USS Counsel (AM-165) Lambert M. Surhone,Mariam T. Tennoe,Miriam T. Timplendon,Susan F. Henssonow,Susan F. Marseken,2010-11-22 Please note that the content of this book primarily consists of articles available from Wikipedia or other free sources online. USS Counsel was an Admirable-class minesweeper built for the U.S. Navy during World War II. She was built to clear minefields in offshore waters, and served the Navy in the Pacific Ocean. She was launched 17 February 1943 by Willamette Iron and Steel Works, Portland, Oregon; and commissioned 27 May 1944, Lieutenant Commander E. C. Davis, USNR, in command. She was reclassified MSF-165, 7 February 1955.

U.S. Navy Minecraft Ken W. Sayers,2023-01-20 In modern naval warfare, offensive and defensive mine operations and the ships that perform them often take a back seat to the more glamorous carrier strike groups, strategic deterrence patrols and anti-submarine operations. Despite their relatively small size and numbers, minecraft have enormous strategic and tactical value. With more than 200 photos, this book details the histories and specifications of more than 2,200 vessels that have served as minelayers and minesweepers, from World War I to today. Rare examples include the U.S. Navy's only purpose-built mine-laying submarine, and the remarkable 36-foot mini minesweeper.

The Navy of World War II, 1922-1947 Paul Silverstone,2012-09-10 The Navy of World War II, 1922-1946 comprehensively covers the vessels that defined this momentous 24-year period in U.S. naval history. Beginning with the lean, pared-down navy created by the treaty at the Washington Naval Conference, and ending with the massive, awe-inspiring fleets that led the Allies to victory in the Second World War, the fourth volume in the celebrated U.S. Navy Warship series presents a detailed guide to all the warships that exhibited the might of the U.S. Navy to the fullest. Showcasing all the ships—both the famous and the often overlooked—that propelled the U.S. Navy to prominence in the first half of the twentieth century, The Navy of World War II catalogues all the warships from this era, including those that did battle in the European, Mediterranean, and Pacific Theaters from 1941-1946. From the fleet attacked at Pearl Harbor, to those that fought valiantly in the Battle of the Guadalcanal, to the official surrender of the Japanese on the deck of the USS Missouri, this latest volume is the definitive guide to the warships that defined this pivotal period in U.S. naval history. Each volume in the U.S. Navy Warship series represents the most meticulous scholarship for its particular era, providing an authoritative account of every ship in the history of the U. S. Navy from its first incarnation as the Continental Navy to its present position as one of the world's most formidable naval superpowers. Featuring convenient, easy-to-read tabular lists, every book in the series includes an abundance of illustrations, some never before published, along with figures for actions fought, damages sustained, casualties suffered, prizes taken, and ships sunk, ultimately making the series an indispensable reference tool for maritime buffs and military historians alike. Children of the Mirna Valley Frank Bevc,2019-07-31 In the quiet farmland of southeastern Slovenia the people of the Mirna Valley endured rule by German lords and the Habsburg Empire for over a thousand years. In the early 1600s, the Bevc Family worked the land in the small village of _entrupert. Three generations and over a hundred years later, their descendants moved to the Debenec hills overlooking the Mirna Valley. The family acquired more land and spread to the nearby towns of Mokronog and Mirna. One Bevc generation, a family of eleven children, found different futures in America or Slovenia. Most traded the green hills and hard work of farming for the harsh life of mining coal in a smoky, industrial town. Each withstood hardships so that their children would have a better life. Many of those children fought in World War II. In Slovenia that meant occupation and partisan resistance; in America, sons went off to war in Europe and the Pacific.

Arms, Transparency, and Security in South-East Asia Bates Gill,J. N. Mak,1997 This report, jointly sponsored by SIPRI and the Maritime Institute of Malaysia (MIMA), draws together the work of eight experts on armaments and Asia-Pacific security affairs to present analysis and extensive data on arms- and defence-related transparency mechanisms in South-East Asia. It also includes a de facto arms trade register for South-East Asia covering the period 1975-96. The book will prove useful to security analysts and policy makers seeking analysis of and practical approaches to transparency and confidence building in South-East Asia.

