Ultimate Speed Samuel Hawley,Craig Breedlove,2018-10-02 An L.A. hot rodder with a high school education, a family to support and almost no money, Craig Breedlove set out in the late 1950s to do something big: harness the thrust of a jet in a car. With a growing obsession that would cost him his marriage, he started building in his dad's garage. The car's name: Spirit of America. Through perseverance and endless hard work, Craig completed Spirit and broke the land speed record on the Bonneville Salt Flats, setting a new mark of 407 mph in 1963. In the early 1970s he turned to rockets and set an acceleration record at Bonneville that stands to this day. He built a jet car in the 1990s, Spirit of America–Sonic Arrow, to go head-to-head against Britain's ThrustSSC to be the first to Mach One. Craig's subsequent crash at 675 mph remains the fastest in history. Even today, at the age of 80, he is going strong with plans for yet another Spirit of America racer. The ultimate goal: 1,000 mph. Ultimate Speed is the authorized biography of Craig Breedlove, a candid revelation of one of motorsports' most interesting figures based primarily on countless hours of interviews with Craig and dozens of people connected to his life.

The book lists the complete vehicle performance and dimensional specifications. It also includes the important but seldom discussed topic of fabrication cost--P. [4] of cover.

Men and Speed G. Wayne Miller,Wayne Miller,2009-09-09 What is it that makes a man strap himself into an automobile and drive it hundreds of laps around a track at speeds surpassing 200 miles per hour? Critically acclaimed journalist G. Wayne Miller decided to find out by spending a year on the NASCAR circuit with Roush Racing's legendary owner Jack Roush and his four title-contending Winston Cup drivers: Mark Martin, Jeff Burton, Matt Kenseth, and Kurt Busch. Miller plumbs the allure of speed and the exploding popularity of stock-car racing through the dramatic 2001 season, which opened with the most famous Daytona 500 in history, when NASCAR legend Dale Earnhardt died as his car slammed into the wall on the final turn. Miller takes us inside the minds and behind the wheels of the of the hottest drivers of the past two seasons, as they cope with the thrills and the dangers along the way to the Cup. Miller also takes us inside Roush Racing, a \$125 million business, showing a side of NASCAR that few fans ever get to see. For longtime fans and curious newcomers alike, Men and Speed takes you for a wild ride through the fastest sport in the land.

Bonneville's Women of Land Speed Racing “LandSpeed” Louise Ann Noeth,2021-07-12 At Bonneville, record holders must first earn the right to present themselves on the starting line. This requires passing rigorous safety and technical checks for driver, rider, and speed machine. Gender is inconsequential. Through the years, more than 200 women have made the cut and donned fireproof clothing and helmets. Dozens have set land speed records--35 in excess of 200 miles per hour, six above 300 miles per hour, and one deaf female racer who roared past 500 miles per hour. Equally impressive are the women who helped propel the helmeted gals into glory. Few know how many women are skilled fabricators, mechanics, crew chiefs, and all-round land speed racing experts, all working out on a brutal, merciless, and barren sodium-soaked playa. And for decades dedicated volunteers have not only put down that all-important starting line but erected a speed village that inspired tens of thousands to visit, taunting the timing lights run after run. Since 1949, women have played an integral part. Without question, land speed racing has more women actively participating and setting records than any other segment of motorsports in the world.

City of Speed Joe Scalzo, 2007 Insider Joe Scalzo details the shops and racers, millionaire sportsmen, hot rod artists and fabricators, and tracks that have made L.A. the epicenter of America's automotive performance industry.

Closing Speed Ted West, 2019-02-08 1970 was the fastest, most fiercely competitive year in endurance-racing history—Porsche versus Ferrari -- in a duel to the death. Written by a journalist who covered the series in that fateful year, Closing Speed tells the dramatic story of the racers, the writers and the women who loved them. Monza, the Targa Florio, Monaco, Spa, the Nürburgring -- the greatest races come alive in a way you've never experienced. From triumph to crushing, heartbreaking loss, you will feel the emotions and fears of the complex players as if you were riding along at 200 miles per hour.

Bonneville Salt Flats "Landspeed" Louise Ann Noeth, 2020-11-09 Astronaut John Glenn used Utah's Bonneville Salt Flats as a landmark from space, but on Earth, amateur motorsports devotees have used the blistering hot, flat land as a speed laboratory for more than a century. On August 22, 1949, the hot rodders joined the pageant of power with their handcrafted cars, trucks, and motorcycles for a one-time event but never stopped coming back, trying to go faster every run down the multi-mile course. All came looking for the answer to the same question: How fast will it go? Those efforts have made them the fastest people on the planet, reaching speeds in excess of 500 miles per hour. On the salt, people find the limits of their courage, learn what daring greatly is all about, and realize why a Bonneville Salt Flats speed record is an internationally respected pedigree. People who race on the salt flats become a family bound together by speed--a powerful force that erases ethnic, economic, political, and religious barriers. They are land speed racers. And this is their story.

The Driver Alexander Roy, 2009-10-13 The riveting memoir of a life lived at the right-hand edge of the speedometer. Alex Roy's father, while on his deathbed, hints about the notorious, utterly illegal cross-country drive from Los Angeles to New York of the 1970s, which then inspired his young son to enter the mysterious world of underground road rallies. Tantalized by the legend of the Driver—the anonymous, possibly nonexistent organizer of the world's ultimate secret race—Roy set out to become a force to be reckoned with. At speeds approaching 200 mph, he sped from London to Morocco, from Budapest to Rome, from San Francisco to Miami, in his highly modified BMW M5, culminating in a new record for the infamous Los Angeles to New York run: 32:07. Sexy, funny, and shocking, The Driver is a never-before-told insider's look at an unbelievably fast and dangerous society that has long been off-limits to ordinary mortals.

The World's Fastest Cars Nick Cook, 2001 Discusses the history and development of some of the world's fastest automobiles, describing the specific features and specifications of such cars as dragsters, Indianapolis 500 race cars, and the supersonic car.

Anatomy of Speed Terry Jackson, 1996 Takes a closer look at exactly how Formula One Indycar and NASCAR race cars are created, perfected and how they function at speed.

Speed Secrets 6 Ross Bentley, 2007-01-15 With racing, as with almost any pursuit, being the best entails having a clear idea of what the best is--having a mental model that instructs and motivates and inspires. That's where Speed Secrets 6 comes in. Drawing on his extensive experience as a competitive driver and coach, author Ross Bentley helps the aspiring professional and the ambitious amateur develop the mental model that is essential for successful racing. His book reviews the techniques needed to drive fast, win races, and build a career as a professional race driver--and then, more importantly, schools readers in the process of turning this clear mental picture into racing perfection.
