens of interviews from across every major sector of the economy, we are confident that this publication will be a vital handbook for anybody looking to do business in Abu Dhabi.

Abu Sayyaf Larry Niksch, 2010-10 Abu Sayyaf (AS) emerged in 1990 as a splinter group composed of former MNLF fighters and Filipinos who had fought in Afghanistan. It resorted to terrorist tactics, including executions of civilians, bombings, and increasingly kidnappings for ransom. The AS leadership established links with Jeemah Islamiah, an Al Qaeda-affiliated group in SE Asia that used Mindanao for training and organizing terrorist strikes. Contents of this report: The Philippine Response to 9/11; Historic Muslim Insurgency; AS: Origins, Strength, and Operations; Connections to Al Qaeda and Jeemah Islamiah; Links to the MILF; Philippine Govt. and AFP Policies and Oper.; The 2002 Balikpapan Oper.: U.S. Support Role on Jolo Island and in W. Mindanao; U.S. Military Involvement.

The Report: Abu Dhabi 2014 Oxford Business Group, 2014-03-25 Although the emirate's economic growth can be primarily attributed to its vast hydrocarbons resources, it has also made progress diversifying into new sectors such as manufacturing, tourism, aerospace, defence, finance and logistics. In addition to its economic investments, Abu Dhabi has also made major contributions to social welfare as well as infrastructure, which has been identified as the bedrock for future growth. The government has played a key role in the expansion of the security, aerospace and defence industry over the past decade in an effort to strengthen the UAE's defence capabilities and as a means of boosting economic diversification. Despite challenges such as a high level of regional competition, most local defence and aviation firms expect to see continued expansion for years to come. The evidence suggests that the emirate has succeeded in nurturing new economic sectors and is on track to meet its goals. The oil and gas sector accounted for 56.5% of Abu Dhabi's GDP at current prices in 2012, followed by construction (9.6%), manufacturing (5.9%) and real estate (4.4%).

The Report: Abu Dhabi 2016 Oxford Business Group, 2016-05-09 Subdued oil prices prompted a trimmed federal budget for 2016 as the UAE, like other countries in the region, tightened its belt in response to falling hydrocarbons revenues. However, a sustained focus on economic diversification and targeted investment in Abu Dhabi's key non-oil sectors in recent years means the emirate is well positioned to weather the storm. Looking forward, plans for future development are mapped out in Abu Dhabi Economic Vision 2030, a comprehensive economic policy document that aims to reduce dependence on oil and gas, thereby creating a more sustainable knowledge-based economy for the emirate and its inhabitants. Aided by hydrocarbons reserves that are among the world's largest and substantial financial resources, Abu Dhabi has built up a strong foundation to become a regional leader and an increasingly important global player in a wide variety of sectors, including oil and gas, financial services, health care, aviation and renewable energy.

The Report: Abu Dhabi 2015 Oxford Business Group, 2016-05-09 Hydrocarbons revenues still form the bulk of Abu Dhabi's GDP and while falling prices are a concern, the emirate has been moving steadily towards its economic diversification targets in line with Abu Dhabi Economic Vision 2030. The past 10 years has seen the non-oil sector expand strongly on the back of business-friendly government policies, as a result of which non-oil sector growth now outpaces that of the oil sector. Outside of hydrocarbons, construction and manufacturing represent the biggest GDP contributors in the emirate, with the construction sector poised to enter a period of renewed expansion and manufacturing identified as a key area for future growth, leveraging the emirate's natural resources, growing downstream capabilities and strategic location. Elsewhere Abu Dhabi's financial sector continues to assert itself and the expected 2015 launch of Abu Dhabi Global Market, the UAE's second financial free zone, is expected to boost activity in the sector. Meanwhile visitor numbers to Abu Dhabi continue to rise, with around 3.5m arrivals in 2014, up 25% on the previous year. This growth is expected to continue as major infrastructure upgrades continue apace. These include the expansion of Abu Dhabi International Airport and the development of the 1200-km wide Etihad rail project.