The Taxpayer Navy M. L. Berry,2022-11-21 Tax dollars wasted on over-priced ships. Good ships decommissioned for no reason. Brand-new shore infrastructure shuttered or ill-maintained. U.S. naval history from 1950 to the present is rife with mismanagement, the consequences of which fall largely on the taxpayers' shoulders. And when most of the people making decisions in the Pentagon have never served on the deck of a ship, is it any wonder? With little to no oversight, the Navy has spent and wasted millions of dollars over the past seventy years. From decommissioning ships early to constructing classes of ships that are less capable than advertised to Congress, the Navy has heavily invested in systems that looked fine on paper but were failures in actual application. This detailed history of the state of commissioned ships includes recommendations for the allocation of funds into improvements that should be made to ensure sustainable and affordable ships for the U.S. Navy of the future. For readers interested in the detailed minutiae related to the development, cost, and lifetime of naval ships or of any military expenditures, for that matter—this book is a must-read manual. The Ship and Vessel index for this publication will be provided by contacting the author at: TheTaxpayerNavy.com

Hidden Warships Nicholas A. Veronico,2015-07-07 A photo-filled tour of wrecked warships around the world, with their stories recounted in “a wonderfully clear [and]

lively style” (Seattle Post Intelligencer). Sunk by enemy fire, scuttled, or run aground, the number of World War II-era battleships, cruisers, submarines, and other warships that ended their service on the bottom of the world’s oceans and seas is enormous. In the decades since the conflict, wreck hunters have pored over historical records and combed the world’s oceans to find their remains. Now you too can see them up close—without getting your feet wet. In *Hidden Warships*, naval historian Nicholas A. Veronico details the history, recovery, and preservation of these sunken combat ships—including accounts from the divers and restorers who have worked with them. Beginning with the Japanese midget submarines that attacked Pearl Harbor and continuing into the modern era, including the 2006 sinking of the postwar aircraft carrier USS Oriskany, Veronico provides rich detail on each noteworthy vessel, including over 150 photographs, ship specifications, geographic coordinates, and more. For the enthusiast who wants an even more complete experience, the book concludes with a list of preserved ships, an Internet resource guide, and a suggested reading list to continue the exploration. Whether you plan on visiting these historic sites yourself or simply enjoy their compelling stories, *Hidden Warships* will guide you, above the surface and underwater, through some of the most famous relics of World War II naval warfare. “A tantalizing selection of sunken vessels, including many recent discoveries.” —Naval History Magazine

Hell to Pay D. M. Giangreco, 2017-10-15 Two years before the atomic attacks on Hiroshima and Nagasaki helped bring a quick end to hostilities in the summer of 1945, U.S. planners began work on Operation Downfall, codename for the Allied invasions of Kyushu and Honshu, in the Japanese home islands. While other books have examined Operation Downfall, D. M. Giangreco offers the most complete and exhaustively researched consideration of the plans and their implications. He explores related issues of the first operational use of the atomic bomb and the Soviet Union’s entry into the war, including the controversy surrounding estimates of potential U.S. casualties. Following years of intense research at numerous archives, Giangreco now paints a convincing and horrific picture of the veritable hell that awaited invader and defender. In the process, he demolishes the myths that Japan was trying to surrender during the summer of 1945 and that U.S. officials later wildly exaggerated casualty figures to justify using the atomic bombs to influence the Soviet Union. As Giangreco writes, “Both sides were rushing headlong toward a disastrous confrontation in the Home Islands in which poison gas and atomic weapons were to be employed as MacArthur’s intelligence chief, Charles Willoughby, succinctly put it, ‘a hard and bitter struggle with no quarter asked or given.’” *Hell to Pay* examines the invasion of Japan in light of the large body of Japanese and American operational and tactical planning documents the author unearthed in familiar and obscure archives. It includes postwar interrogations and reports that senior Japanese commanders and their staffs were ordered to produce for General MacArthur’s headquarters. This groundbreaking history counters the revisionist interpretations questioning the rationale for the use of the atomic bomb and shows that President Truman’s decision was based on real estimates of the enormous human cost of a conventional invasion. This revised edition of *Hell to Pay* expands on several areas covered in the previous book and deals with three new topics: U.S.-Soviet cooperation in the war against Imperial Japan; U.S., Soviet, and Japanese plans for the invasion and defense of the northernmost Home Island of Hokkaido; and Operation Blacklist, the three-phase insertion of American occupation forces into Japan. It also contains additional text, relevant archival material, supplemental photos, and new maps, making this the definitive edition of an important historical work.

