Adam Wilson

Flatscreen Adam Wilson, 2012-02-21 "OMFG, I nearly up and died from laughter when I read Flatscreen. This is the novel that every young turk will be reading on their way to a job they hate and are in fact too smart for." –Gary Shteyngart, author of Super Sad True Love Story Indie-lit star and Faster Times editor Adam Wilson delivers the gleefully absurd, effortlessly heartwarming story of one young man's struggle to shake off the listless, sexless, stoned mantle of suburban teenage life and become something better. Fortunately (maybe) for Eli, his apathetic quest finds a catalyzing agent in one Mr. Seymour J. Kahn, a paraplegic sex addict and two-bit silver screen star who initiates a mad decent into debasement and (of course) YouTube stardom—a transformation from which there will be no going back.

Sensation Machines Adam Wilson, 2020 Set in a near-future New York City, where the ubiquity of automation has caused mass unemployment and a major market crash, Sensation Machines is by turns a portrait of a marriage in decline, a murder mystery, and a panoramic vision of a post-Trump economic dystopia. Michael and Wendy Mixner are a Jewish Brooklyn-based couple whose marriage is failing in the wake of their daughter's stillbirth. Michael, a Wall Street trader, has secretly lost the couple's life savings. Wendy, a digital marketing strategist, has been hired onto a Cambridge Analytica--style data mining project, whose mysterious owner has ambitions to reshape America's social and political landscapes. When

Michael's best friend is murdered, the evidence leads back to Wendy's client, setting off a dangerous chain of events that will profoundly change the couple--and the country. *Sensation Machines* inhabits the perspectives of the Wall Street bros, the marketing mad men, the Silicon Valley sociopaths--and uncomfortably humanizes them, while considering the ways everyone is complicit in the consequences of late capitalism. *Sensation Machines* is a novel of big ideas, intricate plotting, and keenly observed human drama.

What's Important Is Feeling Adam

Wilson, 2014-02-25 Bankers prowl Brooklyn bars on the eve of the stock market crash. A debate over Young Elvis versus Vegas Elvis turns existential. Detoxing junkies use a live lobster to spice up their love life. Students on summer break struggle to escape the orbit of a seemingly utopic communal house. And in the title story, selected for *The Best American Short Stories*, two film school buddies working on a doomed project are left sizing up their own talent, hoping to come out on top--but fearing they won't. In *What's Important Is Feeling*, Adam Wilson follows the through-line of contemporary coming-of-age from the ravings of teenage lust to the staggering loneliness of proto-adulthood. He navigates the tough terrain of American life with a delicate balance of comedy and compassion, lyricism and unsparing straightforwardness. Wilson's characters wander through a purgatory of yearning, hope, and grief. No one emerges unscathed.

Soft Thunder Adam Wilson, 2014-01-28 An excerpt from Adam Wilson's debut short story collection, *What's Important Is Feeling*, which humorously pinpoints our most desperate moments of longing--sexual and otherwise. *Soft Thunder* is a short story about the members of a high school garage band who fall for the same girl and then keep falling. The twelve stories in *What's*

Important is Feeling follow the through-line of contemporary American coming-of-age: from the ravings of teenage lust, to the soul-deep debauchery of college, and to the stunning loneliness of de facto adulthood—in lovably demented yet incisive prose.

What About Tuesday Adam Wilson, 2015-02-09 Should you ever wake up to find a day of the week missing due to a freak abnormality in the nature of space-time, it's probably a good idea not to mention it to anyone. It's definitely a good idea not to mention it to the slight ginger working for Gently's Private Investigators. You may think it's a good idea, but it'll be way more trouble than it's worth. Really, it's probably best to just go about your day and forget anything ever happened. Cause technically, nothing did.

The Best American Short Stories 2014 Jennifer Egan, Heidi Pitlor, 2014 Presents twenty of the best works of short fiction of the past year from a variety of acclaimed sources.

African American Army Officers of World War I Adam P. Wilson, 2015-10-14 In April 1917, Congress approved President Woodrow Wilson's request to declare war on the Central Powers, thrusting the United States into World War I with the rallying cry, "The world must be made safe for democracy." Two months later 1,250 African American men—college graduates, businessmen, doctors, lawyers, reverends and non-commissioned officers—volunteered to become the first blacks to receive officer training at Fort Des Moines, Iowa. Denied the full privileges and protections of democracy at home, they prepared to defend it

abroad in hopes that their service would be rewarded with equal citizenship at war's end. This book tells the stories of these black American soldiers' lives during training, in combat and after their return home. The author addresses issues of national and international racism and equality and discusses the Army's use of African American troops, the creation of a segregated officer training camp, the war's implications for civil rights in America, and military duty as an obligation of citizenship.