Cultural Heritage, Transnational Narratives and Museum Franchising in Abu Dhabi Sarina Wakefield, 2020-09-22 This publication contributes to new understandings of how heritage operates as a global phenomenon and the transnational heritage discourses that emerge from this process. Taking such a view sees autochthonous and franchised heritage not as separate or opposing elements but as part of the same process of contemporary globalised identity-making, which contributes to the development of newly emergent cosmopolitan identities. The book critically examines the processes that are involved in the franchising of heritage and its cultural effects. It does so by examining the connections and tensions that emerge from combining autochthonous and franchised heritage in the United Arab Emirates, providing a unique window in to the process of creating hybrid heritage in non-Western contexts. It develops new ideas about how this global phenomenon works, how it might be characterised

and how it influences and is itself affected by local forms of heritage. By exploring how autochthonous and franchised heritage is produced in Abu Dhabi in the United Arab Emirates it becomes clear that Western-dominated practices are often challenged and, perhaps more importantly, that new ways of understanding, producing and living with heritage are being articulated in these previously marginal locations. The book offers innovative insights into heritage as a transnational process, exploring how it operates within local, national and international identity concerns and debates. It will appeal to scholars and students interested in critical heritage studies, museums, tourism, cultural studies and Middle Eastern studies.

Characterizing water use at mosques in Abu Dhabi Richard J. Marinshaw, Hazem H. Qawasmeh., 2020-04-16 In areas where Muslims constitute much of the population, mosques can account for a significant portion of overall water consumption. Among the various uses of water at mosques, ablution (i.e., ritual cleansing) is generally assumed to be the largest, by far. As part of an initiative to reduce water consumption at mosques in Abu Dhabi, we collected data on ablution and other end uses for water from hundreds of mosques in and around Abu Dhabi City. This paper takes a closer look at how water is used at mosques in Abu Dhabi and presents a set of water use profiles that provide a breakdown of mosque water consumption by end use. The results of this research indicate that cleaning the mosque (primarily the floors) and some of the other non-ablution end uses at mosques can account for a significant portion of the total water consumption and significantly more than was anticipated or has been found in other countries.

The Neo Abu Sayyaf Bob East, 2020-05-15 The fragmented Abu Sayyaf may be many things, but insurgents fighting for liberation they are not. The various groups, with many leaders, have descended into murderers and kidnappers who show no compassion for their victims. Their sole motivation, and, indeed, obsession, is greed accompanied by fear. This publication follows the rise of criminality in the greater Mindanao region – especially the Sulu Archipelago provinces – in the context of the participation of major state and non-state players in the suppression of the Moros – indigenous Muslims. The Catholic Church comes in for extensive scrutiny for the power it holds in the region. The 70 plus years of deliberate minoritisation of the Moros by various Philippine administrations are brought into the equation in order to understand why a murderous group such as the Abu Sayyaf has, in the main, so much local support. The waxing and waning of the “fortunes” of the Abu Sayyaf in the 20 plus years of its existence, and the inability of the various Philippine administrations to stamp out this criminality is examined. The criminality and brutality of the group, especially in the time since the death of its late co-founder – Khadaffy Janjalani – is documented. It shows an escalation that defies explanation given the thousands of Philippines troops that have been deployed in the Sulu Archipelago provinces of Sulu and Basilan.

The Framing of Mumia Abu-Jamal J. Patrick O'Connor, 2008-05-01 Sentenced to death in 1982 for allegedly killing a police officer named Daniel Faulkner, Mumia Abu-Jamal is the most famous death row inmate in the United States, if not the world. This book is the first to convincingly show how the Philadelphia Police Department and District Attorney's Office efficiently and methodically framed him. It takes you step-by-step through what actually transpired on the night Faulkner was shot, including positioning each of the witnesses at the scene and revealing the identity of the killer. It also details the entire trial and fully covers the tortuous appeals process. The author, a seasoned crime reporter, writes in the language of hard facts, without hyperbole or exaggeration, unfounded accusation or finger-pointing, to reveal the truth about one of the most hotly debated cases of the twentieth century.