Small United States and United Nations Warships in the Korean War Paul M. Edwards, 2015-01-28 From rubber landing boats to picket boats to minesweepers, smaller support vessels did much of the work of the Korean War, and endured many of the dangers and hardships. Rarely mentioned in histories of the war, they served functions essential to keeping the United States Navy and the United Nations partners in active duty. This volume delivers an overview of the various kinds of vessels involved, the difficulties of mobilizing the aging American fleet at a time when a significant downsizing had been expected, and the design and specification considerations of the support vessels needed for the new war effort. It lists the individual support vessels and details the degree of their involvement, often providing photographs as well as comments from men who served aboard the ships.

I Christen Thee, Nebraska Monty McCord, 2005 The fascinating account of U.S. Navy ships named Nebraska comes to life with *I Christen Thee, Nebraska*. Author Monty McCord deftly illustrates the historical significance of these ships in the Navy. Even as early as the Civil War, three ships carried the name Nebraska. Over forty years later in 1907, the USS Nebraska (BB-14) was one of sixteen battleships that steamed around the world with President Theodore Roosevelt’s Great White Fleet (1907-1909). McCord re-creates daily life on these ships with accounts of operations, the sailors’ hardships, recreation, and humor in the early steel Navy. During the 1970s, construction began on a new class of ballistic missile submarines that would include the USS Nebraska (SSBN-739). The Nebraska (BB-14) was the fourteenth battleship built, and, coincidentally, the submarine Nebraska was the fourteenth of its class. This massive submarine was commissioned in 1993 and continues to serve a deterrent mission. McCord also delves into the colorful histories of other Navy ships named after Nebraska people and places, offering a distinct look at a relatively unknown piece of American history.

The Navy of the Nuclear Age, 1947-2007 Paul Silverstone, 2011-04-06 *The Navy of the Nuclear Age, 1947-2007*, the fifth volume in the monumental U.S. Navy Warship series, presents an all-inclusive compendium of the ships that served in the U.S. Navy from the Cold War up through the present day. Featuring radical new developments in warships such as nuclear-powered submarines and carriers equipped with ballistic missiles, the post-World War II period was one of unprecedented technological growth for the U.S. Navy. *The Navy of the Nuclear Age* contains specifications and illustrations for all the ships and submarines that have helped the U.S. to achieve its present-day status as the country with the world’s largest and most powerful navy. A further article about Paul Silverstone and the Navy Warships series can be found at: <http://www.thejc.com/home.aspxParentId=m11s18s180&SecId=180&AId=58892&ATypeId=1>

Alaska at War, 1941-1945 Fern Chandonnet, 2007-09-15 Over the course of the past two hundred years, only one United States territory has experienced foreign occupation: Alaska. Available for the first time in paperback, *Alaska at War* brings readers face to face with the North Pacific front in World War II. Wide-ranging essays cover the war as seen by Alaskan eyes, including the Japanese invasion of the Attu and Kiska islands, the effects of the war on Aleutian Islanders, and the American campaign to recover occupied territory. Whether you’re a historian or a novice student interested in this pivotal period of American history, *Alaska at War* provides fascinating insight into the background, history, and cultural impact of war on the Alaskan homefront.
