Special Forces Sniper Skills Robert Stirling, 2012-12-20 Special Forces Sniper Skills is a hard hitting account of the men, weapons and techniques used to coldly eliminate high value targets on the battlefield. Though many books have become best-sellers through telling one side of the story – a sniper's experiences, a training manual or a weapons catalogue – none before have combined the whole spectrum of a sniper's life and skills into one gripping book. This book examines the role of the sniper, and the unique skills employed, when serving as part of a Special Forces unit including the British SAS, the US Navy Seals and the Russian Spetznaz. The book is illustrated with photographs of every aspect of the sniper's trade and stories from the real-life experiences of the author's comrades: men who have served in almost every overt and covert conflict since World War II.

Altered Perceptions Kenn Gordon,2020-12-22 I grew up in the Highlands of Scotland. I became a musician whilst still at school. Then I made my first musical instrument, at the age of 13. At the age of 18, I joined the Royal Air Force. I served for 9 years and worked at numerous secret establishments. During my military career, I continued to play in bands and to write music. When I left the RAF, I still played music, forming my own bands and recording over 32 Albums, under various names. I also created

Gordon Guitars, making high end and bespoke guitars. As I grew older, I looked for a new avenue for my creative juices. It is because of this, that I have decided to become a writer. The first novel entitled 'Altered Perceptions' is the first part of a Trilogy featuring. Andy McPhee and Team Seven, of the SIS Black Door Operations. SIS (Secret Intelligence Service) do exist, as do Black Door Ops. What goes on at CDE (Chemical Defence Establishment) Porton Down, is part factual and part fiction. Although this story is fiction, or you could say factional. The Enriched Uranium and Plutonium did go missing from FBR (Fast Breeder Reactor) Dounreay. The Secret Royal Navy program, the Vulcan Project, did take place between the RN (Royal Navy) and Rolls Royce. There were two major accidents at FBR Dounreay, and they were covered up. There still, to this day, remains two miles of off-limit shoreline. Where pieces of Plutonium are being found, on the beach near Dounreay. Much of what happened in this first book, did happen in real life. Some is of course pure fiction. Real names have been changed. Many of the places exist. Gruinard Island was used by the British Government, to test out bacteriological and viral spores of anthrax. The island remained uninhabitable for almost 50 years. The UK has signed up to the Geneva Convention, that bans the use of chemical and biological warfare. Yet it continues to make these banned items. The UK is not alone in this. The USA, France, Belgium, Germany along with many countries in the west. Yet we first world countries, condemn the third world countries, who try to make them. Worse still, in some cases, we even supply these countries, with the parts required to make these weapons of mass destruction. That is a fact.

The war uncalling Sriteja Devarakonda, 2023-05-19 Countries in the middle east are burning with terrorism, and countless terror organizations claiming power make officials at the white house worried. Internal counterterrorism cells prove ineffective and call for assistance. Ex-Syrian Airforce pilot 'Omar' signed up for the unanticipated call, he is involved in everything but never knows

how. Chethan flew from India as an undercover news reporter recruited by a ghost agency worried his family. Omar's newfound love interest works for the national airliner and finally agrees to marry him but it can wait till the bloody open war ends. In another part of the world Mr. Joseph, Director of C.I.A., eliminated the most wanted man on earth but still, the beheadings never stopped. The new self-proclaimed leader is a very familiar face but, who is he? Can the ground forces penetrate the man-made hell on Earth? Should the forces put guns to use or allow peace to save lives? Read on to see who really is deserving to win this battle for humanity.

When the body of an MI5 operative is found floating in the Thames, police frogmen find a significant clue nearby: Nikolai Sereyev, an MI5 informer and mid-level player in a Russian criminal organisation. Both men have been brutally murdered. Andrew Harvey is tasked with finding his colleague's killer, and quickly uncovers a plot to assassinate a visiting dignitary on British soil. No sooner has he scraped the surface of the case than the tables are turned and he becomes a pawn in a game of international brinkmanship that leads all the way to the Kremlin. Harvey's girlfriend, Sarah, also a secret service operative, is hot on his trail, but when she too becomes compromised, security chief Veronica Ellis knows there is only one man she can turn to. He's a loose cannon, but she needs his help to rescue her agent and prevent a full-blown international incident. The trouble is, Tom Gray has gone to ground. Finding him is just the beginning.

The Modern Weaponry of the World's Armed Forces Col. Y Udaya Chandar (Retd.), 2017-04-24 *The Modern Weaponry of the World's Armed Forces* is a treatise of military weaponry. It depicts about forty present-day weapon systems possessed by various nations, describing three to four weapons of each category with images, specifications, origin, development and design briefly. The weapon systems presented are almost all from the twenty-first century or the weapons presently under development. Only a very few officers in the three services know the finer distinctions between, say, cruise missile and ballistic missile, fourth generation jet fighter and fifth generation jet fighter and howitzer and a field gun. All such nuances are explained clearly. The beginning explains the 'history of military weapons' briefly and ends with information on the missile shield erected by most countries including India. The missile shield destroys the hostile incoming aircraft or missile automatically. The missile shield presented is real, exists on the ground today and not fictitious. The militaries win the war with the help of the man who stands erect in the face of the enemy fire and the weapon that is in his hands. All the

students of military science must read this invaluable book about the gun in the hands of a soldier, what exactly it is and how much it matters.

The Last Black President Lamar Chesterton, 2008-08 By

early 2008 it is clear that the female Senator from New Jersey, wife of the late Governor of that state, will be the Republican candidate for President. She will be opposed by the Democratic Mayor of New York City; a former Wall Street Banker. In May '08, a very large Black man, the Governor of Mississippi, makes a startling announcement. He has been called by his personal Savior, Jesus Christ, to run as the Green Party Candidate for the Presidency. At his press conference in Mississippi, the Governor makes several provocative and controversial statements that gain him a small measure of national attention - just enough to set off a chain reaction that will have repercussions in the United States and around the world.