Safety in Numbers Adam Wilson, 2016-11-23 A great story of a lost world. Having seen that world disappear in recent years, it was quite a treat to go on this journey. One of a time and place long gone, but not forgotten. Long before the Disneyfication of modern day Hollywood, it was a run down and left behind wasteland, dangerous, lively, unbounded and free. Where the disenfranchised outcasts, rejected children of the dysfunctional working class, came to find their place, their peace of mind. Roving the tattered shadows and crooked sidewalks of the boulevard, drinking, raising Hell for Hell's sake, looking for action, music, love, inebriation, acceptance, and family, while the rest of the world droned on in mind-numbing normalcy. Adam Wilson's first-hand account of life as a punk in the streets of Los Angeles, the gangs that stuck together for unity, solidarity, and what little they had to fight for, is a powerful and unsung testimonial, well worth reading. Learn what LA was really made of. Read his all telling tale, an honest and open account of a time and place, not likely to ever see the

light of day again. Christiaan Angelo Pasquale

Cadaver Chronicles: the Code of Silence Adam Wilson, Alexandra Daemicke, 2023-06-16 Gavin Hartmann, a well-rounded 17-year-old, dies in a tragic accident and reawakens as a plastinated cadaver on display in a museum exhibit. Fellow plastinates welcome him to their fantastical world and disclose that, as cadavers, they are entrusted guardians of undiscovered biomedical intelligence. As a permanent plastinate, he is assigned a new name, Galen, which complements his new persona as a compassionate physician. Upon probing the boundaries of his new persona, Galen acquires the critical foreknowledge to save his high school crush, Morgan, who has a life-threatening genetic heart disease. Galen has only a few short days to intercede on Morgan's behalf before the exhibit departs for a new location and his new persona fully solidifies, erasing all memories of his past life. Moreover, Galen must comply with the cadavers' Code of Silence to avoid dying indefinitely and must navigate the unthinkable by mingling with the living. With the aid of his newfound plastinated comrades, Galen sets out to save his first love, even though he risks perishing forever.

Half a Life Darin Strauss, 2011-05-31 In this powerful, unforgettable memoir, acclaimed novelist Darin Strauss examines the far-reaching consequences of the tragic moment that has shadowed his whole life. In his last month of high school, he was behind the wheel of his dad's Oldsmobile, driving with friends, heading off to play mini-golf. Then: a classmate swerved in front

of his car. The collision resulted in her death. With piercing insight and stark prose, Darin Strauss leads us on a deeply personal, immediate, and emotional journey—graduating high school, going away to college, starting his writing career, falling in love with his future wife, becoming a father. Along the way, he takes a hard look at loss and guilt, maturity and accountability, hope and, at last, acceptance. The result is a staggering, uplifting tour de force. Tyranny Comes Home Christopher J. Coyne, Abigail
R. Hall, 2018-04-03 Many Americans believe that
foreign military intervention is central to

protecting our domestic freedoms. But Christopher J. Coyne and Abigail R. Hall urge engaged citizens to think again. Overseas, our government takes actions in the name of defense that would not be permissible within national borders. Emboldened by the relative weakness of governance abroad, the U.S. government is able to experiment with a broader range of social controls. Under certain conditions, these policies, tactics, and technologies are then re-imported to America, changing the national landscape and increasing the extent to which we live in a police state. Coyne and Hall examine this pattern—which they dub the boomerang effect—considering a variety of rich cases that include the rise of state surveillance, the militarization of domestic law enforcement, the expanding use of drones, and torture in U.S. prisons. Synthesizing research and applying an economic lens, they develop a generalizable theory to predict and explain a startling trend. *Tyranny Comes Home* unveils a new aspect of the symbiotic relationship between foreign interventions and domestic politics. It gives us alarming insight into incidents like the shooting in Ferguson, Missouri and the Snowden case—which tell a common story about contemporary foreign policy and its impact on our civil liberties.

Helium Adam Wilson, 2015-02-16 Simple and elegant, there's something almost perfect about a Helium atom. The same can't be said for the rest of the world. Jemma and Trak are stuck on opposite sides of a planet dead set on destroying itself. And while they've kept their relationship safe from the chaos around them living inside a virtual

world Trak created, even that can't stay forever. So perhaps it's worth giving up the life they have to try and find something as real and perfect as an atom of Helium. Assuming they can survive.
